

KIRIBATI

State of the Environment Report 2000-2002

Government of the Republic of Kiribati 2004

PREPARED BY THE

ENVIRONMENT AND CONSERVATION DIVISION
Ministry of Environment
Lands & Agricultural Development

Nei Akoako

Ngkoa, Ngkai ao n Taaainako

GOVERNMENT OF THE REPUBLIC OF KIRIBATI

Acknowledgements

The report has been collectively developed by staff of the Environment and Conservation Division. Mrs Tererei Abete-Reema was the lead author with Mr Kautoa Tonganibeia contributing to Chapters 11 and 14. Mrs Nenenteiti Teariki-Ruatu contributed to chapters 7 to 9. Mr. Farran Redfern (Chapter 5) and Ms. Reenate Tanua Willie (Chapters 4 and 6) also contributed.

Publication of the report has been made possible through the kind financial assistance of the Secretariat of the Pacific Regional Environment Programme.

The front coverpage design was done by Mr. Kautoa Tonganibeia.

Editing has been completed by Mr Matt McIntyre, Sustainable Development Adviser and Manager, Sustainable Economic Development Division of the Secretariat of the Pacific Regional Environment Programme (SPREP).

Table of Contents

ACKNOWLEDGEMENTS	I
TABLE OF CONTENTS	II
CHAPTER 1 INTRODUCTION	1
1.1 GENERAL	1
1.2 STATE OF THE ENVIRONMENT REPORT	2
CHAPTER 2. GENERAL ENVIRONMENTAL SITUATION IN KIRIBATI.....	4
2.1 POLICY STATEMENTS	4
2.1.1 <i>Government</i>	4
2.1.2 <i>Environment and Conservation Division</i>	4
2.2 LEGISLATION	5
2.3 INTERNATIONAL CONVENTIONS AND TREATIES:	6
2.4 PLANNING DOCUMENTS	7
2.4.1 <i>National Development Strategies (NDS)</i>	7
2.4.2 <i>Medium Term Strategy (MTS)</i>	7
2.4.3 <i>National Environmental Management Strategies</i>	8
2.5 MAPS	8
2.6 AERIAL PHOTOGRAPHS:	9
2.7 SATELLITE IMAGERY / GEOGRAPHICAL INFORMATION SYSTEM:	10
CHAPTER 3. CLIMATE	11
3.1 INTRODUCTION	11
3.1.1 <i>General</i>	11
3.1.2 <i>Availability of Data</i>	11
3.2 PRESENT STATE OF THE ENVIRONMENT	11
3.2.1 <i>Temperature</i>	11
3.2.2 <i>Atmospheric pressure</i>	12
3.2.3 <i>Humidity</i>	12
3.2.4 <i>Solar radiation</i>	12
3.2.5 <i>Wind</i>	12
3.2.6 <i>Cloudiness</i>	12
3.2.7 <i>Rainfall</i>	13
3.2.8 <i>Droughts</i>	14
3.2.9 <i>Natural hazards</i>	14
3.2.10 <i>Evaporation</i>	14
3.2.11 <i>Sunshine</i>	15
3.3 DATA GAP.....	16
CHAPTER 4 GEOLOGY	17
4.1 INTRODUCTION	17
4.1.1 <i>General</i>	17
4.1.2 <i>Availability of Data</i>	17
4.2 PRESENT STATE OF THE ENVIRONMENT	18
4.2.1 <i>Geomorphology</i>	18
4.2.2 <i>Sediments & soils</i>	19
4.2.3 <i>Stratigraphy</i>	21
4.2.4 <i>Mineralogy</i>	22
4.3 PRESSURE ON THE STATE OF THE ENVIRONMENT.....	23
4.3.1 <i>Disturbance of reef flat ecology for reef build-up</i>	23
4.3.2 <i>Mining of sand and gravel</i>	24
4.3.3 <i>Blasting of reef for boat channels</i>	24
4.3.4 <i>Clearance of natural vegetation</i>	24
4.4 RESPONSES TO PRESSURE ON THE ENVIRONMENT.....	25
4.4.1 <i>Foreshore Management Committee</i>	25
4.4.2 <i>Offshore Extraction of Sand and Gravel</i>	25
4.5 DATA GAPS.....	25

