UNEP Chemicals Branch
Division of Technology, Industry and Economics
11-13 chemin des Anémones
CH-1219 Châtelaine
Geneva, Switzerland

Dear Sir or Madam:

This letter documents that The State Key Laboratory of Coal Combustion (SKLCC) is interested in becoming a partner of UNEP Global Mercury Partnership, and we strongly support the UNEP Global Mercury Partnership plan and related international collaboration on retention the emission of mercury. Since 1999, SKLCC has got several national projects from Chinese government to conduct mercury emission and control research. The partition mechanism and dynamic have been investigated broadly in SKLCC, and several cost-effective non-carbon sorbents have been developing to capture mercury from coal-fired flue gas. We hope our experiences can contribute to the UNEP Global Mercury Partnership

Sincerely yours,

A handwritten signature in black ink, appearing to read 'J Zhang', is written over a faint, circular official stamp.

Dr Junying Zhang
Professor, Vice director
State Key Laboratory of Coal Combustion,
Huazhong University of Science & Technology
Wuhan 430074 China

UNEP GLOBAL MERCURY PARTNERSHIP REGISTRATION FORM *

Partnership Area	<p>Please check partnership areas that your organization intends to contribute to:</p> <ul style="list-style-type: none"><input type="checkbox"/> artisanal and small scale gold mining<input type="checkbox"/> mercury cell chlor alkali production<input type="checkbox"/> mercury air transport and fate research<input type="checkbox"/> mercury in products<input checked="" type="checkbox"/> mercury releases from coal combustion<input type="checkbox"/> mercury waste management <p>Please indicate in your support letter how your organization intends to contribute to each of the indicated partnership areas.</p>
