

Capacity Building for Climate resilience in Pacific Island Countries

10/08/2016

UNESCAP – SPC Workshop

Tanoa Hotel, Nadi

Viliamu. Iese

Pacific Center for Environment and Sustainable Development
The University of the South Pacific

Our canoe of islands: We anticipate the risks and act accordingly to reduce it and keep it afloat

Anticipate the risks

- Anticipated a rough journey - stormy weathers, strong currents – built seaworthy canoes
- Anticipated a long journey – stored foods, water and packed fishing gears and knowledge of fishing and processing foods
- Anticipated landing – took planting materials and livestock including knowledge of cultivation, cooking and utilization of foods
- Gene of storing “fuel”

Important lessons

- Sustainable Capacity Building
- Appropriate Technologies and Tools
- Research, Innovation and Dissemination of Information

The University of the South Pacific

Strategic Plan 2013-2018

PRIORITY AREA 1 | LEARNING AND TEACHING

PRIORITY AREA 2 | STUDENT SUPPORT

PRIORITY AREA 3 | RESEARCH AND INTERNATIONALISATION

PRIORITY AREA 4 | INFORMATION AND COMMUNICATION TECHNOLOGIES

PRIORITY AREA 5 | REGIONAL AND COMMUNITY ENGAGEMENT

PRIORITY AREA 6 | OUR PEOPLE

PRIORITY AREA 7 | GOVERNANCE, MANAGEMENT, LEADERSHIP

AND CONTINUOUS IMPROVEMENT

Sustainable Capacity Building – Formal Qualification

- School of Agriculture and Food Technology (SAFT)
- PGDip, MSc, PhD
- PGDip Climate Change - Climate Science – CCA – DRM – Ecosystem Services - SEA/EIA – Project Management – Multilateral Reporting – **Food Security and Climate Change (USP, FAO, SPC, WFP, Fiji Food Security Cluster)**

Non Formal Capacity Building

- EU-PAC TVET (Energy and Resilience)
- Resilience Competencies – finalized
- Climate change and DRM Agriculture – not a certification of participation – Regional Qualification
- DRR – Agriculture - FAO

Informal

- EU-GCCA – 15 countries including Timor Leste
- Regional and Sub-regional Trainings on assessing and understanding risks and building adaptation strategies
- Implementation and M&E
