

No. 870.

THE FACTORIES LAW, 1956.
(LAW No. 38 OF 1956).

ORDER MADE UNDER SECTIONS 40 (9) AND 41 (5).

In exercise of the powers vested in him by sub-section (9) of section 40 of the Factories Law, 1956, and by sub-section (5) of section 41 of the said Law and read with sub-section (1) of section 3 of the said Law the Governor has been pleased to make the following Order :—

1. This Order may be cited as the Factories (Forms) Order, 1957.
2. A report of the result of an examination made under sub-section (9) of section 40 of the Factories Law, 1956, shall be in the form set out in Form I in the Schedule to this Order when the examination is undertaken when the boiler is cold and in the form set out in Form II in the said Schedule when the examination is undertaken when the boiler is under normal steam pressure.
3. A report of the result of an examination made under sub-section (5) of section 41 of the Factories Law, 1956, shall be in the form set out in Form III in the Schedule to this Order and any supplementary report upon such examination shall be in the form set out in Form IV in the said Schedule.

SCHEDULE.

FORM I.

THE FACTORIES LAW, 1956, SECTION 40 (9).
REPORT OF EXAMINATION OF STEAM BOILER, SUPERHEATER
OR ECONOMISER WHEN COLD.

-
1. Name of occupier.

 2. Address of factory where boiler, superheater or economiser is situated.

 3. Description and distinctive number of boiler, superheater or economiser.

 4. Rating (heating surface in square metres).

 5. Country and year of manufacture.

 6. Date of last hydraulic test (if any) and pressure applied.

 7. Boiler, superheater or economiser :—
 - (a) What examination and tests were made?
 - (b) Condition of boiler, superheater or economiser

{	External :
	superheater or
	economiser
}	Internal :
 - (c) What parts were inaccessible at this examination?
-

8. Fittings and attachments.

- (a) Are there proper fittings and attachments? (a)
- (b) Are all fittings and attachments in satisfactory condition (so far as ascertainable when not under pressure)? (b)

9. Repairs (if any) required, and period within which they should be executed, and other conditions which the authorised boiler inspector thinks it necessary to specify for securing safe working.

10. Maximum permissible working pressure calculated from dimensions and other data ascertained by the present examination; due allowance being made for conditions of working if unusual or exceptionally severe.

Where repairs affecting the working pressure are required, state the maximum permissible working pressure :

- (a) before the expiration of the period specified in (9); (a)
- (b) after the expiration of such period if the required repairs have not been completed; (b)
- (c) after the completion of the required repairs. (c)

11. Other observations.

I, (full name in block letters) hereby declare that I am a boiler inspector, authorised by the Chief Inspector of Factories for the purpose of section 40 of the Factories Law, 1956, by Certificate No. dated , 19 , and that subject to the reservation (noted above) of certain points for examination under steam pressure, on , 19 , the boiler above described was sufficiently scaled, prepared and (so far as its construction permits) made accessible for thorough examination and for such tests as were necessary for thorough examination, and that on the said date I thoroughly examined this boiler, including its fittings and attachments.

I certify that the above is a true report of the result.

Date , 19 .

Address

Signature of authorised Boiler Inspector.

To be attached to the General Register. Space for continuation of Entries.

FORM II.

THE FACTORIES LAW, 1956, SECTION 40 (g).
 REPORT OF EXAMINATION OF STEAM BOILER UNDER
 NORMAL STEAM PRESSURE.

*(This form may also be used (so far as applicable) for supplementary reports
 on economisers and superheaters.)*

1. Name of occupier.

2. Address of factory where steam
 boiler is situated.

3. Description and distinctive number
 of boiler and type.

4. Condition (External).

5. Fittings and attachments.

(a) Is the safety valve so adjusted
 so as to prevent the boiler
 being worked at a pressure
 greater than the maximum
 permissible working pressure
 specified in the last report
 (Form LAB/F/16) on the
 examination when cold?

(b) If a lever safety valve, is the
 weight secured on the lever in
 the correct position?

(c) Is the pressure gauge working
 correctly?

(d) Is the water gauge in proper
 working order?

6. Repairs (if any) required, and period
 within which they should be exe-
 cuted and any other conditions
 which the authorised boiler in-
 spector thinks it necessary to
 specify for securing safe working.

7. Other observations.

I, (full name in block letters)
 hereby declare that I am a boiler inspector, authorised by the Chief In-
 spector of Factories for the purposes of section 40 of the Factories Law,
 1956, by Certificate No. dated , 19 ,
 and that on , 19 , I examined the steam
 boiler above described under normal steam pressure.

I certify that the above is a true report of the result.
