DEPARTMENT OF ECONOMIC AND SOCIAL AFFAIRS

The Department of Economic and Social Affairs of the United Nations Secretariat is a vital interface between global policies in the economic, social and environmental spheres and national action. The Department works in three main interlinked areas: (i) it compiles, generates and analyses a wide range of economic, social and environmental data and information on which Member States of the United Nations draw to review common problems and to take stock of policy options; (ii) it facilitates the negotiations of Member States in many intergovernmental bodies on joint courses of action to address ongoing or emerging global challenges; and (iii) it advises interested Governments on the ways and means of translating policy frameworks developed in United Nations conferences and summits into programmes at the country level and, through technical assistance, helps build national capacities.

NOTE

Symbols of United Nations documents are composed of capital letters combined with figures.

The designations employed and the presentation of material in this publication do not imply the expression of any opinion whatsoever on the part of the Secretariat of the United Nations concerning the legal status of any country, territory, city or area, or of its authorities, or concerning the delimitation of its frontiers or boundaries.

Where the designation “country or area” appears in this publication, it covers countries, territories, cities or areas. In previous issues of this publication, where the designation “country” appears in the headings of tables, it should be interpreted to cover countries, territories, cities or areas.

In some tables, the designation “developed” economies is intended for statistical convenience and does not necessarily express a judgement about the stage reached by a particular country or area in the development process.

PREFACE

The *2016 International Trade Statistics Yearbook* (2016 ITSY) is the sixty-fifth edition of this yearbook. Its objective is to inform about the detailed merchandise and services imports and exports of individual countries (areas) by commodity and service category and by partner country (volume I), the world trade in individual products (3-digit SITC groups and 11 main EBOPS categories) (volume II) and total world merchandise trade - up to the year 2016. The two volumes are prepared at different points in time during 2017: *Volume I - Trade by Country* is made electronically available in June, and *Volume II - Trade by Product*, in December, as the preparation of the tables in Volume II requires additional country data which, normally, become available later in the year.

Beginning with the 2013 edition, trade in services data was introduced to the *International Trade Statistics Yearbook: Volume I - Trade by Country and Volume II – Trade by Product*. Therefore, the content and format of the yearbook were redesigned to take into account new additions of graphs/tables and analytical text. The data used in the tables and graphs in both volumes of the yearbook are taken at a specific time (June/November 2017) from the publicly available UN Comtrade (<http://comtrade.un.org>). Users are advised to visit the database for additional and more current information as it is continuously updated.

The *International Trade Statistics Yearbook* is prepared by the Trade Statistics Branch of the Statistics Division, Department of Economic and Social Affairs of the United Nations Secretariat. Under the general supervision of the Chief of Branch, Ronald Jansen, the programme manager is Markie Muryawan and the chief editor is Melissa Paca, assisted by Marjorie Imperial-Damaso. Bekuretsion Amdemariam has the leading role in the processing of the data for UN Comtrade and Htu Aung for UN Service Trade. Habibur Rahman Khan, Kenneth Iversen, Nancy Snyder, Karoly Kovacs, Salomon Cameo and Markie Muryawan provided valuable contribution to the inclusion of trade in services data and the improvement of production processes. However, all staff of the branch are involved in the generation of the data and the review/validation of the yearbook. Markie Muryawan, Salomon Cameo and Luis Gonzalez Morales developed the original software which is maintained by Melissa Paca and Daniel Buenavad.

Comments and feedback on the yearbook are welcome. They may be sent to comtrade@un.org / tradeserv@un.org or to United Nations Statistics Division, Trade Statistics Branch, New York, New York 10017, USA.
