

# **TRAINING MANUAL ON INTEGRATED ENVIRONMENTAL ASSESSMENT AND REPORTING IN AFRICA**

**Coordinating Lead Authors: Musisi Nkambwe and Munyaradzi Chenje**

**Lead authors: Christopher Ambala and Washington Ocholla**

## TABLE OF CONTENTS

<b>Table of Contents</b>	<b>i</b>
<b>List of Figures</b>	<b>v</b>
<b>List of Tables</b>	<b>vii</b>
<b>List of Boxes</b>	<b>viii</b>
<b>Acknowledgements</b>	<b>ix</b>
<b>Background</b>	<b>xi</b>
<b>Module 1 – Introduction to Environmental Assessment</b>	<b>1</b>
Overview	2
1.1 Introduction	2
1.2 State of the environment	2
1.3 Integrated environmental assessment and reporting	2
1.4 Environmental impact assessment	3
1.5 Strategic environmental assessment	6
1.6 Corporate environmental assessment and reporting	7
1.7 Questions for discussion	12
1.8 References	13
<b>Module 2 – Introduction and Background to Integrated Environmental Assessment in Africa</b>	<b>14</b>
Overview	14
2.1 Introduction	15
2.2 Early environmental assessment activities in Africa	15
2.3 UNEP environmental assessment mandate	.
2.4 The Global Environment outlook process	.
2.5 GEO-4 assessment objectives	.
2.6 The Africa Environment Outlook	.
2.7 Sustainable development as the basis of more recent environmental assessment reports in Africa	.
2.8 Questions for discussion	.
2.9 References	37
<b>Module 3 – Frameworks for Integrated Environmental Assessment and Reporting</b>	<b>38</b>
Overview	38
3.1 Introduction	39
3.2 Driving Forces-Pressure-State-Impact-Response Framework	39
3.3 GEO-4 analytical framework	.
3.4 Driving Forces-Pressure-State-Impact-Response at the local level	.
3.5 The Opportunities Framework	.

3.6	Questions for discussion	.
3.7	Exercise 3.1: Using the opportunities framework	.
3.8	References	55
<b>Module 4 – Involvement in, and Management of, the Assessment and Reporting Process</b>		<b>56</b>
	Overview	56
4.1	Introduction	57
4.2	Importance of the process	.
4.3	Involvement in the integrated environmental assessment and reporting process	.
4.4	Deciding important issues in the process	.
4.5	Management of the process at the national level	.
4.6	Management of the process at the sub-national level	.
4.7	The legal mandate	.
4.8	Developing an impact strategy for your integrated environmental assessment	.
4.9	Questions for discussion	.
4.10	Exercise 4.1	74
4.11	References	75
<b>Module 5 – Peer review</b>		<b>76</b>
	Overview	76
5.1	Introduction	77
5.2	Objectives of peer review	.
5.3	Peer review process	.
5.4	Peer review definition	.
5.5	Peer reviewers	.
5.6	Some peer review activities	.
5.7	Finding peer reviewers and schedule	.
5.8	Documents to send peer reviewers	.
5.9	Questions for discussion	.
5.10	References	83
<b>Module 6 – Preparing for the Assessment and Reporting Process</b>		<b>84</b>
	Overview	84
6.1	Introduction	85
6.2	Outline the State of Environment Report as a project	.
6.3	Clearly state all stages and assign responsibilities	.
6.4	A real life example from South Africa	.
6.5	Communicating the State of Environment report message with the plan as an activity	.
6.6	Study/discussion questions	.
6.7	Exercise: 6.1	94
6.8	References	95
<b>Module 7 – Assessing the State of the Environment</b>		<b>96</b>
	Overview	96
7.1	Introduction	.

7.2	Important points in assessing “What is happening to the environment?”	.
7.3	Data and indicators	.
7.4	Data quality	.
7.5	Collection of data for a State of Environment Report	.
7.6	Study/Discussion questions	.
7.7	Other non-conventional sources of data	.
7.7.1	<i>Remotely sensed data</i>	.
7.7.2	<i>World Wide Web sources</i>	.
7.8	Exercise: Introduction to GEO Africa Data Portal	.
7.9	Developing indicators	.
7.10	Participatory indicator development	.
7.11	Using indicators for environmental assessment	.
7.12	Data, indicators and indices	.
7.13	Presentation of spatial data and indicators with geographic information systems	.
7.14	Key Internet resources on indicators	.
7.15	Exercise 7.2: Monitoring systems, indicators and indices	124
7.16	References	125
<b>Module 8 – Role Playing with Integrated Environmental Assessment and Reporting</b>		<b>126</b>
	Overview	126
8.1	Introduction	127
8.2	Country profile	.
8.3	Physical description	.
8.4	Settlements and sources of livelihoods	.
8.5	Environmental management	.
8.6	Information on trends	.
8.7	The key sector and its impact and driving forces	.
8.7.1	<i>Driving forces of the major sector</i>	.
8.7.2	<i>Importance of the key sector in the economy of the country</i>	.
8.8	Preparing for the assessment process for your selected country	.
8.9	Stages of preparation	.
8.10	Study/discussion questions	141
8.11	References	142
<b>Module 9 – Linking Integrated Environmental assessment to Policy</b>		<b>143</b>
	Overview	143
9.1	Introduction	144
9.2	Types of policy	.
9.3	Policies in hierarchies	.
9.4	Exercise 9.1. The web of influence of policies on each other	.
9.5	Conflicts in policies formulated independently	.
9.6	Exercise 9.2. Nested and conflicting policies	.
9.7	Links between policy and environment	.
9.8	Exercise 9.3. Impact of policy on issues	.
9.9	Environmental policy analysis	.

