

El Nino

**Humanitarian response in
Asia and the Pacific:
impact and interventions**

Bangkok, Thailand

Tuesday, 7 June 2016

Purpose

- Locate the short-term immediate humanitarian needs induced by El Nino in the broader and longer term context of economic, societal, recovery and risk reduction.

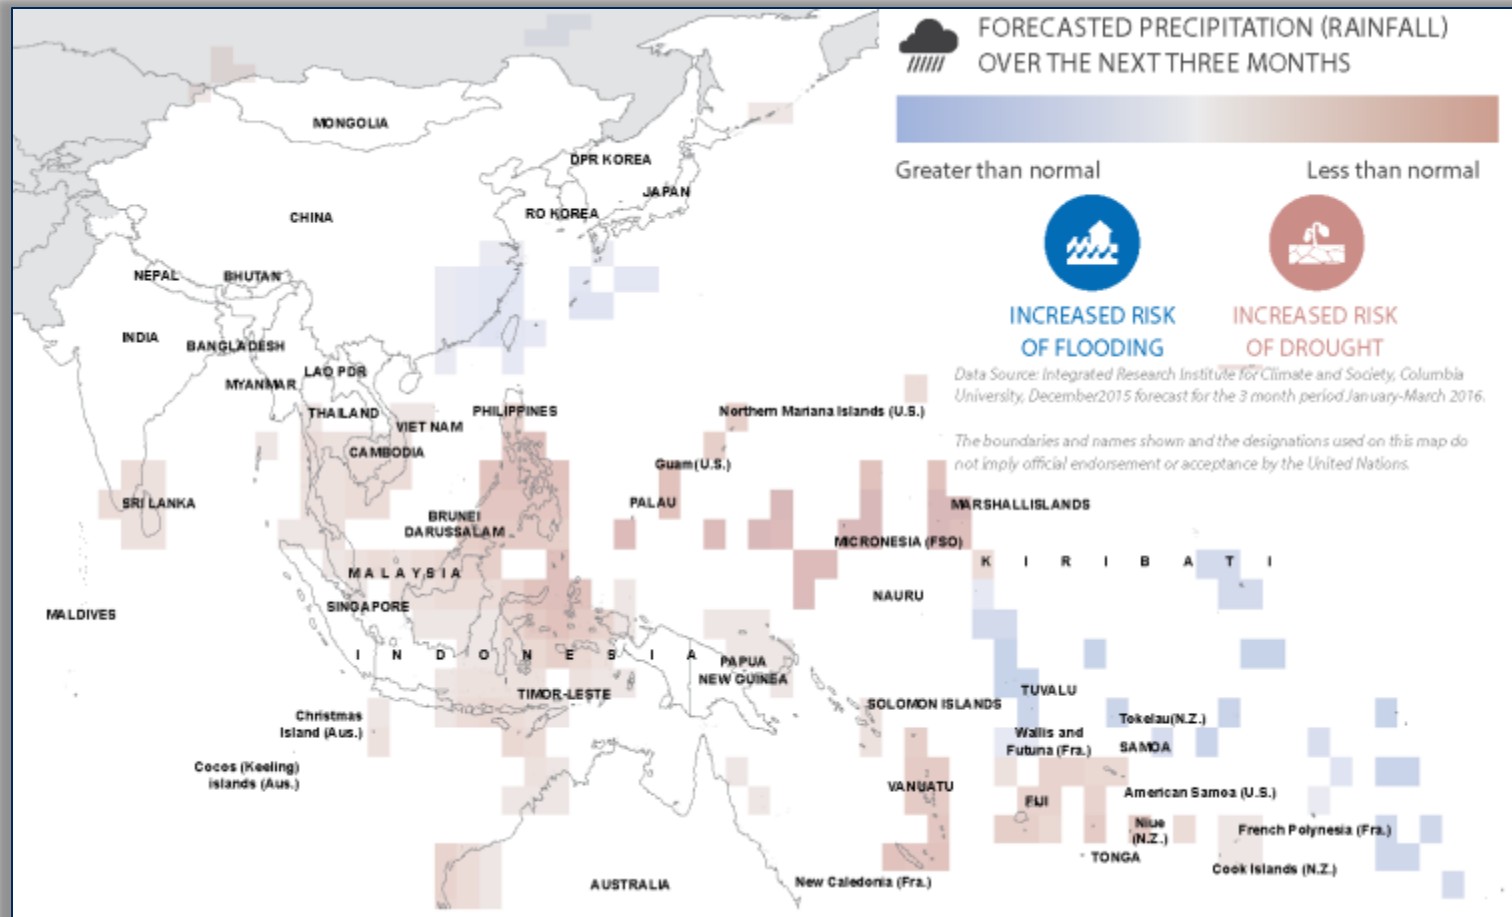

Outline

- Overview
- Impact
- Response

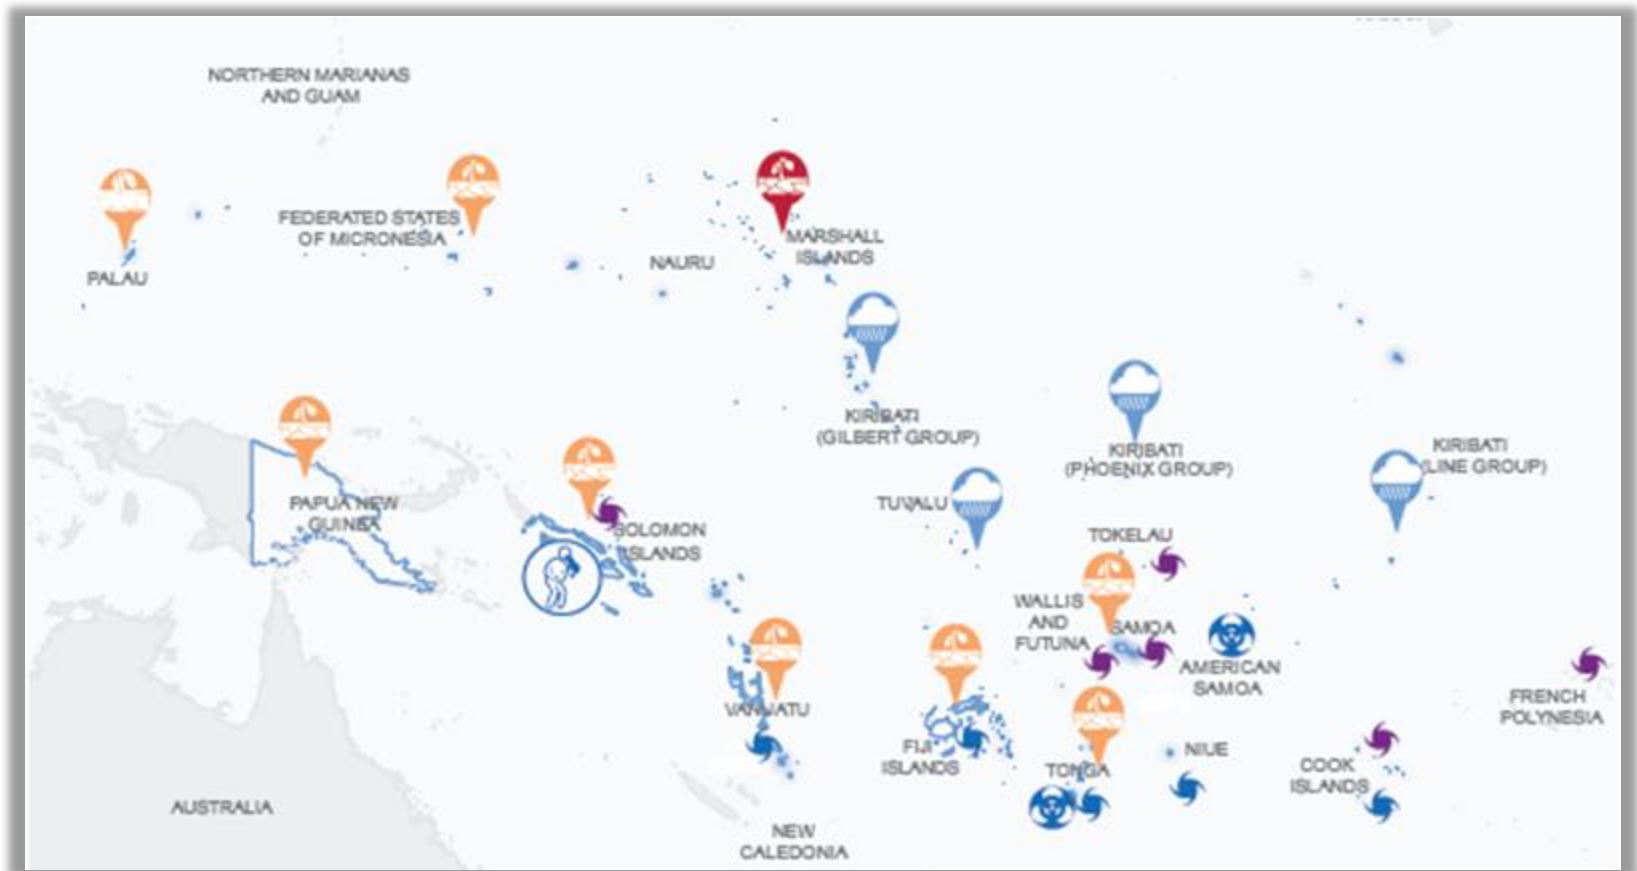

Regional overview

The impact of El Niño differed across the Asia-Pacific Region, but was generally experienced as extended dry spells or drought.

