

PDNA

POST-DISASTER NEEDS ASSESSMENT

WORKSHOP OBJECTIVES AND BASIC RULES

Three days for building blocks

Purpose and Objectives of the Workshop

- To **review and disseminate the PDNA methodology** and process for post-disaster situations.
- To **understand the roles and responsibilities of the tripartite partners and Governments** in conducting PDNAs in a timely and effective manner.
- To **establish partnerships with the governments** so that the PDNA is a standard step following a disaster.

Purpose and Objectives of the Workshop

- To **expand the pool of assessment recovery specialists and trainers** familiar with the PDNA approach and methodology
- To **develop expertise in the sector and cross-cutting assessment** components of the PDNA.
- To **create the national capacity in PDNA** so that the PDNA could be supported at the sub-national and local levels.

Ground Rules

- Participate actively.
- Listen to what other people say without interrupting them.
- Provide respectful critiques during discussions.
- Each individual should feel free to express own views.
- There is no rank in the room.
- Be on time and commit your self to undertake all
