

1970 WORLD CENSUS OF AGRICULTURE

REGIONAL PROGRAM FOR THE NEAR EAST

1970 WORLD CENSUS OF AGRICULTURE

REGIONAL PROGRAM FOR THE NEAR EAST

**FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS
ROME 1967**

PREFACE

The Thirteenth Session of the FAO Conference in its Resolution No. 3/65 on the 1970 World Census of Agriculture, emphasized the role and the importance of agricultural censuses in development planning and in improving current agricultural statistics, and approved for distribution among Member Nations of the Organization and nonmembers the Program for the 1970 World Census of Agriculture, as finalized by the Statistics Advisory Committee.

The 1970 World Census Program covers a great variety of conditions in different parts of the world. Within the framework of this Program regional census programs have been prepared. The Regional Program for the Near East consists of two parts: I — World Program; II — Near East Supplement to the World Program.

The aim of the Supplement is to indicate modifications in the World Program to adapt it to the conditions and needs prevailing in the Near East region. The Supplement has been prepared on the basis of recommendations obtained from the Seminar on the 1970 World Census of Agriculture for countries of the Near East region, held in Amman, Jordan, 11-18 December 1965. The seminar recommended a number of additions and modifications required to obtain within-regional comparability of items where it would not be possible to achieve worldwide comparability.

As in 1960, the items proposed in the present program are printed in two distinct types, **bold** and ordinary. The list consisting of those items printed in **bold type**, whether in the World Program or in the Supplement, is called the "Short List." The "Expanded List" consists of all items whether printed in bold or ordinary type.

The Short List items are considered to be of major importance in the world and/or regional agriculture and data on these items are desired to be collected from all countries of the Near East. However, no country is expected to collect information concerning an item which is of little or no importance to the country itself, even though that item is included in the Short List. The items in the Expanded List, which are not in the Short List, are those which the countries may wish to add to the Short List according to their needs and conditions when making their census plans.

The Regional Program consists of 11 sections numbered from 0 to 10. Sections 2, 8 and 9 of the World Program remain unchanged for the Near East region and, accordingly, no mention is made of these sections in the Supplement. In order to facilitate reading of this Regional Program, additions and modifications to the World Program outlined in the Supplement are indicated hereafter.