5. LAND	26
5.1 INTRODUCTION	26
5.1.1 <i>General</i>	26
5.1.2 <i>Availability of Data</i>	26
5.2 PRESENT STATE OF THE ENVIRONMENT	26
5.2.1 <i>Classification</i>	26
5.2.2 <i>Development projects</i>	28
5.2.3 <i>Extractive Industry Operations</i>	30
5.2.4 <i>Land Use Potential</i>	30
5.2.5 <i>Potentially Contaminated Land</i>	31
5.2.6 <i>Public Complaint Register</i>	32
5.2.7 <i>Scenic Sites and Landscapes:</i>	32
5.3 PRESSURE ON THE STATE OF THE ENVIRONMENT	32
5.3.1 <i>Urbanization on South Tarawa</i>	32
5.3.2 <i>Development applications</i>	33
5.4 RESPONSES TO ENVIRONMENTAL PRESSURE	33
5.4.1 <i>Mandating Environmental Impact Assessments</i>	33
5.4.2 <i>Contaminated Land Assessment</i>	33
5.4.3 <i>Resettlement schemes</i>	33
5.5 DATA GAPS	33
CHAPTER 6 WATER RESOURCES	34
6.1 INTRODUCTION	34
6.1.1 <i>General</i>	34
6.1.2 <i>Availability of Data</i>	34
6.2 STATE OF THE ENVIRONMENT: WATER RESOURCES OF KIRIBATI	34
6.2.1 <i>Rainfall</i>	34
6.2.2 <i>Groundwater resources</i>	35
6.2.3 <i>Water quality</i>	37
6.2.4 <i>Water use</i>	38
6.2.5 <i>Other Water Production and Supply Systems</i>	38
6.3 PRESSURE ON WATER RESOURCES	40
6.3.1 <i>Population growth</i>	40
6.3.2 <i>Water catchments</i>	40
6.3.3 <i>Leakage in the underground reticulation system on South Tarawa</i>	40
6.3.4 <i>Water contamination</i>	40
6.3.5 <i>Salinisation of Potable water supply</i>	40
6.3.6 <i>Trees and food crops</i>	41
6.4 RESPONSES TO PRESSURE ON WATER RESOURCES	41
6.4.1 <i>Water supply maintenance and improvement</i>	41
6.4.2 <i>Multilateral and Bilateral Aid</i>	42
6.4.3 <i>Desalination</i>	42
6.4.4 <i>Prohibition of agricultural activities on water reserves</i>	42
6.4.5 <i>Appropriate Technologies</i>	43
6.4.6 <i>Conclusions</i>	43
6.5 DATA GAP	43
CHAPTER 7. FLORA	44
7.1. INTRODUCTION	44
7.1.1 <i>General</i>	44
7.1.2 <i>Availability of Data</i>	44
7.2 PRESENT STATE OF THE ENVIRONMENT	44
7.2.1 <i>Terrestrial Flora</i>	44
7.2.2 <i>Marine Flora</i>	45
7.2.3 <i>Threatened and endangered species</i>	45
7.2.4 <i>Habitat diversity</i>	45
7.2.5 <i>Species Distribution</i>	46
7.2.6 <i>Significant Ecosystems</i>	46
7.2.7 <i>Introduced Flora</i>	50