9.10	Action impact matrix	.
9.11	Exercise 9.3 - Current policy analysis for your selected country	.
9.12	Study/discussion questions	165
9.13	References	166
<b>Module 10 – Targeting a Theme in Environmental Assessment: Human Vulnerability to Environmental Change</b>		<b>170</b>
	Overview	170
10.1	Introduction	171
10.2	Concepts of human vulnerability	.
10.3	Framework for assessing human vulnerability	.
10.4	Indicators for assessing human vulnerability	.
10.5	Reference	177
<b>Module 11 – Assessing the Future</b>		<b>178</b>
	Overview	178
11.1	Introduction	179
11.2	Reasons to conduct futuristic environmental policy studies	.
11.3	Exercise 11.1: Problems that could have been avoided	.
11.4	Emerging environmental issues	.
11.5	Exercise 11.2	.
11.6	Scenario development	.
11.7	Some significant driving forces influencing scenarios in Africa.	.
11.8	Important steps in developing a scenario	.
11.9	An analytical framework for assessing policy options and scenarios	.
11.10	Additional resources on modelling and scenarios	177
11.11	Study/discussion questions	178
11.12	References	175
<b>Appendix 1: Preparatory Questionnaire for the Training Workshop on Integrated Environmental Assessment and Reporting</b>		<b>176</b>
<b>Appendix 2: Evaluation of the Training Workshop</b>		<b>183</b>
<b>Abbreviations</b>		<b>186</b>

## List of Figures

Figure 0.1	Countries and sub-regions of Africa	xiv
Figure 2.1	The concept of ecosystem that includes people	26
Figure 3.1	Steps in the integrated environmental reporting process using the DPSIR framework	.
Figure 3.2	One example of a DPSIR Framework	.
Figure 3.3	DPSIR based on UNEP's human-environment interaction analytical framework	.
Figure 3.4	What is happening to the environment?	.
Figure 3.5	Why are yields on the land decreasing and what are we doing about it?	.
Figure 3.6	The Opportunities Framework	.
Figure 3.7.	The link between action plan science and policy	.
Figure 4.1	General organizational chart to manage the reporting process	.
Figure 6.1	Project organization and outputs	.
Figure 6.2	An ideal example of steps in the development of an SOE report	.
Figure 6.3	Consecutive tasks, responsibilities and results as outlined for AEO-2	.
Figure 6.4	The process of preparing South Africa's national SOE report	.
Figure 7.1	The place of SOE analysis in the integrated environmental reporting framework	.
Figure 7.2	An illustrative continuous data collection and acquisition effort as the development of the SOE report progresses	.
Figure 7.3	Reversing situation of baseline data and decision making trends	.
Figure 7.4	An example of a framework for participatory indicator development	.
Figure 7.5	An illustration of how to link Pressure/State indicators with Response	.
Figure 7.6	Relationship between data, indicators and indices	.
Figure 7.7	One possible technique in making polygon overlays	.
Figure 8.1	Air, water and soil quality indices for your selected country	.
Figure 9.1	Place of current policy analysis in the integrated environmental reporting framework	.
Figure 9.2	From data collection to policy formulation	.
Figure 9.3	An example of a hierarchy of nested policies: from global to Local community	.
Figure 9.4	The web of influence of policies on each other	.
Figure 9.5	Botswana's conflicting environmental policies	.
Figure 9.6	Three interacting levels of reality	.
Figure 9.7	Policy intent and expected impact	.
Figure 9.8	Linking expected and actual policy performance	.
Figure 10.1	An overall framework for assessing human vulnerability to Environmental change	.
Figure 11.1	Future environmental assessment in the integrated environmental reporting framework	.
Figure 11.2	Place of emerging environmental issues in the integrated environmental assessment framework	.

- Figure 11.3 Conceptual diagram showing the effect of a disruptive event on the range of possible scenarios
- Figure 11.4 General scenario dynamics of an environmental system

## List of Tables

Table 2.1	Some early reports on environment from African countries	21
Table 4.1	Major topics on which information was acquired for Uganda's 2001 SOE Report	.
Table 4.2	Possible different levels of involvement in various integrated environmental assessment and reporting themes	.
Table 4.3	AEO-2 Consolidated (Africa) Regional Issues decided from a series of meetings of experts and participation of civil society throughout the Africa region	.
Table 7.1	Examples of potential damage to decision due to poor quality data	.
Table 7.2	Some Environmental indicators suggested for AEO-2	.
Table 8.1	Basic statistics for Country Selected	.
Table 8.2	Examples of driving forces of major sectors in an economy	.
Table 8.3	Views of stakeholders	.
Table 8.4	Joint strategy for ensuring that the basic requirements of the report are met	.
Table 8.5	Issues to be addressed in the SOE report	.
Table 8.6	Task flowchart for producing the SOE report	.
Table 8.7	Some examples of lists of contents of an SOE report	.
Table 8.8	Chapters, key issues, and possible indicators	.
Table 8.9	Division of topics into themes/chapters for West Africa's State of Environment 2004	.
Table 9.1	Simplified example of an action impact matrix	.
Table 10.1	Some potential indicators for assessing human vulnerability to environmental change	.
Table 11.1	Examples of problems that could have been avoided	.
Table 11.2	One example of an analytic framework for scenario development	.
Table 11.3	Uganda's scenario development framework for the 2001 State of Environment report	.
