December 2009

Disclaimers

The contents and views expressed in this publication do not necessarily reflect the views or policies of the agencies cooperating in this project.

The opinions, figures and estimates set forth in this publication should not necessarily be considered as reflecting the view or carrying the endorsement of UNEP or cooperating agencies.

The designations employed and the presentation of material in this publication do not imply the expression of any opinion whatsoever on the part of UNEP or cooperating agencies concerning the legal status of any country, territory or city or area of its authorities, or the delineation of its frontiers and boundaries.

Mention of a commercial company or product in this publication does not imply the endorsement of the United Nation Environment Programme or cooperating agencies.

The use of information from this publication concerning proprietary products for publicity or advertising is not permitted. Trademark names and symbols are used in an editorial fashion with no intention of infringement on trademark or copyright laws

We regret any errors or omissions that may have been unwittingly made.

Acknowledgments

UNEP acknowledges the contributions made by many individuals and institutions in the preparation of this document. A special word of thanks goes to the Environmental Center for Arab Towns (ECAT) for co-funding this project and for reviewing the document. A special word of thank goes to Engineer Mohamed Al Noori, Director of ECAT, Dr. Radhiya Yahya Al Hashimi, former Director of ECAT, and Engineer Khalid Jaman Al Sokhny currently with Abu Dhabi Municipalities. Our thanks are also extended to the British Council for attending the regional meeting on GEO cities and integrating assessment outcomes into policies and decision making 25-27 November 2008, Cairo, Egypt and delivering a presentation on “The Future City Game.” The full list of names to acknowledge is given below.

CONTENTS

LIST OF TABLES.....	VII
LIST OF FIGURES.....	VIII
LIST OF BOXES.....	IX
PREFACE.....	X
INTRODUCTION.....	1
1. CITIES	3
REASONS FOR CITIES	3
<i>Economies of Scale</i>	3
<i>Agglomeration of Economies.....</i>	3
<i>Comparative Advantage</i>	3
<i>Export versus Service Sectors.....</i>	3
RATIONALE FOR PLANNING	4
<i>Market Imperfection.....</i>	4
<i>Public Good.....</i>	4
<i>Externalities</i>	4
<i>Distributive Justice</i>	4
<i>Institutional Transformation.....</i>	5
2. GEO CITIES METHODOLOGY	5
FOCUS OF THE ANALYSIS.....	8
ANALYTICAL FRAMEWORK: DPSIR MATRIX	9
IEA PROCESS	13
MONITORING, DATA AND INDICATORS	14
STRUCTURE OF THE GEO CITIES REPORT	15
<i>GEO Cities reports - proposed structure</i>	15
<i>Urban-environmental components of the DPSIR matrix.....</i>	16
<i>Urbanization components</i>	16
<i>Environment components.....</i>	16
PRESSURE: POLICY, SOCIAL AND ECONOMIC CONTEXT.....	17
<i>Historic evolution of local urbanization</i>	17
<i>Description of the local political-administrative structure</i>	17
<i>Analysis of local socio-economic factors.....</i>	18
<i>Definition of core indicators: Pressure indicators</i>	28
STATE OF THE ENVIRONMENT	42
<i>Local ecosystems</i>	43
<i>Analysis of the state of the environment's natural resources</i>	43
<i>Definition of core indicators: State indicators</i>	55
<i>Impact of the state of the environment.....</i>	63
<i>Definition of core indicators: Impact indicators.....</i>	74
IMPACT STRATEGY	90
<i>What is an impact strategy?.....</i>	90
<i>When does the team prepare an impact strategy and who is responsible for it?.....</i>	90
<i>The need an impact strategy.....</i>	90

<i>Attributes of impact strategies and traditional communications activities</i>	<i>92</i>
<i>Steps in building an impact strategy</i>	<i>93</i>
RESPONSES: POLICY INTERVENTIONS AND INSTRUMENTS	94
<i>Identification of key stakeholders related to the urban environment</i>	<i>94</i>
<i>Urban environmental management structures and functioning</i>	<i>96</i>
<i>The implementation of the environmental policies</i>	<i>96</i>
<i>Options for adaptation to climate change in cities.....</i>	<i>100</i>
<i>7. Definition of core indicators: Response indicators.....</i>	<i>104</i>
EMERGING ISSUES AND SCENARIOS.....	114
<i>Building scenarios: local trends (inertia, best case, worst case).....</i>	<i>115</i>
4. PREPARING GEO CITIES REPORTS	116
STAGE 1: INSTITUTIONAL.....	116
<i>Installation activities.....</i>	<i>116</i>
STAGE 2 – IDENTIFYING INDICATORS AND INFORMATION SOURCES	122
<i>Urban-environmental indicators</i>	<i>122</i>
<i>Data collection and analysis</i>	<i>133</i>
<i>Creation of a local environmental database.....</i>	<i>137</i>
STAGE 3 – PREPARING THE GEO CITIES REPORT.....	137
<i>Analysis of the set of data and information</i>	<i>137</i>
<i>Assessing the state of the local environment</i>	<i>137</i>
<i>Assessing the responses of government and society.....</i>	<i>138</i>
<i>Definition of the report’s dissemination strategies</i>	<i>142</i>
STAGE 4 – INCLUSION OF SOCIAL POLICY PROPOSALS AND RECOMMENDATIONS	142
<i>Dissemination strategies</i>	<i>142</i>
<i>Influencing policies</i>	<i>142</i>
STAGE 5 – CONTINUING THE GEO CITIES PROCESS.....	143
ANNEX: LIST OF PARTICIPANTS THAT ATTENDED THE GEO CITIES WORKSHOP	144
LIST OF ABBREVIATIONS	146
GLOSSARY AND DEFINITIONS.....	147
BIBLIOGRAPHY.....	152

LIST OF TABLES

Table 1 Example of logical integration of the indicators	13
Table 2 Most Common Institutional Models	118
Table 3 Criteria for selecting urban-environmental indicators	124
Table 4 Additional criteria to select indicators	125
Table 5 Indicator categories	126
Table 6 A Matrix of basic indicators for the GEO Cities Report - (PSIR)	129
Table 7 Public and private institutions potential producers of data for the Report	134
Table 8 Context data	135

LIST OF FIGURES

Figure 1 Key questions to be answered by State of the Environment (SoE) Assessment and Policy	5
