FOREWORD

By the Minister of Physical Development and Environment, Government of Barbados

As Minister with responsibility for Physical Development and Environment, I have the honour to present Barbados' First State of the Environment Report. The report is the first major synthesis document of its kind, since the 1992 Barbados National Report to the United Nations Conference on Environment and Development. The purpose of the present report is to provide an assessment of selected key environmental resources, indicators and themes, identified by a wide range of stakeholders to be of vital importance to Barbados, if the goal of sustainable development is to be achieved.

The principal themes examined are land resources, energy and mineral assets, freshwater, coastal and marine resources, biodiversity, atmosphere and climate, and waste management. All of these are intrinsically linked to our economic and social development, and ultimately are important determinants of the quality of life we enjoy.

It is the Government's wish that the report should serve as an accurate source of information to all citizens, as well as international interests. It is also designed to provide a platform on which future analyses can be built and a yardstick against which Barbados' stewardship in the area of environmental resource management can be objectively assessed.

I am grateful to the staff of the Ministry of Physical Development and Environment and the numerous other individuals and institutions both in the private and public sectors, whose untiring efforts have made this report possible. I look forward to your continued collaboration in future efforts.

The Hon. H. Elizabeth Thompson, M.P.

Minister of Physical Development and Environment

December 2001

ACKNOWLEDGEMENTS

The Ministry of Physical Development and Environment is greatful to all the officers from the various Ministries, Government Departments and Statutory Organisations, the Private Sector agencies, and Non-governmental Organisations that assisted in the collection of the data contained in the report and who reviewed and offered comments on the various drafts of this report.

Special recognition must go to Ms. Vernese Inniss who prepared this report and to the staff of the Ministry who finalized the report. We acknowledge the support of Mrs. Atheline Haynes, former Permanent Secretary, and Mr. John Wilson, Senior Environment Officer (ag) in the preparation of this report.

Special mention must also be made of the assistance of the United Nations Environment Programme, Regional Office for Latin America and the Caribbean, Mexico (UNEP/ROLAC). In this regard special appreciation is extended to Mr. Kaveh Zahedi of UNEP/ROLAC for his cooperation and assistance.

MISSION STATEMENT
of the
Ministry of Physical Development and Environment

**"Promoting and facilitating the sustainable use of our resources, encouraging
the involvement of all citizens and the integration of environmental considerations
into all aspects of national development"**

TABLE OF CONTENTS

1 INTRODUCTION	15
2 GENERAL CHARACTERISTICS	17
2.1 Introduction	17
2.2 Physical Context	18
2.3 Socio-Economic Context	18
2.4 Conclusion	25
3 LAND RESOURCES	27
3.1 Introduction	27
3.2 Land Use	27
3.3 Agricultural Land Use	27
3.4 Impacts of Land Use	30
3.5 Institutional and Policy Response	31
3.6 Conclusion	33
4 MINERALS AND ENERGY RESOURCES	35
4.1 Introduction	35
4.2 Quarrying	35
4.3 Impacts of Quarrying	36
4.4 Fossil Fuel Extraction	36
4.5 Impacts of Fossil Fuel Production and Consumption	36
4.6 Policy Response	37
4.7 Conclusion	39

5 FRESH WATER RESOURCES	41
5.1 Introduction	41
5.2 Fresh Water Occurrence and Quantity Issues	41
5.3 Fresh Water Quality	44
5.4 Pressures on Fresh Water	45
5.5 Policy Response	48
5.6 Conclusion	49
6 COASTAL AND MARINE RESOURCES	51
6.1 Introduction	51
6.2 The Barbados Coastline: An Overview	51
6.3 Pressures on Coastal Areas	51
6.4 Impacts of Coastal Land Use	54
6.5 Impacts on Ecosystems	54
6.6 Policy Response	56
6.7 Fisheries Resources	56
6.8 Fisheries Policy	60
6.9 Conclusion	61

7 BIOLOGICAL DIVERSITY	63
7.1 Introduction	63
7.2 Terrestrial Biodiversity	63
7.3 Impacts on Terrestrial Biodiversity	67
7.4 Freshwater and Marine Biodiversity	67
7.5 Impacts on Marine Biodiversity	69
7.6 Policy Response	69
7.7 Conclusion	73
8 ATMOSPHERE AND CLIMATE	77
