1 Introduction

The objective of the Africa Environment Outlook – Environment Information System (AEO-EIS) is to act as a standard information system for African nations to acquire, process, and disseminate information relevant to sustainable development. A key feature of AEO-EIS is to assist in developing State of Environment reports on the national, sub-regional and regional levels. AEO-EIS provides tabular, graphical, and spatial reports. AEO-EIS has multiple language interface; English, French, and Arabic.

This user manual familiarizes users with the different databases; Data and Indicators, Experts Database, Documents Database, Security Module, and their data entry, search, and reporting capabilities with simple step-by-step instructions and images.

The Data and Indicators module allow users to acquire and search for data variables and indicators that can assist in identifying the state of environment and development on national, sub-regional, and regional levels. Users can receive outputs as tabular, graphical, and geographical reports.

The Experts database acts as a standard Experts information system for African nations to acquire, process, and disseminate information relevant to environment and development Experts, especially worked on producing national and regional state of environment reports. A key feature of the Experts database is to assist in identifying experts on the national, sub-regional and regional levels.

The Documents database provides a standard Document management information system for the African nations to acquire, process, and disseminate information relevant to available documents and reports. The database would contain all the reference that is being used in producing national, sub-regional, and regional state of environment reports.

This user manual familiarizes users with the different data entry, search, and reporting capabilities of Africa-Documents with simple step-by-step instructions and images.

2 How to Run AEO-EIS

Select from the Start Menu > Programs > AEO-EIS > AEO-EIS. The system will start as shown in Figure 1

Figure 1 Log in Screen

- Enter User Name and Password.
- Select default Interface language (English – Arabic – French).
- Click the OK button.

Main Menu will start as in Figure 2.
