

Comoros Air Quality Overview

This document is based on research that UNEP conducted in 2015, in response to Resolution 7 of the UNEA 1. It describes country-level policies that impact air quality. Triple question marks (???) indicate that information for the section couldn't be found.

Please review the information, and provide feedback. A Word version of the template can be provided upon request. Corrections and comments can be emailed to air.quality@unep.org.

Comoros Air Quality Overview		
Goals	Status	Current Policies & Programmes
GENERAL OVERVIEW	<p>Overall situation with respect to air quality in the country, including key air quality challenges:</p> <ul style="list-style-type: none"> • WHO estimates that outdoor air pollution causes <100 premature deaths annually¹ • PM2.5 mean annual exposure is 6.7 (micrograms per cubic meter) in 2011² <p>Air quality monitoring system: ???</p> <ul style="list-style-type: none"> • 	<p>National Ambient air quality standards: ???</p> <p>National Air Quality Policy: ???</p> <p>Air Quality legislation / programmes: ???</p> <p>Other: ???</p> <ul style="list-style-type: none"> •
REDUCE EMISSIONS FROM INDUSTRIES	<p>Industries that have the potential to impact air quality:</p> <ul style="list-style-type: none"> • Air pollution from industrial installations emanates from the following: fishing, tourism and perfume distillation among others <p>GDP of country: USD 658 million in 2013³</p>	<p>Emission regulations for industries: ???</p> <p>Small installation's emissions regulated: (Yes/No) ???</p> <p>Renewable energy investment promoted:</p> <ul style="list-style-type: none"> • In 2008, in collaboration with the UN-Energy inter-departmental program, a Renewable Energy Policy was created for the Comoros. <p>Energy efficiency incentives: (ex: Subsidies, labelling, rebates etc) ???</p> <p>Incentives for clean production and installation of pollution prevention technologies:</p>
