## Acknowledgements

The methodology development for the regulatory review of the electricity market of Africa is a result of a continental initiative to crowd-in private sector participation in Africa's electricity markets. The initiative is a result of a partnership between the UN Economic Commission for Africa (ECA), through its SDG 7 Finance initiative spearheaded by Dr. Vera Songwe, United Nations Under-Secretary-General and Executive Secretary of ECA, and the RES4Africa Foundation, through its Missing Links initiative spearheaded by Mr. Roberto Vigotti, Secretary General of the RES4Africa Foundation. The methodology development, under the guidance and technical contribution of Mr. Robert Lisinge, Chief of Section for Energy, Infrastructure, and Services (EISS) of ECA, was led on ECA side by Mr. Yohannes G. Hailu, energy policy expert with EISS, and on RES4Africa side by Mr. Luca Marena, former Africa program coordinator with RES4Africa, and Mr. Andrea Renzulli, senior policy expert at RES4Africa. Technical contributions were provided by Mr. Anthony Monganeli and Mr. Soteri Gatera, EISS energy and infrastructure experts, and by Mr. Antonio Passero and Mr. Leonhard Braun, renewable energy experts from RES4Africa. Administrative and logistical support for the initiative was ably provided by Ms. Sissay Tadesse (EISS).

The valuable support of AFRY Management Consulting in the conception and development of this methodological framework is acknowledged.

The regulatory review methodology was developed in three phases. During the first phase (March-August 2019), energy and infrastructure policy and regulation experts from ECA and RES4Africa developed the initial concept and skeleton of the draft methodology. In September 2019, as part of a second phase, a consultative meeting was held with seasoned energy policy and regulation experts from Africa and beyond. The following experts and sector leaders participated in this consultative meeting on the draft methodology concept.

From continental and regional organizations and national energy sector institutions: Mr. Peter N. Kinuthia, Senior Energy Policy Advisor, African Union Commission; Mr. Solomon Sarpong, Senior Energy Economist, African Development Bank; Mr. James Manda, Technical Manager, African Forum for Utility Regulators; Mr. Hichem Jemai, Director of Administration and Finance, Association of Power Utilities of Africa; Mr. Elijah C. Sichone, Executive Secretary, Regional Electricity Regulators Association of Southern Africa; Mr. Yawovi Negbegble, Principal Power Regulatory Officer, ECOWAS Regional Electricity Regulatory Authority; Mr. Charles Omusana, Principal Economist for Investment and Private Sector Promotion, East African Community Secretariat; Mr. Yiheyis E. Gudeta, Acting Director for Energy Policy, Ministry of Water, Irrigation, and Energy of Ethiopia; Mr. Peter R. Twesigye, Manager of Regulatory Affairs, UMEME Ltd, Uganda; and Ms. Martha Cheruto, Engineer in-Charge, Kenya Power.

From development organizations, the private sector, foundations, and international experts: Dr. Albert Butare, former State Minister of Energy of Rwanda and CEO of Africa Energy Services Group; Ms. Fatma Ben Fadhl, Senior Energy Advisor, Global Environmental Finance Unit of UNDP; Dr. Neissan A. Besharati, Associate Director, Deloitte Development Africa of Deloitte Consulting; Mr. John K. Kalua, CEO, Green Africa Foundation; Ms. Catherine M. Oxby, Chief Commercial Officer, Africa GreenCo; Prof. Meine P. van Dijk, International Institute of Social Studies at Maastricht School of Management; Prof. Jose P. Igancio, Director, Center for Energy and Environmental Policy Research of the Sloan School of Management at MIT; Mr. Riccardo

Siliprandi, Principal, and Mr. Amedeo Accorsi, Consultant, Pöyry Management Consulting (now AFRY Management Consulting). Their expert inputs and valuable contributions have greatly improved the quality of the draft methodology.

The third phase of the methodology development process involved the validation of the methodology and subsequent finalization in March 2020. Aside from some participants from the second phase, the following additional experts and institutions participated in the methodology validation meeting: Dr. Getahun Mogus, Director General, Ethiopian Energy Authority; Dr. Daniel K. Ampofo, former Chairman, Energy Commission of Ghana; Mr. John T. Tumuhimbise, Assistant Commissioner, Ministry of Energy and Mineral Development of Uganda; Mr. Peter T. Mwangi, Assistant Director of Renewable Energy, Ministry of Energy of Kenya; Mr. Pierre Kiala, Director of International Cooperation, Ministry of Energy and Water of Angola; Mr. Allan K. Chivunda, Energy Officer, Department of Energy of Zambia; Mr. Jalil Slimani, International Cooperation Analyst, Moroccan Agency for Sustainable Energy (MASEN); Ms. Antoinette Habinshuti, Head of Regulation and Strategic Planning, Energy Utility Corporation Ltd of Rwanda; Prof. Thomson Sinkala, CEO, Thormo Investment Ltd of Zambia; Ms. Ruse T. Moleshe, Director, Energy Solutions Consulting Ltd of South Africa; and Mr. Solomon A. Asfaw, Senior Researcher, LUT University, Finland. Their inputs during the validation meeting were greatly helpful and contributed towards the refining, improvement, and finalization of the Regulatory Review of the Openness, Attractiveness, and Readiness (ROAR) methodology.

The initiative received publication logistical support from ECA Sub-Regional Office for Eastern Africa. The technical and graphic design work by Epsilon Publishers Ltd is acknowledged.