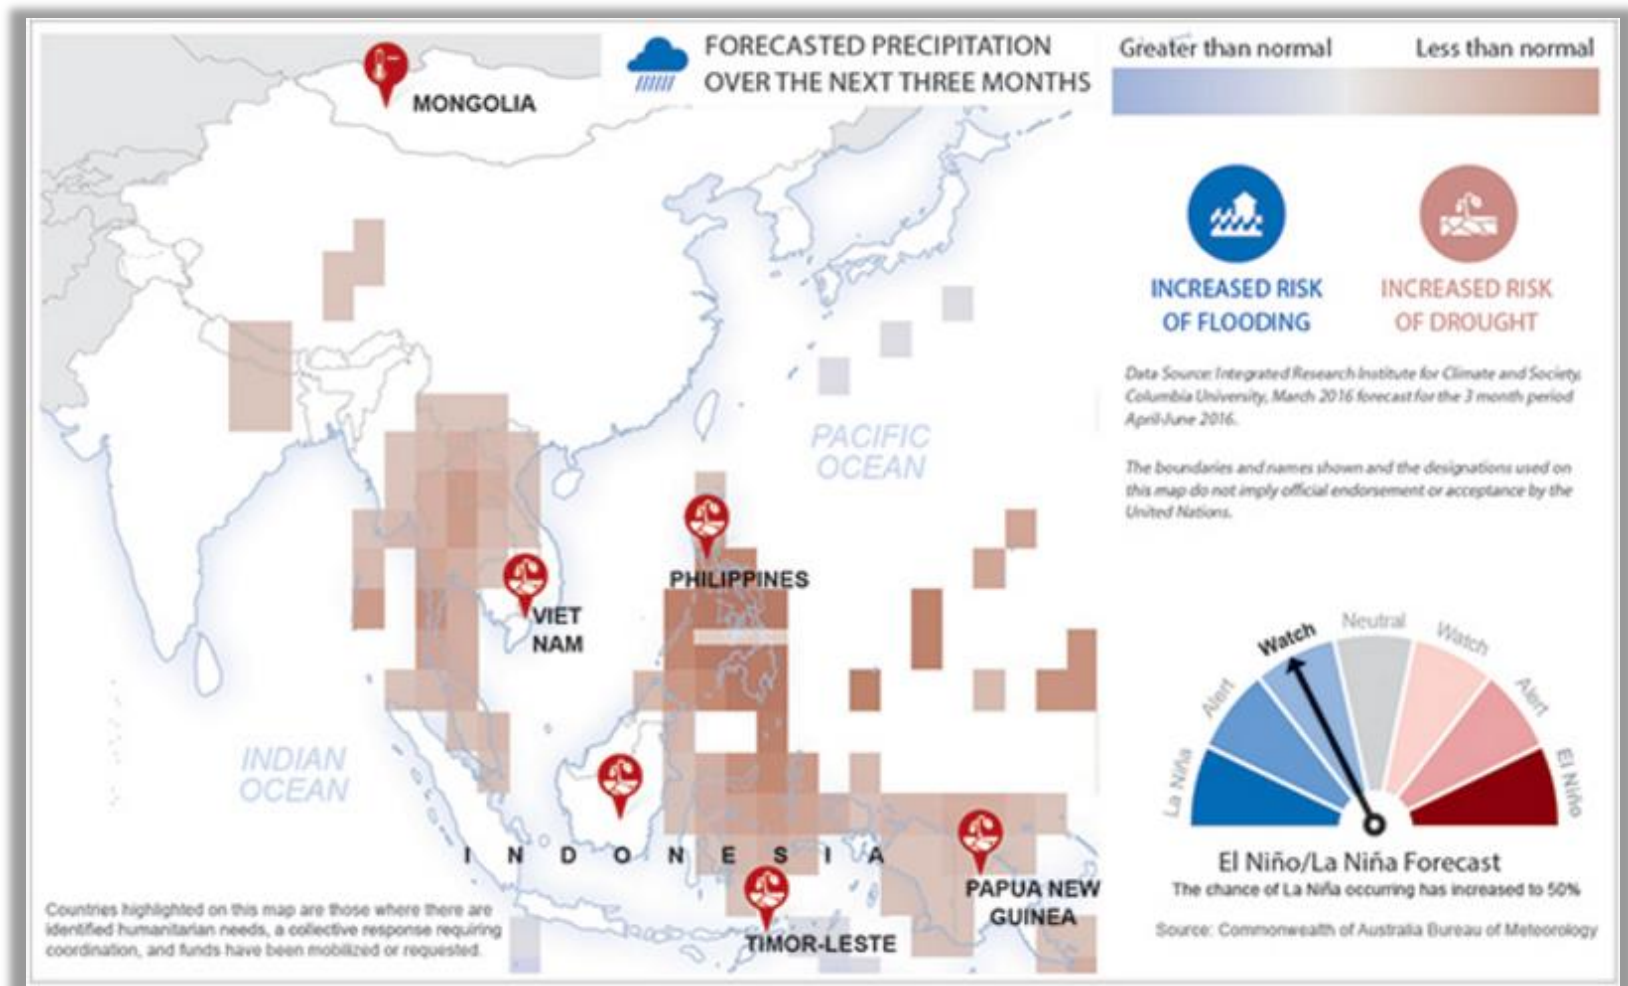

PACIFIC

The impact was more immediately acute in the Pacific, where countries already extremely exposed and vulnerable to climate change

ASIA

... but also significantly felt across Asia

As of 20 April 2016

Impact
