#### UNEP Glob al Mercury Partnership - Information on Becoming a Partner

Dear Sir/Madam,

The Sustainable Development Policy Institute (SDPI wishes to express its keen interest in becoming a partner and support to UNEP Global Mercury partnership program.

SDPI established in 1992, is an independent non-profit research institute on sustainable development. It provides the global sustainable development community with representation from Pakistan as well as South Asia as a whole. The Institute's mission is: to catalyze the transition towards sustainable development, defined as the enhancement of peace, social justice and well-being, within and across generations. SDPI's research program is multi-disciplinary and problem-oriented. Chemicals, Sustainable Industrial Development and Hazardous Waste Sites (Cs, SID & HWSs) are among its most active areas for carrying out research, advocacy/networking and capacity building activities. At present within Cs, SID & HWSs, the focus of our activities (research, advocacy/networking & training) is on the issue, "Mercury Amalgam Use in Dentistry." (for details <a href="https://www.sdpi.org">www.sdpi.org</a>)

SDPI has been keenly involved in intergovernmental negotiating committee (INC) meetings on Stockholm Convention on POPs, SAICM, IFCS and more recently Minamata Convention on Mercury. SDPI is SAICM NGOs National Focal point and has also been founding member as served on executive/steering committees and Board of Directors of a number of regional and international Networks on chemical issues, including ZMWG, ISDE, IPEN and Pacific Basin Consortium (PBC) on environmental and health. We look forward to a productive and fruitful global mercury partnership leading to successful achievement of its goal, inshallah.

Dr. Ahid Qaiyum Suleri

Executive Director, SDPI

Cc: Dr. Mahmood A. Khwaja, Senior Adviser, Chemicals, Sustainable Industrial Development and Hazardous Waste Sites, SDPI, Islamabad. Pakistan...
