

[EXECUTIVE ORDER NO. 124-B, July 22, 1987]

REORGANIZING THE METROPOLITAN MANILA FLOOD CONTROL AND DRAINAGE COUNCIL, ATTACHING IT TO THE DEPARTMENT OF PUBLIC WORKS AND HIGHWAYS, PROVIDING FOR A METROPOLITAN MANILA FLOOD CONTROL AND DRAINAGE FUND ACCOUNT IN THE NATIONAL TREASURY AND FOR OTHER PURPOSES.

WHEREAS, there is an urgent need to mitigate the recurring floods in Metropolitan Manila which have caused significant economic losses and public inconvenience;

WHEREAS, it is deemed exigent to establish an effective coordination mechanism among national and local government agencies to achieve the efficient provision of flood control and drainage service for the people of Metropolitan Manila;

WHEREAS, Section 29 of Executive Order No. 124 dated 30 January 1987 prescribes the reorganization of the Metropolitan Manila Flood Control and Drainage Council;

NOW, THEREFORE, I, CORAZON C. AQUINO, President of the Philippines, do hereby order:

SECTION 1. Reorganization of the Metropolitan Manila Flood Control and Drainage Council. Pursuant to Section 29 (c) of the aforementioned Executive Order No. 124, the Metropolitan Manila Flood Control and Drainage Council, hereinafter referred to as the Council, is hereby reorganized in accordance with the provisions of this Executive Order and shall be attached to the Department of Public Works and Highways.

SEC. 2 Composition of the Council. The Council shall be composed of the Secretary of Public Works and Highways as Chairman; the Governor of the Metropolitan Manila Commission as Vice-Chairman; and the Mayors of the cities and municipalities comprising Metropolitan Manila as Members.

SEC. 3. Powers and Functions of the Council. The Council shall have the following powers and functions:

- a. Coordinate the development of policies, plans, and programs for flood control and drainage in Metropolitan Manila, including the identification of project priorities
- b. Oversee the coordinated implementation by the concerned agencies of such policies, plans, and programs
- c. Conduct consultations with local communities and adopt appropriate measures to make flood control and drainage services responsive to the needs of the
