

[REPUBLIC ACT NO. 11539, May 18, 2021]

**AN ACT GRANTING INSTANT DATA INC. A FRANCHISE TO
CONSTRUCT, INSTALL, ESTABLISH, OPERATE AND MAINTAIN
TELECOMMUNICATIONS SYSTEMS THROUGHOUT THE
PHILIPPINES**

Be it enacted by the Senate and House of Representatives of the Philippines in Congress assembled:

SECTION 1. *Nature and Scope of Franchise.* - Subject to the provisions of the Constitution and applicable laws, rules and regulations, there is hereby granted to Instant Data, Inc., hereunder referred to as the grantee, its successors or assignees, a franchise to construct, install, establish, operate, and maintain for commercial purposes and in the public interest, throughout the Philippines and other countries and territories, wire and/or wireless telecommunications systems including mobile cellular, fixed line, paging, trunked radio, fiber optics, multi-channel multipoint distribution system (MMDS), local multi-point distribution system (LMDS), satellite transmit and receive systems, switches, and their value-added services such as the transmission of voice, data, images, facsimile, control signs, audio and video, and all other telecommunications systems technologies as are at present available or will be made available through technological advances or innovations in the future; and/or construct, acquire, lease and operate, or manage transmitting and receiving stations, landing stations of submarine cables, lines, systems or other cables as it may consider necessary and convenient to efficiently carry out the purpose of this franchise.

SEC. 2. *Manner of Operation of Stations or Facilities.* — The stations or facilities of the grantee shall be constructed and operated in a manner as will, at most, result only in the minimum interference on the wavelengths or frequencies of existing stations or other stations which may be established by law, without in any way diminishing its own privilege to use its assigned wavelengths or frequencies and the quality of transmission or reception thereon as should maximize rendition of the grantee's services and/or the availability thereof.

SEC. 3. *Authority of the National Telecommunications Commission.* — The grantee shall secure from the National Telecommunications Commission (NTC) a Certificate of Public Convenience and Necessity or the appropriate permits and licenses for the construction, installation, and operation of its telecommunications systems or facilities. In issuing the certificate, the NTC shall have the power to regulate and impose such conditions relative to the construction, operation, maintenance, or service level of the telecommunications systems or facilities. Such certificate shall state the areas covered and the date the grantee shall commence the service. The grantee shall not use any frequency in the radio spectrum without authorization from the NTC. The NTC, however, shall not unreasonably withhold or delay the grant of such authority, permit, or license.

In case of any violation of the provisions of this franchise, the NTC shall have the authority to revoke or suspend, after due process, the permits or licenses it issued pursuant to the franchise. The NTC may recommend to the Congress of the Philippines (Congress) the revocation of the franchise for any violation of the provisions of this franchise.

SEC. 4. *Excavation and Restoration Works.* - For the purpose of erecting and maintaining poles or other supports for said wires or other conductors for the purpose of laying and maintaining underground wires, cables, or other conductors, it shall be lawful for the grantee, its successors or assignees, with the prior approval of the Department of Public Works and Highways (DPWH) or the local government unit (LGU) concerned, as may be appropriate, to make excavations or lay conduits in any of the public places, roads, highways, streets, lanes, alleys, avenues, sidewalks, or bridges of the province, cities and/or municipalities: *Provided, however,* That a public place, road, highway, street, lane, alley, avenue, sidewalk, or bridge disturbed, altered or changed by reason of erection of poles or other supports or the underground laying of wires, other conductors or conduits shall be repaired and replaced in workmanlike manner by said grantee, its successors or assignees, in accordance with the standards set by the DPWH or the LGU concerned. Should the grantee, its successors or assignees, after the ten (10)-day notice from the said authority, fail, refuse, or neglect to repair or replace any part of public place, road, highway, street, lane, alley, avenue, sidewalk, or bridge disturbed, altered or changed by the said grantee, its successors or assignees, then the DPWH or the LGU concerned shall have the right to have the same repaired and placed in good order and condition at double the amount spent for such repair or replacement.

