Nationally Appropriate Mitigation Action Study on Sustainable Charcoal in Uganda

*Empowered lives.
Resilient nations.*

UNDP partners with people at all levels of society to help build nations that can withstand crisis, and drive and sustain the kind of growth that improves the quality of life for everyone. On the ground in 177 countries and territories, we offer global perspectives and local insight to help empower lives and build resilient nations. www.undp.org

MDG Carbon is an innovative programme to harness the resources of the carbon market in order to bring long-term sustainable development, at scale, to wide range of developing countries. Since its launch in 2007, MDG Carbon has assisted developing countries in implementing a host of low-carbon interventions, spanning multiple technologies, active in all regions of the world, and leveraging significant amounts in private-sector millions of dollars in independent co-investments. www.mdgcarbon.org

Perspectives GmbH is an independent, highly qualified consulting firm that provides advice to private sector, governmental and non-governmental clients in the international greenhouse gas (GHG) market. Perspectives was founded in 2003. Its core competencies are Clean Development Mechanism (CDM) project management (including Programmes of Activities), identification and quantification of GHG reduction opportunities in developing countries, development of underlying CDM baseline and monitoring methodologies, provision of climate policy advice, and implementation of capacity building on climate change issues in developing countries. Perspectives' staff have a high-level, interdisciplinary education in the field of economics and environmental/industrial engineering. With offices in Hamburg, Germany and Zürich, Switzerland, Perspectives serves more than 70 clients with projects in over 40 countries.

Project Coordinator: Alexandra Soezer (UNDP MDG Carbon)

Authors: Arindam Basu, Courtney Blodgett, and Nicolas Müller (with a special thanks to Rainer Nerger for his assistance) at Perspectives Climate Change and Alexandra Soezer the United Nations Development Programme (UNDP MDG Carbon).

Acknowledgments: The study benefitted from an internal UNDP review, as well as valuable assistance from stakeholders in Uganda including: Berta Pesti (UNDP LECB), Godfrey Ndawula (MEMD Assistant Commissioner, New and Renewable Sources of Energy Division), John Tumuhimbise (MEMD Principal Energy Officer), Paul Isabirye (Climate Change Unit), Dr Igbokwe Kennedy (FAO), Lucas Black (UNDP GEF), Vincent Kienzler (Green Bio Energy), Musiimenta Boaz (PMO), Stephen Mutimba (Camco), Daniel McMondo and Onesimus Muhwezi (UNDP Kampala), and Susan Abbo and Karsten Bechtel (CREEC).

Table of Contents

Acronyms	4
Foreword	8
Executive Summary	9
I. Introduction	10
1.1. Background	11
1.2. Scope	12
1.3. Structure	13
II. Nationally Appropriate Mitigation Action	14
III. Charcoal Sector	15
3.1. Production	15
3.2. Value Chain	16
3.3. Policies in Sub-Saharan Africa	17
IV. Current Charcoal Situation in Uganda	18
4.1. Background	18
4.2. Policies and Programmes	25
4.3. Institutional Framework	29
V. Technology Options for Improved Production	30
5.1. Baseline Production	30
5.2. Types of Technology Interventions	31
5.3. Selected Technologies	32
VI. The NAMA Concept	36
6.1. Charcoal Value Chain	37
6.2. Sustainable Charcoal Production	39
6.3. Sustainable Woodlot/Forest Management	43
6.4. Institutional Framework:	46
6.5. Policies	55

VII. Measuring, Reporting and Verification	56
7.1. MRV Objective	56
7.2. Monitoring Results	56
7.3. Understanding Impacts Using the Correct Result Indicators	67
7.4. Emissions Reductions and Sustainable Development Benefits	68
7.5. Economic Evaluation of Activities	69
VIII. Assessment of Support Needs	70
8.1. Financing, Technology and Capacity Needs	70
8.2. Scale of the Problem	70
8.3. Cost Estimation	72
8.4. Potential Donors	78
IX. Next Steps	80
References	81

Acronyms

BAU	Business-as-usual
BEST	Biomass Energy Strategy
BTC	Belgium Technical Corporation
BUR	Biennial update report
CCU	Climate Change Unit
CDM	Clean Development Mechanism
CERs	Certified emission reductions
CH₄	Methane
CIM	Centre for International Migration
cm	Centimetres
CME	NAMA coordinating and managing entity
CO₂	Carbon dioxide
CO₂e	Carbon dioxide equivalent
COP	Conference of the Parties
CSO	Civil society organization
EAP	Environment Action Plan
EB	Executive Board
EE	Energy efficiency
EPAC	Energy Policy Advice Component
FAOSTAT	Food and Agriculture Organization Corporate Statistical Database
GEF	Global Environment Facility
GHG	Greenhouse gas
GIS	Geographic information system
GIZ	German Agency for International Cooperation (Gesellschaft für Internationale Zusammenarbeit)
hp	Horsepower
hr	Hours
ICA	International consultation and analysis
IRIN	Integrated Regional Information Networks
KfW	Reconstruction Credit Institute (Kreditanstalt für Wiederaufbau)
kg	Kilogram
km	Kilometer
kW	Kilowatt
kWe	Kilowatt equivalents
kWh	kilowatt hour
LDCs	Least developed countries

LPG	Liquefied petroleum gas
LSC	Large scale
MEM	Ministry for Energy and Minerals ¹
MEMD	Ministry of Energy and Mineral Development
MRV	Measurement, Reporting and Verification
MNRT	Tanzanian Ministry of Natural Resources and Tourism
MoFPED	Ministry of Finance, Planning and Economic Development
MW	Megawatt
MWLE	Ministry of Water, Lands and Environment
MWE	Ministry of Water and Environment ²
NAMA	Nationally Appropriate Mitigation Action
NCV	Net calorific value
NEA	National Environment Act
NEAP	National Environment Action Plan
NEMP	National Environment Management Policy
NFA	National Forestry Authority
NFP	Uganda National Forestry Policy
NGOS	Non-governmental organizations
NPA	National Planning Authority
NTF	National Task Force for Biomass Energy
RE	Renewable energy
SBL	Standardized baseline
SME	Small- and medium-sized enterprises
SSC	Small-scale
t	Metric tonne
tCO₂e	Metric tonnes of CO ₂ equivalents
TJ	Terajoule
UGX	Ugandan shilling
UNDP	United Nations Development Programme
UNFCCC	United Nations Framework Convention on Climate Change
WB	World Bank
WE	Wood equivalent
X_{NRB}	Non-renewable biomass
