**PROJECT DESCRIPTION**

Two types of commodities will be supplied under this Project. The first type will consist of support commodities which shall be used directly by the PHILIPPINES as part of its national development programs in the education and health sectors and thus ensuring continuity to ongoing CIDA assistance. The second type will consist of industrial commodities which shall be sold to-public or private agencies/groups in order to generate local currency. The net peso proceeds arising from the sale of the commodities will be deposited into a special account named Canada-Philippines Development Counterpart Fund pursuant to the Memorandum of Understanding (MOU) signed on 19 December 1988.

Following are the commodities that may be financed under this Project, unless otherwise agreed to by CIDA and NEDA through an exchange of letters:

A. Support Commodities

1. Paper for textbook in support for the Secondary Education Development Program (SEDP);
2. Vaccines, related equipment and supplies for Expanded Program on Immunization (EPI);

B. Industrial Commodities

1. Fertilizers such as potash and urea;
2. Thermal coal;
3. Steel (slabs and coil); and
4. Other commodities such as zinc ingots, ammonia and graphite electrodes.

The type and quantity of commodities sourced under this Project will be determined by mutually agreed Annual Procurement Plans prepared by NEDA with the assistance of the CIDA procurement advisor/monitor. The acceptability of Canadian commodities to the PHILIPPINES will, in part, be based on their continued competitiveness compared to other international sources. All commodities, with the exception of the vaccines, will be procured by the PHILIPPINES' designated purchasers through a competitive tendering process. In the case of vaccines, Supply and Services Canada will conduct the procurement. For all other commodities, the PHILIPPINES' designated purchasers will issue the tenders to Canadian Suppliers as described in Annex "D".

A procurement advisor/monitor will be hired by CIDA to assist NEDA and CIDA in the project's implementation. The consultant will monitor the procurement activities, provide up-to-date information on the PHILIPPINES' requirements,
