

New Pacific Urban Agenda against SDG & the New Urban Agenda

Commonwealth Local Government
Forum Pacific

Complementary between the SDG & the New Urban Agenda

SDG

1. Sustainable Development
2. Development
3. Identify goals & targets
4. Target people & individual
5. International

New Urban Agenda

- Sustainable Development
- Urbanization
- implementation plans to achieve goals and targets of SDG, guidelines
- processes to achieve targets, what's to be done
- localize SDG, talks about enabling & operational enablers at the local and regional level

The development of the New Pacific Urban Agenda (PUA)

- 2003-PUA developed
- 2004-UNESCAP endorsement
- 2005-Pacific Island Forum Leaders endorsement
- 2007-PUA reviewed
- 2011-Regional Action Framework developed
- 2015- 4th PUF & adoption of the New Pacific Urban Agenda

4th Pacific Urban Forum: March 2015

- Convened March 2015, Suva, Fiji
- Focus- " Sustainable Development"
- Jointly organised by UNHABITAT & CLGF
- Countries represented: Fiji, Kiribati, PNG including Bougainville, Samoa, Solomon Islands, Tonga, Tuvalu & Vanuatu;
- Stakeholders: Urban Policy makers & Practitioners, Local Government Reps, donors & Development Partners, Academics, Private Sectors, Civil Society, Ministry of Finance & Strategic Planning Agencies

Outcome of the 4th PUF (New PUA)

- 4 main outcomes
 - Social Equity
 - Environment, Resilience & Urbanisation
 - Urban Economy
 - Urban Governance

Social Equity is to be enhanced

- Plan for inclusive, safe, resilient towns and cities.
- Pro-poor urban planning, policies and legal frameworks.
- Recommended key actions:
 - *Up scaling and embarking on housing and settlement upgrading programme.*
 - *Building stronger partnership across sectors and among national and regional stakeholders*

Environment, Resilience & Urbanization are more comprehensively addressed

- Climate Risk Planning
- Integration of cost effective green technology
- Reduction of pollution and energy consumptions in towns and cities.
- Water & waste management
- Strengthening enabling environment of towns & cities
- Recommended key actions:
 - *Embark on integrated climate change vulnerability, pollution and greenhouse gas assessments of towns and cities;*