7.2 PRESSURES ON THE FLORA (ENVIRONMENT)	50
7.3.1 Pests	50
7.3.2 Vegetation Clearing	51
7.3.3 Agriculture	51
7.3.4 Stresses on Mangroves	52
7.3.5 Degradation and loss of habitat.....	53
7.3.6 Plant Diseases	53
7.4 RESPONSES TO ENVIRONMENT PRESSURE.....	53
7.4.1 Establishment of Conservation Areas	53
7.4.2 Kiribati National Biodiversity Strategy and Action Plan (NBSAP) November 1999	54
7.4.3 Kiribati Mangrove Management Plant	55
7.4.4 Control and Management of Pests	55
7.4.5 Quarantine	56
7.4.6 Kiribati Eco-forestry Project.....	56
7.5 DATA GAPS	56
CHAPTER 8. FAUNA	58
8.1 INTRODUCTION	58
8.1.1. General	58
8.1.2. Availability of Data	58
8.2 PRESENT STATE OF THE ENVIRONMENT	58
8.2.1 Terrestrial fauna	58
8.2.2 Avifauna.....	60
8.2.3. Marine Fauna	62
8.2.4 Offshore fishery.....	64
8.2.5 Commercial Fisheries	65
8.2.6 Recreation & Tourism Fisheries	68
8.2.7 State of Fisheries	68
8.3 PRESSURES ON THE ENVIRONMENT.....	70
8.3.1 Population Pressure	70
8.3.2 Unsustainable harvesting of marine resources	71
8.3.3 Introduction of predatory alien species	71
8.3.4 Avifauna populations and habitats disturbances.....	71
8.4 RESPONSES TO ENVIRONMENTAL PRESSURES	71
8.4.1 Kiribati National Biodiversity Strategy and Action Plan (NBSAP) November 1999.....	71
8.4.2 Monitor fish export through quarantine and licenses of all marine products.....	72
8.4.3 Discourage destructive fishing methods and gears	72
8.4.4 Moving towards establishment of one Marine Protected Area (MPA).....	72
8.4.5 Continuation of the general assessment and monitoring of commercial target marine species for baseline data using:.....	72
8.4.6 Cultivating certain species for spawning	72
8.4.7 Ban on fish traps.....	73
8.4.8 Strict monitoring of catch and control measures of fishing effort.....	73
8.4.9 Conduct assessments of coral reef fish	73
8.4.10 Use of local people in the harvests of in-shore fishery resources	73
8.4.11 Ban of chemicals (cyanide & copper sulphate) and antibiotics.....	73
8.4.12 Ban of coral trading in Kiribati	73
8.5 DATA GAPS	73
CHAPTER 9. MARINE RESOURCES OF THE COASTAL ECOSYSTEMS	74
9.1 INTRODUCTION	74
9.1.1 General	74
9.1.2 Availability of Data	74
9.2 STATE OF THE ENVIRONMENT.....	74
9.2.1 Biological oceanography.....	74
9.2.2 Chemical oceanography.....	77
9.2.3 Coastal oceanography.....	77
9.2.4 Waves	78
9.2.5 Coastal habitats/ecosystems of Kiritimati	78
9.2.6 Marine Habitats of Kiritimati.....	79

9.2.7	Coral Reefs.....	80
9.2.8	Near-pristine Phoenix islands.....	82
9.3	PRESSURES ON THE ENVIRONMENT.....	84
9.3.1	Continuing Population Growth.....	84
9.3.2	Overly Efficient and Destructive Methods of Resource Harvesting.....	84
9.3.3	Land-based sources of pollution.....	85
9.3.4	Causeway constructions along South Tarawa.....	85
9.3.5	Natural threats to Coral Reefs.....	86
9.4	RESPONSES TO ENVIRONMENTAL PRESSURES.....	86
9.4.1	Effective enforcement of pollution abatement regulations.....	86
9.4.2	Re-opening of natural passages and causeways.....	86
9.4.3	Banning of destructive fishing methods and gears.....	86
9.4.4	Establishment of marine protected sites and conservation zones.....	86
9.4.5	Establishment of closed fishing seasons.....	87
9.5	DATA GAP.....	87
CHAPTER 10: HEALTH AND NUTRITION		88
10.1	INTRODUCTION.....	88
10.1.1	General.....	88
10.1.2	Availability of Data.....	88
10.2	PRESENT STATE OF THE ENVIRONMENT.....	88
10.2.1	Morbidity.....	89
10.2.2	Nutrition.....	90
10.2.3	Sanitation.....	91
10.2.4	Disease patterns.....	92
10.3	PRESSURES ON STATE OF ENVIRONMENT.....	93
10.3.1	Traditional sanitation.....	93
10.3.2	Overcrowding.....	93
10.3.3	Shortage of trained human resource.....	93
10.3.5	In-adequate access to primary and secondary care.....	94
10.4	RESPONSES TO PRESSURE ON ENVIRONMENT.....	94
10.4.1	Recognition of local traditional healers group.....	94
10.4.2	Intense public awareness activities.....	94
10.4.3	Improvement of water and sanitation facilities.....	94
10.5	DATA GAP.....	94
CHAPTER 11. DEMOGRAPHY		95
11.1	INTRODUCTION.....	95
11.1.1	General.....	95
11.1.2	Availability of Data.....	95
11.2	PRESENT STATE OF THE ENVIRONMENT.....	95
11.2.1	Population size.....	96
11.2.2	Population Growth.....	96
11.2.3	Age and sex structure.....	97
11.2.4	Spatial distribution.....	98
11.2.5	Birth and Death rates.....	99
11.2.6	Population and Environmental Sustainability.....	100
11.3	GOVERNMENT RESPONSES TO ENVIRONMENTAL PRESSURES.....	101
11.4	DATA GAP.....	101
CHAPTER 12. COASTAL EROSION		102
12.1	INTRODUCTION.....	102
12.2	STATE OF THE ENVIRONMENT.....	102
12.2.1	South Tarawa.....	103
12.2.2	Outer-islands in the Gilbert Chains.....	106
12.3	PRESSURE ON THE ENVIRONMENT.....	108
12.4	RESPONSES TO THE PRESSURE.....	109
12.5	DATA GAPS.....	109
CHAPTER 13 ENERGY		110

