## ■ Article 1 *Scope*

☐ This Act applies in situations where there is a need to evaluate whether a person wishing to take up work in Iceland in an employed or self-employed capacity meets the conditions for exercising a profession which is subject to authorisation, licencing or other equivalent recognition<sup>1</sup> by a regulatory authority based on professional qualifications acquired in another country.

☐ This Act also applies to the mandatory notification of services which are provided in Iceland on a temporary or intermittent basis and which are subject to authorisation, licencing or other equivalent recognition by a regulatory authority.

## ■ Article 2 *Rights*

☐ Nationals of a member state of the European Economic Area or of a country party to an agreement on the mutual recognition of professional qualifications are entitled to pursue a profession in Iceland in a self-employed or employed capacity under the same conditions as Icelandic nationals, provided that they meet the requirements laid down in:

a. Directive 2005/36/EC of the European Parliament and of the Council on the recognition of professional qualifications, and its annexes in their latest versions;

b. such agreements entered into between the governments of the Nordic countries as have come into force as far as Iceland is concerned and provide for general rules on the mutual recognition of professional qualifications,

c. the Hoyvík Agreement of 31 August 2005 between the Government of Iceland, of the one part, and the Government of Denmark and the Home Government of the Faroe Islands, of the other part.

## ■ Article 3 *Competent authorities*

☐ Persons covered by the Directive or any agreement on the recognition of professional qualifications, cf. Article 2, and wishing to pursue an activity in Iceland, must submit an application to [the Ministry],<sup>(1)</sup> unless another authority is competent to resolve the case pursuant to legislative or administrative provisions.
