FIFTH SCHEDULE Major modifications to amusement rides

SIXTH SCHEDULE Fees

AMUSEMENT RIDES SAFETY ACT 2011
(ACT 6 OF 2011)

AMUSEMENT RIDES SAFETY
REGULATIONS 2011

In exercise of the powers conferred by section 72 of the Amusement Rides Safety Act 2011, the Minister for National Development hereby makes the following Regulations:

PART I

PRELIMINARY

Citation and commencement

1. These Regulations may be cited as the Amusement Rides Safety Regulations 2011 and shall come into operation on 1st July 2011.

Definitions

2. In these Regulations, unless the context otherwise requires —

“access level”, in relation to a zip line or roller glider, means a level surface below the zip line or roller glider that permits the access and deployment of a fire engine via a road that —

- (a) has a minimum width of 4 metres;
- (b) is metalled, paved or laid with strengthened perforated slabs; and
- (c) has a minimum loading capacity of 20 tonnes of fire fighting appliances;

[S 465/2020 wef 01/01/2021]

“aerial ropeway” means a device for the carriage of patrons with seats, chairs or enclosures which are lifted clear of the ground and are —

- (a) attached to or supported by a moving rope or cable; or
- (b) attached to a moving rope or cable but supported by a standing rope or cable or any other overhead structure,

and includes a cable car, a chair-lift or a ski-lift;

“air-inflated enclosure” means a device (whether or not the device contains openings) that is —

- (a) made of plastic membrane or other similar material that is not air-permeable;
- (b) inflated to allow one or more patrons to be enclosed within the device, so that no part of the patron is outside of the device when the device is in use; and

[S 465/2020 wef 01/01/2021]

- (c) intended to be used for rolling or floating on any ground or water surface or bouncing against other similar devices, for the amusement or entertainment of patrons;

[S 465/2020 wef 01/01/2021]

“American National Standards Institute” means the standards organisation of that name in the United States of America;

“applicable standard or code”, in relation to an amusement ride specified in the first column of the First Schedule, means —

- (a) the most current version of any standard or code, issued by any standards organisation or body, or by the Commissioner under regulation 28, corresponding to that amusement ride set out in the second column of that Schedule; and
- (b) if there is a combination of standards or codes set out in the second column of that Schedule corresponding to that amusement ride, collectively, the most current version of all the standards or codes specified in that combination;

“ASTM Committee F24 Standards” means the standards developed by the ASTM International Committee F24 on Amusement Rides and Devices and issued by ASTM International;

“ASTM International” means the international standards organisation of that name;

“authorised” —

- (a) in relation to the design and specifications or the proposed installation method and programme of an amusement ride that is to be or is being installed, means authorised by the installation permit authorising the installation of the amusement ride; and
- (b) in relation to the design and specifications or the proposed modification method and programme of an amusement ride that is to undergo or is undergoing a major modification, means authorised by
