

AGREEMENT BETWEEN THE REPUBLIC OF THE PHILIPPINES AND THE WORLD HEALTH ORGANIZATION CONCERNING THE SECOND ADDENDUM TO THE REVISED PLAN OF OPERATION FOR MALARIA ERADICATION TRAINING CENTRE IN MANILA

Reference: This Agreement is also published in VIII DFA TS No. 1, p. 118.

THE GOVERNMENT OF THE REPUBLIC OF THE PHILIPPINES, hereinafter referred to as "the GOVERNMENT," and the WORLD HEALTH ORGANIZATION, hereinafter referred to as "WHO," have agreed to the following ADDENDUM TO THE REVISED PLAN OF OPERATION FOR MALARIA ERADICATION TRAINING CENTRE in San Lazaro Hospital Compound, Manila, Philippines, signed by the Government on 8 September 1964 and by WHO on 3 July 1964, and to the subsequent first Addendum thereto and exchange of letters.

The purpose of this Addendum is to record continuation of the agreement for the years 1969 and 1970:

PART I

PROGRESS OF THE PROJECT

The progress of the project towards the objectives laid down in the Plan of Operation has been as follows:

I. TRAINING ACTIVITIES

1.1 The following training activities have taken place from October 1967 to the end of December 1968;

.. 1	Number of participants trained	800
2.	Number of countries which have benefited from this training	36
3.	Total number of courses arranged	32
4.	Types, numbers of courses and of participants -	

a. General courses		Number of Courses	Number of Participants
i.	For Senior Professional Staff	6	140
ii.	For Technical Personnel	4	112
b. Special Courses			
i.	In Advanced Epidemiology (Professional)	5	116
ii.	In Epidemiology (Technical)	1	22
iii.	In Entomology (Professional)	2	39
iv.	In Parasitology and Entomology (Technical)	1	43
v.	In Parasitology (Technical)	1	23
vi.	In Administrative Management (Professional)	1	22
vii.	For the United States of America Peace Corps	5	125

Volunteers (Professional)		
viii. For Public Health Administrator (Professional)	4	113
ix. General Course for Instructors (Technical)	2	45

2. ASSISTANCE TO OTHER TRAINING INSTITUTIONS

The Malaria Eradication Training Centre, on request from the Institute of Hygiene, University of the Philippines, also arranges lectures and demonstrations as and when required on the principles and practice of malaria eradication for participants attending courses at the Institute.

3. OTHER ACTIVITIES

3.1 Parasitological laboratory services of the Malaria Eradication Training Centre

- a. The Malaria Eradication Training Centre acts as a referral centre for the National Malaria Eradication Service, Government of the Republic of the Philippines, as well as for other hospitals and dispensaries when required.
- b. It is maintaining strains of *Plasmodium gallinaceum* and *P. berghei* for teaching purposes.
- c. When required, the laboratory supplies materials for teaching to other institutions and agencies.

3.2 Entomological laboratory service of the Malaria Eradication Training Centre

- a. A colony of *Aedes albopictus* is being maintained for transmission of *P. gallinaceum* as an aid to teaching activities.
- b. An attempt is being made to raise a colony of *A. litoralis*, a local saline water-breeder. The critical link in the life cycle is the mating process and this has been achieved by the artificial mating method. The colony is now in the F2 generation.

3.3 Chemotherapeutic aspects

Preliminary studies on the degree of sensitivity of the local strain of *P. falciparum* to 4-aminoquinolines and other anti-malarial drugs are in progress, to assist the Malaria Eradication Programme of the Philippines (Philippines 0053 project).

PART II

OBJECTIVES

The objectives are as outlined in the Plan of Operation.

PART III PLAN OF ACTION

The plan of action remains essentially the same as laid down in the Plan of Operation. The following subjects will be included in some of the courses for senior
