CIRCULAR H-6/18

LAWS AND GUIDELINES FOR PLANNING AND RESOURCE UTILISATION IN COASTAL MARINE AREAS

Introduction	6
1 The Planning and Building Act in coastal marine areas	8
1.1 Scope	8
1.2 Plan types – Introduction.....	8
1.3 Regional and inter-municipal plans	10
1.4 Municipal master plan	10
1.5 Zoning plan	13
1.6 Building applications.....	15
1.6.1 The Planning and Building Act distinguishes between permanent and temporary projects	15
1.6.2 Guidance	16
1.7 Prohibition on building in the shore zone	17
1.8 Objections from affected authorities	17
1.9 Dispensation from the municipal master plan and zoning plans.....	18
1.10 Participation in the planning	19
1.11 Maps and geodata.....	20
2 The Planning and Building Act as an instrument for coordinated planning...21	
2.1 Introduction.....	21
2.2 Projects and land-use plans that affect marine public access and navigability	21
2.3 Prohibition on the use of water scooters under the Planning and Building Act	22
2.4 Harvesting of kelp and other seaweed.....	24
2.5 Pollution and the environment.....	24
2.6 Aquaculture	25

3	The Nature Diversity Act.....	27
3.1	The implications of the Nature Diversity Act for planning in the coastal zone	27
3.2	Marine protected areas	29
4	Cultural Heritage Act	31
4.1	Key provisions	31
4.1.1	Automatically protected cultural heritage sites and monuments.....	31
4.1.2	Ship finds etc.....	32
4.1.3	Cultural heritage sites and monuments protected by protection orders	32
4.2	Case processing and planning process collaboration.....	33
4.3	Coverage of costs	35
4.4	Knowledge base	35
5	The Pollution Control Act	36
5.1	Key provisions	36
5.2	Application of the Pollution Control Act and the Pollution Control Regulations	37
5.2.1	Polluted seabed	37
5.2.2	Dredging and dumping etc. in the sea and watercourses	38
5.2.3	Building and excavation works in the shore zone	38
5.2.4	Artificial sand beaches	38
5.3	Coordinated application of the Pollution Control Act and the Planning and Building Act.....	39
6	The Water Regulations	41
6.1	Important provisions in the planning process.....	41
6.1.1	The water management plans.....	41

7	The Norwegian Armed Forces' use of marine coastal areas.....	43
7.1	Restricted areas.....	43
7.2	Shooting and exercise ranges	43
7.3	Land-use policy instruments	44
7.4	Map and depth data	44
8	The Energy Act and Offshore Energy Act	46
9	The Aquaculture Act	48
9.1	Introduction	48
9.2	Key provisions	49
9.2.1	Chapter 2 of the Act – Aquaculture licences	49
9.2.2	Chapter 3 of the Act – Environmental considerations.....	52
9.2.3	Chapter 4 of the Act – Land use	53
9.2.4	Chapter 5 of the Act – Registration, transfer and mortgaging of aquaculture licences	53
9.2.5	Public access and prohibition on fishing: marking of aquaculture facilities	54
9.2.6	Case processing and collaboration in the planning process	54
10	The Outdoor Recreation Act.....	56
10.1	Introduction	56
10.2	Key provisions.....	56
10.3	Relationship between the Outdoor Recreation Act and the Planning and Building Act.....	58
11	The Harbour and Fairways Act	59
11.1	Key provisions.....	59
11.2	Case processing and collaboration in the planning process	62

12	The Marine Resources Act	64
12.1	Introduction	64
12.1.1	To whom do the marine resources belong?	64
12.1.2	New act – wider area of application.....	64
12.1.3	Fundamental considerations and principles in the Act.....	65
12.1.4	Obligations to the Sami people	65
12.2	Case processing and collaboration in the planning process	65
