I. Advancing the rules of origin agenda for the least developed countries: Challenges and opportunities 1996–2017	1
I.1. Path towards the Bali Decision in 2013	3
I.2. An assessment of the Bali Decision	4
I.3. From the Bali Decision to the Nairobi Decision in 2015	5
I.4. An assessment of the Nairobi Decision.....	9
I.5. Beyond the Nairobi Decision, 2016–2017	13
I.6. Back to work: The least developed countries thematic submission in 2018–2019 and beyond.....	14
I.6.1. Introduction.....	14
I.6.2. Direct consignment rule	14
I.6.3. Recent work on utilization rates.....	21
II. Utilization rates as key instrument to measure effectiveness of rules of origin and duty-free, quota-free schemes for the least developed countries	31
II.1. Impact of broad reform of rules of origin: Evidence from the utilization rates of Canada and the European Union.....	31
II.2. Comparison: Utilization rates and trade effects in Japan and the United States	34
III. Stringency of rules of origin and utilization rates: Evidence from econometric modelling	44
III.1. Product-specific rules of origin coding: Time varying measure of rules of origin stringency	44
III.2. Empirical model and data.....	45
III.3. Preliminary results and conclusions	46
IV. Making further progress: Accepting lessons learned, best practices and taking the lead	48
IV.1. Lessons learned.....	48
IV.1.1. Setting priorities and the debate on the form and substance of rules of origin	48
IV.1.2. Lessons learned: The issue of cumulation	48
IV.2. Best practices and technical issues.....	49
IV.2.1. Best practices in drafting percentage criterion rules of origin	49
IV.2.2. The issue of the level of percentages.....	51
IV.2.3. Treatment of freight and insurance costs in the value of originating and non-originating inputs.....	54
V. Framing the debate for progress towards better rules of origin for the least developed countries	55
V.1. Background and way forward	55
V.1.2. Framing the debate for further progress at Committee of Rules of Origin	56

Figures

Figure 1	Distribution of tariff lines over utilization rate values	25
Figure 2	China utilization rates, preference margins and eligible imports from the least developed countries.....	26
Figure 3	China utilization rates, preference margins and eligible imports from the least developed countries.....	26
Figure 4	Canada imports from effective least developed countries and Generalized System of Preferences utilization rates	32
Figure 5	European Union imports from effective least developed countries and Generalized System of Preferences utilization rates	32
Figure 6	European Union imports from Cambodia and Generalized System of Preferences utilization rates: Bicycles.....	33
Figure 7	United States total imports from effective least developed countries excluding African Growth and Opportunity Act beneficiaries.....	35
Figure 8	United States total imports from effective least developed countries excluding African Growth and Opportunity Act beneficiaries: Non-agricultural products, excluding fuel	36
Figure 9	United States imports from effective least developed countries excluding African Growth and Opportunity Act beneficiaries: Jewellery products. HS Heading 7113.....	37
Figure 10	United States imports from effective least developed countries excluding African Growth and Opportunity Act beneficiaries: Articles and equipment for sports. HS Heading 9509.....	37
Figure 11	United States imports from effective least developed countries excluding African Growth and Opportunity Act beneficiaries: Bicycles and other cycles (non-motorized) HS Heading 8712	38
Figure 12	United States total imports from effective least developed countries, African Growth and Opportunity Act beneficiaries.....	39
Figure 13	United States total imports from effective least developed countries, African Growth and Opportunity Act beneficiaries: Non-agricultural products excluding fuel	39
