System Linkages Mapping for an Institutional Framework for SDG6

Uchita de Zoysa - Sustainable Development Advisor, Ministry of Sustainable Development & Wildlife, Sri Lanka

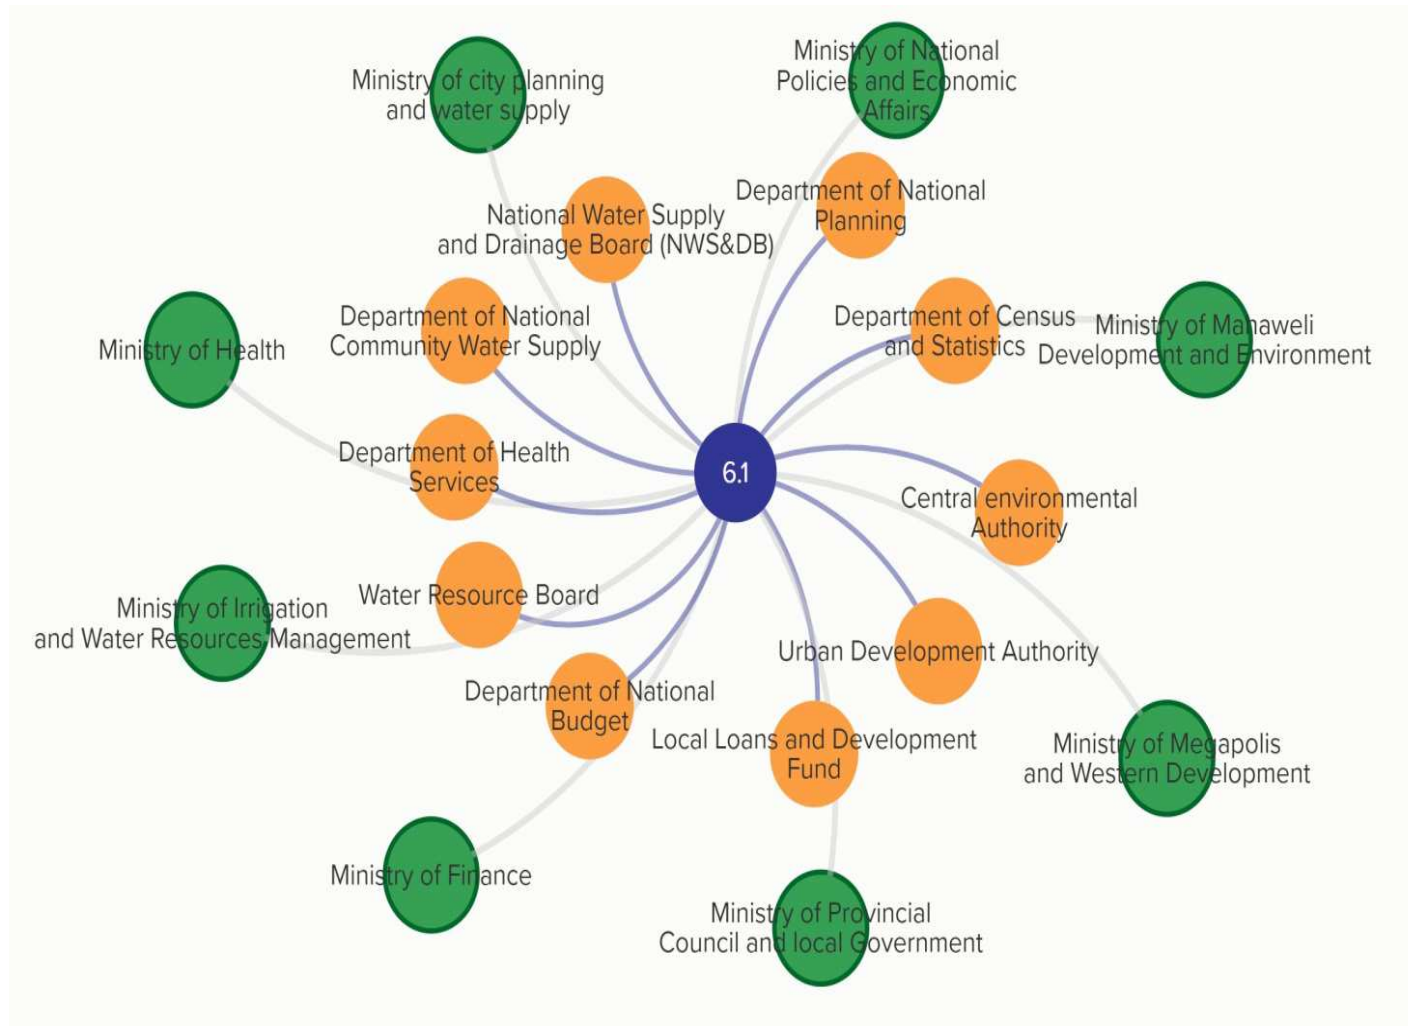

System Linkages Mapping for an Institutional Framework for SDG6.1

Target 6.1: By 2030, achieve universal and equitable access to safe and affordable drinking water for all

UN Global Indicator 6.1.1: Proportion of population using safely managed drinking water services

Rationale for the selected agencies: The agencies were selected for their suitability to contribute to the following roles, based on their functions and mandates:

- provision of physical infrastructure for better access to water
- financing clean water supply and affordability of water
- verification and management of drinking water standards

