Climate Change Resilient Agriculture

*Through Agriculture Policies
and
ICT led Knowledge Management*

August 2016

**Vili Caniogo
Agriculture Policy Adviser, SPC**

1] What do current Pacific National Agriculture Sector Policies say about CC?

2] Regional ICT/Knowledge sharing tools – information exchange, risk management - some egs.

3] Summary

BACKDROP

What we know. Includes:

- Low Contribution to Growth
- MAFS work with limited financial resources (*2-% of total budget expenditure*)
- Low uptake by Youths
- **Low visibility of the sector and information about policies, plans, pathways, incentives, opportunities**

Agriculture Sector Policy Inventory

Reviewed 15 Agriculture Policies (2015)

- PNG -> Niue, Timor-Leste

“National-Level”

- Not subsector
- Reference framework/plan for Ag Policy Officials

1] Content

- 4 major themes
 - Food Security
 - Economic Development
 - Sustainability
 - Effective Institutions

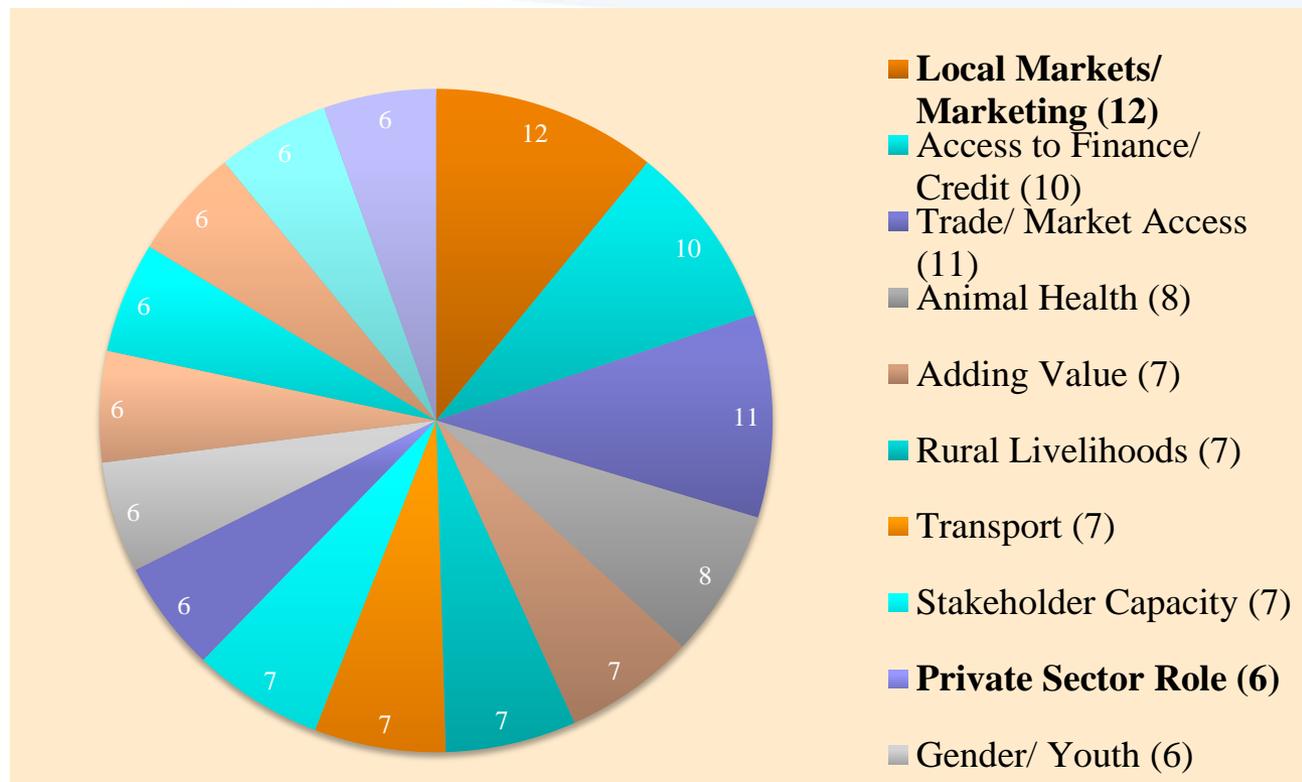

(i) Food Security

Figure 3: Food Security: Major Sub-Categories*

Countries were clear that locally produced food, particularly traditional staples, could offer a healthy substitute for certain imported foods

(ii) Economic Development
