# Main pillars in the Norwegian Action Plan

## Integrity and openness in public administration

1. Guidance for the fulfilment of the duty to journaling and archiving documents
2. Making energy statistics available
3. E-access and potential expansion of e-access in the municipal sector

## Open data and reuse of public data

4. Implementing a strategy for open cultural data
5. Digital Spatial planning processes with adapted guidance and Area statistics Profiles

## Public procurement, information on the beneficial owners and anticorruption

6. Streamline and improve public procurement by full digitalisation of the procurement process
7. Preventing corruption
8. Establish public register of the beneficial owners