SEC. 5. *Responsibility to the Public.* — The grantee shall conform to the ethics of honest enterprise and not use its stations/facilities for obscene or indecent transmission, or for dissemination of deliberately false information, or willful misrepresentation, or assist in subversive or treasonable acts.

The grantee shall operate and maintain all its stations, lines, cables systems, and equipment for the transmission and reception of messages, signals, fed pulses in a satisfactory manner at all times, and as far as economical and practicable, modify, improve, or change such stations, lines, cables, systems, and equipment to keep abreast with the advances in science and technology.

The grantee shall improve and extend its services in areas not yet served, and in hazard and typhoon-prone areas that shall determined by the National Disaster Risk Reduction and Management Council, or its legal successor, in coordination with the NTC.

The grantee shall also improve and upgrade its equipment, facilities and services, in order to ensure effective compliance with the objectives of Republic Act No. 10639, or "The Free Mobile Disaster Alerts Act."

SEC. 6. *Rates for Services.* — The charges and rates for telecommunications services of the grantee, except the rates and charges on those that may hereafter be declared or considered as nonregulated services, whether flat rates or measured rates or variation thereof, shall be subject to the approval of the NTC or its legal successor. The rates to be charged by the grantee shall be unbundled, separable,

and distinct among the services offered and shall be determined in such a manner that regulated services do not subsidize the unregulated ones.

SEC. 7. *Right of the Government.* - The radio spectrum is a finite resource that is part of the national patrimony and the use thereof is a privilege conferred upon the grantee by the Senate and may be withdrawn any time after due process.

A special right is hereby reserved to the President of the Philippines, in times of war, rebellion, public peril, calamity, emergency, disaster, or disturbance of peace and order: to temporarily take over and operate the facilities or equipment of the grantee; to temporarily suspend the operation of any facility or equipment in the interest of public safety, security and public welfare; or to authorize the temporary use and operation thereof by any agency of the government, upon due compensation to the grantee, for the use of said facilities or equipment during the period when these shall be so operated.

SEC. 8. *Term of Franchise.* - This franchise shall be in effect for a period of twenty-five (25) years from the date of the effectivity of this Act, unless sooner cancelled. This franchise shall be deemed *ipso facto* revoked in the event the grantee fails to comply with any of the following:

- (a) Commence operations within three (3) years from the approval of its operating permit by the NTC;
- (b) Commence operations within three (3) years from the effectivity of this Act; and
- (c) Operate continuously for two (2) years.

SEC. 9. *Renewal or Extension of Franchise.* - The grantee shall apply for the renewal or extension of its franchise three (3) years before its expiration which shall be reckoned from fifteen (15) days after the publication of the franchise in the *Official Gazette* or in a newspaper of general circulation.

SEC. 10. *Bond.* - The grantee shall file a bond with the NTC in the amount that it shall determine to guarantee compliance with and fulfillment of the conditions under which this franchise is granted. If, after three (3) years from the date of the approval of its permit by the NTC, the grantee shall have fulfilled the conditions, the bond shall be cancelled by the NTC. Otherwise, the bond shall be forfeited in favor of the government and the franchise *ipso facto* revoked.

SEC. 11. *Right of Interconnection.* - The grantee is hereby authorized to connect or demand connection of its telecommunications systems to other telecommunications systems installed, operated, and maintained by any other duly authorized person or entity in the Philippines for the purpose of providing extended and improved telecommunications services to the public, under such terms and conditions mutually agreed upon by the parties concerned and the same shall be subject to the review and modification of the NTC.

SEC. 13. *Mobile Number Portability.* - The grantee shall provide mobile number portability (MNP) and its implementing mechanism, including the required infrastructure and processes, and shall interconnect, directly or indirectly, with the infrastructure, facilities, systems, or equipment of other telecommunications
