#### EXPLANATORY NOTES

References to "tons" indicate metric tons, unless otherwise specified.

A dash (—) indicates that the amount is nil, or less than half the unit used.

Two dots (..) indicate that data are not available, or are not separately reported.

A full stop (.) is used to indicate decimals.

Use of a hyphen between years, e.g., 1965-1966, indicates the full period involved, including the beginning and end years.

Details and percentages in tables do not necessarily add up to totals, because of rounding.
