

Project Working Group on Transport and Border Crossing (PWG-TBC)

20th Session
10-11 September 2015
Almaty, Kazakhstan

**CONCLUSIONS AND RECOMMENDATIONS
OF THE 20TH SESSION OF THE SPECA PROJECT WORKING GROUP ON
TRANSPORT AND BORDER CROSSING¹**

10-11 September, 2015
Almaty, Kazakhstan

¹ This report has been issued without formal editing

CONCLUSIONS AND RECOMMENDATIONS

1. Following the presentation and consideration of the session documents as stipulated in the Agenda of the 20th session of SPECA PWG-TBC, the Project Working Group adopted the following conclusions and recommendations:
2. The SPECA PWG-TBC adopted the report of the 19th session.
3. The PWG encouraged those SPECA countries that have not yet done so to take measures towards acceptance, approval, accession or ratification of the Intergovernmental Agreement on the Asian Highway (AH) network and the Intergovernmental Agreement on the Trans-Asian Railway (TAR) network. The PWG invited SPECA countries that are parties to the agreements to actively participate in activities related to the Intergovernmental Agreement on the Asian Highway (AH) network and the Intergovernmental Agreement on the Trans-Asian Railway (TAR) network.
4. The PWG also encouraged SPECA countries to take necessary actions to become Parties to the Intergovernmental Agreement on Dry Ports and to participate actively in the UNESCAP secretariat's activities related to the development of dry ports of international importance.
5. Invite SPECA countries to exchange information with the secretariat (e-mail: escap-ttd@un.org) on a regular basis on the latest status of key national and regional road and rail infrastructure projects, and provide the secretariat with information on ongoing and/or planned initiatives relating to policies and projects aiming at developing dry ports of international importance in their respective countries, including issues and challenges.
6. The PWG gave its support to the Euro-Asian Transport Links (EATL) Project; it encouraged Governments to participate more actively in the activities of the EATL Group of Experts and invited them, as well as other donors, to contribute to the EATL budget, preferably on a project basis.

7. The PWG reaffirmed the importance of the international legal instruments and invited SPECA countries to intensify their efforts to accede to and effectively implement them.
8. Encourage concerned SPECA countries to proceed swiftly with the ratification of the SCO Agreement on Facilitation of International Road Transport to ensure its soonest entry into force.
9. The PWG invited SPECA countries to delegate members to the UNESCAP Regional Network of Legal and Technical Experts on Transport Facilitation and to further participate in its activities.
10. The PWG highlighted the need to identify any outstanding issues related to the accession to and implementation of the transport-related international legal instruments, and requested UNECE and UNESCAP secretariats to provide assistance in assessing the implications of acceding to and implementing them.
11. Encourage SPECA countries to use the results of the “Strengthening the capacities of developing countries and countries with economies in transition to facilitate legitimate border crossing, regional cooperation and integration” project.
12. The PWG invited SPECA countries to think about introducing new technologies in the implementation of the UN Conventions by joining those allowing electronic information processing (Additional protocol to CMR [e-CMR], e-TIR).
13. The PWG encouraged the relevant government authorities of Kazakhstan, Kyrgyzstan and Tajikistan to support further implementation of the UN Development Account (UNDA) Project on the application of the transport facilitation toolkit and, in particular, to support the clusters’ activities for practical implementation of action plans on transport facilitation at both national and corridor levels. It encouraged SPECA countries to use other UNESCAP transport facilitation tools and took note of the handbook of Best Practices at Border Crossings, jointly published by UNECE and OSCE.

14. The PWG gave its support to the preparation and implementation of the Unified Railway Law and encouraged Governments to actively participate in the activities of the Group of Experts towards the Unified Railway Law and provide comments on draft Convention.
15. The PWG welcomed the initiative of the Kazakh Transport Research Institute (NII TK) on the preparation of the overview of the transport sector in the SPECA countries and requested SPECA countries to provide basic statistical data on road transport flow through key border crossing points one month before the annual meeting of the PWG-TBC. The PWG also welcomed further capacity building initiatives on transport statistics for the SPECA region.
16. The PWG encouraged SPECA countries to pursue policy measures to create the appropriate environment for the development of Public Private Partnerships and to strengthen the training programmes for government officials and other relevant stakeholders by taking advantage of training materials on PPPs prepared by UNECE and UNESCAP.
17. The PWG invited SPECA countries to take actions to respond to the Decade of Action for Road Safety and to continue to mobilize resources for road safety activities. It emphasized the need for the collection of quality road safety data and asked for technical assistance in data collection to facilitate the regular monitoring of road safety at the national and regional levels.
18. The Project Working Group noted with great interest the presentations made by the representatives of SPECA Member States on transport infrastructure and facilitation