13.1	INTRODUCTION	110
13.2	STATE OF THE ENVIRONMENT	110
13.2.1	<i>Imported Energy</i>	111
	FUEL IMPORTS FOR 1990, 1994 AND 1999/2000	111
13.2.2	<i>Renewable Sources of Energy</i>	111
13.2.3	<i>Transport</i>	112
13.3	PRESSURE ON THE ENVIRONMENT	113
13.3.1	<i>Pollution of the air through vehicles exhaust pipes and powerhouse stack chimneys</i> .	113
13.3.2	<i>Traffic increase</i>	113
13.3.3	<i>Groundwater pollution</i>	114
13.4	RESPONSES TO THE PRESSURE.....	114
13.4.1	<i>Other alternative sources of energy</i>	114
13.4.2	<i>Extension of the rural electrification</i>	114
13.4.3	<i>Energy Conservation Program (ECP)</i>	114
13.5	DATA GAP	114
	CHAPTER 14. WASTE.....	115
14.1	INTRODUCTION	115
14.2	PRESENT STATE OF THE ENVIRONMENT	115
14.2.1	<i>Waste generation</i>	115
14.2.2	<i>Solid Waste</i>	116
14.2.3	<i>Hazardous Material</i>	117
14.2.4	<i>Management of Special waste</i>	118
14.2.5	<i>Waste Disposal</i>	119
14.3	PRESSURES ON THE ENVIRONMENT	121
14.3.1	<i>Waste Storage</i>	121
14.3.2	<i>Waste Collection</i>	121
14.3.3	<i>Lack of adequate resources at national level</i>	122
14.4	RESPONSES TO PRESSURE	122
14.4.1	<i>Awareness Raising Programmes</i>	122
14.4.2	<i>Waste Minimisation Activities</i>	122
14.4.3	<i>Legal Mandate to Control Pollution</i>	123
14.4.4	<i>SAPHE Project</i>	123
14.4.5	<i>Current status on Betio Landfill</i>	124
14.5	DATA GAPS	124
	CHAPTER 15. SEWERAGE.....	125
15.1	INTRODUCTION	125
15.2	PRESENT STATE OF THE ENVIRONMENT.....	125
15.2.1	<i>Physical system</i>	125
15.2.2	<i>Sewage system impacts on marine environment</i>	126
15.3	PRESSURE ON THE ENVIRONMENT	127
15.4	RESPONSES TO PRESSURE	128
15.5	DATA GAP	128
	CHAPTER 16 CLIMATE CHANGE	129
16.1	INTRODUCTION:	129
16.2	PREDICTED IMPACTS OF CLIMATE CHANGE	130
16.3	SEA LEVEL RISE	132
16.4	CLIMATE CHANGE POLICY.....	132
16.5	ADAPTATION IN RESPONSE TO CLIMATE CHANGE	133
16.5.1	<i>Agriculture</i>	133
16.5.2	<i>Water resources</i>	133
16.5.3	<i>Coastal Areas</i>	133
16.6	DATA GAP.....	135
	CHAPTER 17: RECOMMENDATIONS	136
17.1	INTRODUCTION	136
17.2	INDICATORS	136
17.2.1	<i>Types of Indicators</i>	136

17.2.2	<i>Criteria for Selecting SoER Indicators</i>	136
17.3	HOW TO GO ABOUT THE NEXT SoER	139
17.3.1	<i>Costs and timeframe for next SoER</i>	139
17.4.2	<i>Process (procedures/methods/analysis)</i>	139
APPENDIX 1: REFERENCES:		141
APPENDIX 2: HAZARDOUS WASTES		149
APPENDIX 3: DEVELOPMENT CONTROL		150
APPENDIX 4: LISTS OF IEE/EIA/EA AND DC COMPLETED		150
APPENDIX 5: PLANTS OF KIRIBATI		151
APPENDIX 6: ENDANGERED AND CULTURAL IMPORTANT PLANTS		153
APPENDIX 7: MARINE ALGAE OF KANTON		154
APPENDIX 8: INDIGENOUS BIRD SPECIES OF KIRITIMATI		155
APPENDIX 9: NON-FINFISH RESOURCES OF KIRIBATI		156
APPENDIX 10: MARINE PROTECTED AREAS OF KIRIBATI		157
APPENDIX 11: PEOPLE CONSULTED		158
