

# **Towards Interconnectivity and Interoperability of Paperless Trade Systems**

*Summary of Discussions and Recommendations  
(Southeast and East Asia Group)*

## Topics of discussions:

1. Technical matters of the Single Window towards interconnectivity and interoperability of Paperless Trading System

## **Topics of discussions(2)**

2. Development of the legal framework and challenges for interconnectivity and interoperability of Paperless Trading System.

3. Practical experiences of implementation of the ASW and ASEAN Connectivity.

## Conclusions

1. Political commitment of government should be supported by ownership of the community of users
2. Political commitment should be translated in specific actions with a clear timeline, including adequate human resources, budget and better coordination among governmental agencies and with the trading community

3. Functional requirements of the community of users on technical and legal matters determine those of the Single Window (SW) environment.
4. Development of an enabling legal framework is essential to SW transactions, starting with addressing interoperability and interconnectivity issues.

5. Proper planning and decentralization of implementation are key milestones for a successful implementation of the SW.

6. Human resource development and capacity building are determinant to successful implementation of the SW or any Paperless Trading System.

7. There is a clear need of addressing the divergence of economic interests of participating countries in the Single Window platform.

# Recommendations

Level

... a clear Roadmap/Masterplan at the very  
... of development of the Paperless Trade

... political determination into concrete action  
... determined deliverables. Human resources  
... ate budgetary allocations are essential.

Trade Facilitation Forum 2010: 5 - 6 October, KL, Malaysia
