

Introduction to the APEC Climate Center (APCC)

June 8, 2016

Dr. WonMoo Kim
Research Fellow
Climate Research Department

Ms. Bo Ra Kim
International Project Manager
External Affairs Department

Lessons learned yesterday

“information was available” but “not utilized”

 translation/customization 

“\$\$\$” – timely allocation of resources

preventative action utilizing prediction information

APEC Climate Center (APCC)

Mission

Use climate science and its applications to contribute to safer, more prosperous, and more resilient communities through:

Climate Prediction

Climate Information Services

Interdisciplinary Research

International Cooperation

APCC Activities

Climate Prediction

Climate Information Services

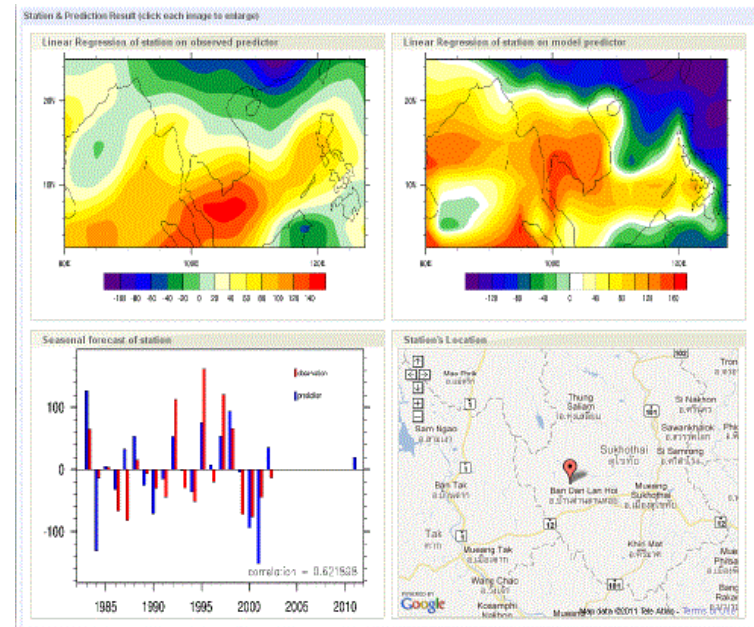

Interdisciplinary Research

International Cooperation

APCC produces value-added, reliable, and real-time climate prediction information for the Asia-Pacific

- 3 & 6-month Seasonal MME Outlook
- Drought and flood monitoring
- ENSO forecast
- Sub-seasonal (intra-seasonal) forecast
- Downscaled climate change scenarios

APCC Activities