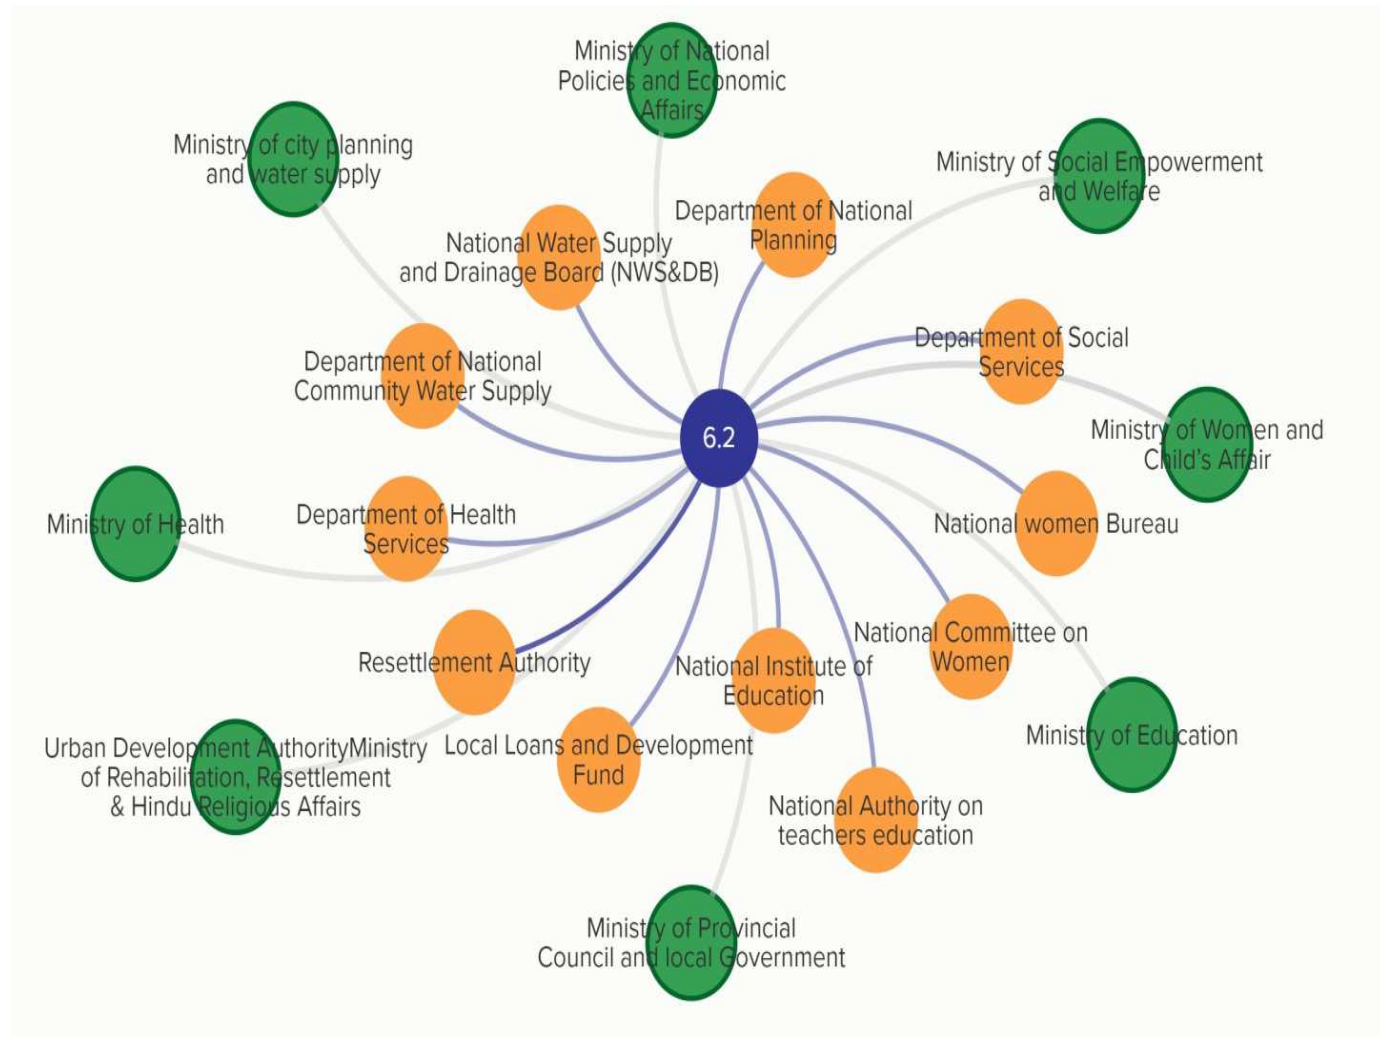

System Linkages Mapping for an Institutional Framework for SDG6.2

Target 6.2: By 2030, achieve access to adequate and equitable sanitation and hygiene for all and end open defecation, paying special attention to the needs of women and girls and those in vulnerable situations

UN Global Indicator 6.2.1: Proportion of population using safely managed sanitation services, including a hand-washing facility with soap and water

Rationale for the selected agencies: The agencies were selected for their suitability to contribute to the following roles, based on their functions and mandates:

- financing projects that deliver adequate and equitable sanitation and hygiene
- provision of physical infrastructure which ensures good hygiene and sanitation
- increase and spread awareness of the importance of good hygiene and sanitation
- improve welfare and hygiene of women and girls and other vulnerable groups
