Study on trends in energy efficiency in selected Caribbean countries

Bruno Lapillone

This document was prepared by Bruno Lapillone for the Economic Commission for Latin America and the Caribbean (ECLAC), in the framework of a technical cooperation programme with the French Environment and Energy Management Agency (ADEME) and the Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ).

The work was carried out under the supervision of Didier Bosseboeuf from ADEME and Ruben Contreras Lisperguer and Willard Phillips from ECLAC.

The views expressed in this document, which has been reproduced without formal editing, are those of the author and do not necessarily reflect the views of the Organizations.

Contents

Introduction	7
A. Objectives and content	7
B. Data sources	8
C. Main results.....	9
I. Energy consumption and intensity trends	11
A. Trends in energy consumption	11
1. Primary energy consumption.....	11
2. Final consumption	12
B. Trends in primary and final energy intensities	13
C. Trends in sectoral energy intensities	16
II. Energy efficiency trends in the energy sector	19
III. Energy efficiency trends for households	23
A. Overall trends.....	24
B. Energy consumption by end-use	26
IV. Energy efficiency trends in transport	29
A. Trends in consumption.....	29
B. Road transport	31
V. Energy efficiency trends in industry	37
A. Energy consumption patterns	37
B. Energy intensity trends	38
VI. Energy efficiency trends in services	41
A. Energy consumption patterns	41
B. Energy intensity trends	43
C. Consumption by branch and for public lighting	45

VII. Energy efficiency in agriculture 47

Bibliography.....49

Annex 51

Annex 1..... 52
