Disclaimer

The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of the United Nations Environment Programme concerning the laws of any country, territory, city or area or of its authorities, or concerning delimitation of its frontiers or boundaries. The views expressed do not necessarily represent the decision of the stated policy of the United Nations Environment Programme, nor does citing of trade names or commercial processes constitute endorsement.

This document has been produced with the financial assistance of the Swedish International Development Cooperation Agency, Sida, which has been arranged by the Swedish Chemicals Agency, KemI. The views herein shall not necessarily be taken to reflect the official opinion of Sida or KemI.

This publication was developed in the IOMC context. The contents do not necessarily reflect the views or stated policies of individual IOMC Participating Organizations.

The Inter-Organization Programme for the Sound Management of Chemicals (IOMC) was established in 1995 following recommendations made by the 1992 UN Conference on Environment and Development to strengthen cooperation and increase international coordination in the field of chemical safety. The Participating Organizations are FAO, ILO, UNDP, UNEP, UNIDO, UNITAR, WHO, World Bank and OECD. The purpose of the IOMC is to promote coordination of the policies and activities pursued by the Participating Organizations, jointly or separately, to achieve the sound management of chemicals in relation to human health and the environment.

IOMC
INTER-ORGANIZATION PROGRAMME FOR THE SOUND MANAGEMENT OF CHEMICALS
A cooperative agreement among FAO, ILO, UNDP, UNEP, UNIDO, UNITAR, WHO, World Bank and OECD

UNEP promotes environmentally sound practices globally and in its own activities. This report is printed on paper from sustainable forests including recycled fibre. The paper is chlorine free, and the inks vegetable based. Our distribution policy aims to reduce UNEP's carbon footprint.

ACKNOWLEDGEMENTS

The UNEP Guidance on the Development of Legal and Institutional Infrastructures for Sound Management of Chemicals and Measures for Recovering Costs of National Administration (LIRA-Guidance) was developed by UNEP DTIE Chemicals Branch in support to the Strategic Approach to International Chemicals Management (SAICM).

The LIRA-Guidance was collaboratively developed by Mr. Armand Racine and Ms. Louise Gallagher (Ph.D.), and in cooperation with governments from developed and developing countries, IOMC and other organizations, industry sector and civil society and with contributions from Mr. Kaj Madsen and Mr. Pierre Quiblier of the UNEP Chemicals Branch Mainstreaming team. A test version was used in some countries and then the LIRA-Guidance was reviewed and finalized by Mr. David Azoulay from the Center for International Environmental Law (CIEL). The development of the Guidance benefitted by inputs from an expert group comprised of governments, intergovernmental organizations, academia, civil society and private sector.

Participants in the one or more meetings of the expert group

Government

Ms. Abiola Olanipekun, Assistant Director, Federal Ministry of Environment, Nigeria
 Mr. Bengt Bucht, Consultant, Chemicals Agency (KemI), Sweden
 Mr. David Kapindula, Principal Inspector, Environmental Management Agency Zambia
 Ms. Gabriela Medina Amarante, Director, Basel Convention Coordinating Center, Uruguay
 Mr. Hoai Long Phan, Officer, Chemicals Agency, Vietnam
 Ms. Inga Beer, Legal Advisor, Federal Environment Agency, Germany
 Ms. Ingela Anderson, Director, International Secretariat, Chemicals Agency (KemI), Sweden
 Mr. Jerzy Majka, Inspector, Bureau for Chemical Substances and Preparations, Poland
 Ms. Karen Thiele, Scientific Officer, Federal Environment Agency, Germany
 Ms. Maria Delvin, Senior Adviser, Chemicals Agency (KemI)
 Mr. Lars Drake, Economist, Chemicals Agency (KemI), Sweden
 Mr. Long Rhitirak, Deputy Director General, General Department of Technical Affairs, Cambodia
 Ms. Oluwaytoyin Aderonke Ajala, Principal Environmental Scientist, Federal Ministry of Environment, Nigeria
 Mr. Rafal Brykowski, Senior Specialist, Bureau for Chemical Substances and Preparations, Poland
 Mr. Szymon Domagalski, Specialist, Bureau for Chemical Substances and Preparations, Poland
 Mr. Victor Alegria, SAICM Project Manager, Department of the Environment, Belize

Intergovernmental Organizations

Ms. Amélie M. Taoufiq-Cailliau, Legal Officer, The Joint Secretariat for the Basel, Rotterdam and Stockholm Conventions (UNEP)

Ms. Carmen Bullon, Legal Officer, Food and Agriculture Organization (FAO)

Mr. Dadan Wardhanna HASNUDDIN, Programme Officer, The Joint Secretariat for the Basel, Rotterdam and Stockholm Conventions (UNEP)

Mr. Heinz Leuenberger, Director, United Nations Industrial Development Organization (UNIDO)

Mr. Mark Davis, Senior Officer, Food and Agriculture Organization (FAO)

Ms. Mijke Hertoghs, MEA Focal Point, Regional Office for Europe, (UNEP)

Academia

Ms. Andrea Rother, Senior Researcher and Programme Leader, Centre for Occupational and Environmental Health, Research School of Public Health and Family Medicine, South Africa

Mr Babajide Alo Director, Centre for Human Resources Development, University of Lagos

Mr. Jamidu Katima, Professor, College of Engineering and Technology, University of Dar es Salaam, Tanzania

Mr. Kenneth Geiser, Director, Lowell Center for Sustainable Production, University of Massachusetts, Lowell

Mr. Makana Moïse, Legal Advisor, University of Geneva

Civil society

Mr. Joseph Digangi, Senior Science and Technical Advisor, International POPs Elimination Network (IPEN)

Ms. Angela Mwandia, Programme Coordinator, World Wide Fund for Nature

Private Sector

Ms. Birgit Engelhardt, ICCA representative to the UN

Ms. Leena Perenius, Executive Director, Cefic

PREFACE

The design and implementation of comprehensive and coherent legal frameworks and related institutional arrangements for management of chemicals, including sustainable financing options is a cornerstone in achieving the goals from the World Summit on Sustainable Development in 2002 and reaffirmed at the Rio+20 Summit in Brazil in 2012, that by 2020 the use and production of chemicals should be done in ways that do not lead to significant adverse effects on human health and the environment.

One of the cornerstones for achieving the above 2020 goal will be the establishment of comprehensive and coherent legal frameworks and related institutional infrastructure including sustainable financing options.

To assist countries in this process, UNEP, with financial support from the Swedish government, has developed a Guidance document for the development of Legal and Institutional Infrastructures for the Sound Management of Chemicals and Measures for Cost Recovery of National Administrations (LIRA-Guidance).

The Guidance aims at providing practical, step-by-step support to policy makers for strengthening national legislation and institutional set-ups for achieving sound management of chemicals, including proposals for measures for financing necessary related administration activities.
