

ASIA PACIFIC INFORMATION SUPERHIGHWAY (AP-IS)

ICT and Disaster Risk Reduction Division
ESCAP

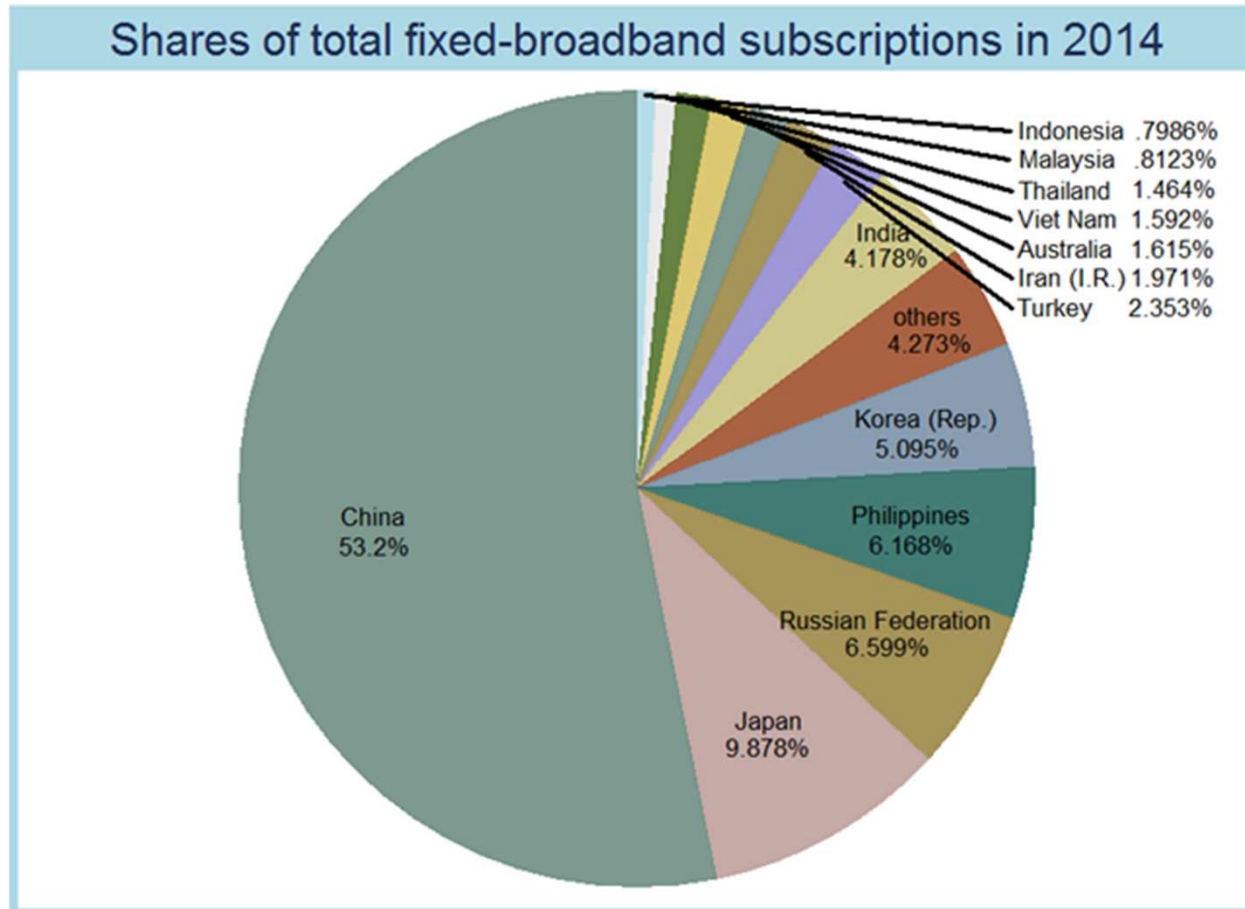

What is AP-IS?

- Regional Initiative supported by ESCAP
- A regional broadband network covering ESCAP Member countries and associate Member countries from Turkey to Kiribati
- A pillar in ESCAP's regional connectivity initiatives (together with transport and energy), which aims to facilitate movement of people, goods, money, information and knowledge for sustainable socioeconomic development in the region
- ...which addresses the causes of digital divides, develops Internet ecosystem which supports the implementation of the SDGs and stimulates digital economy

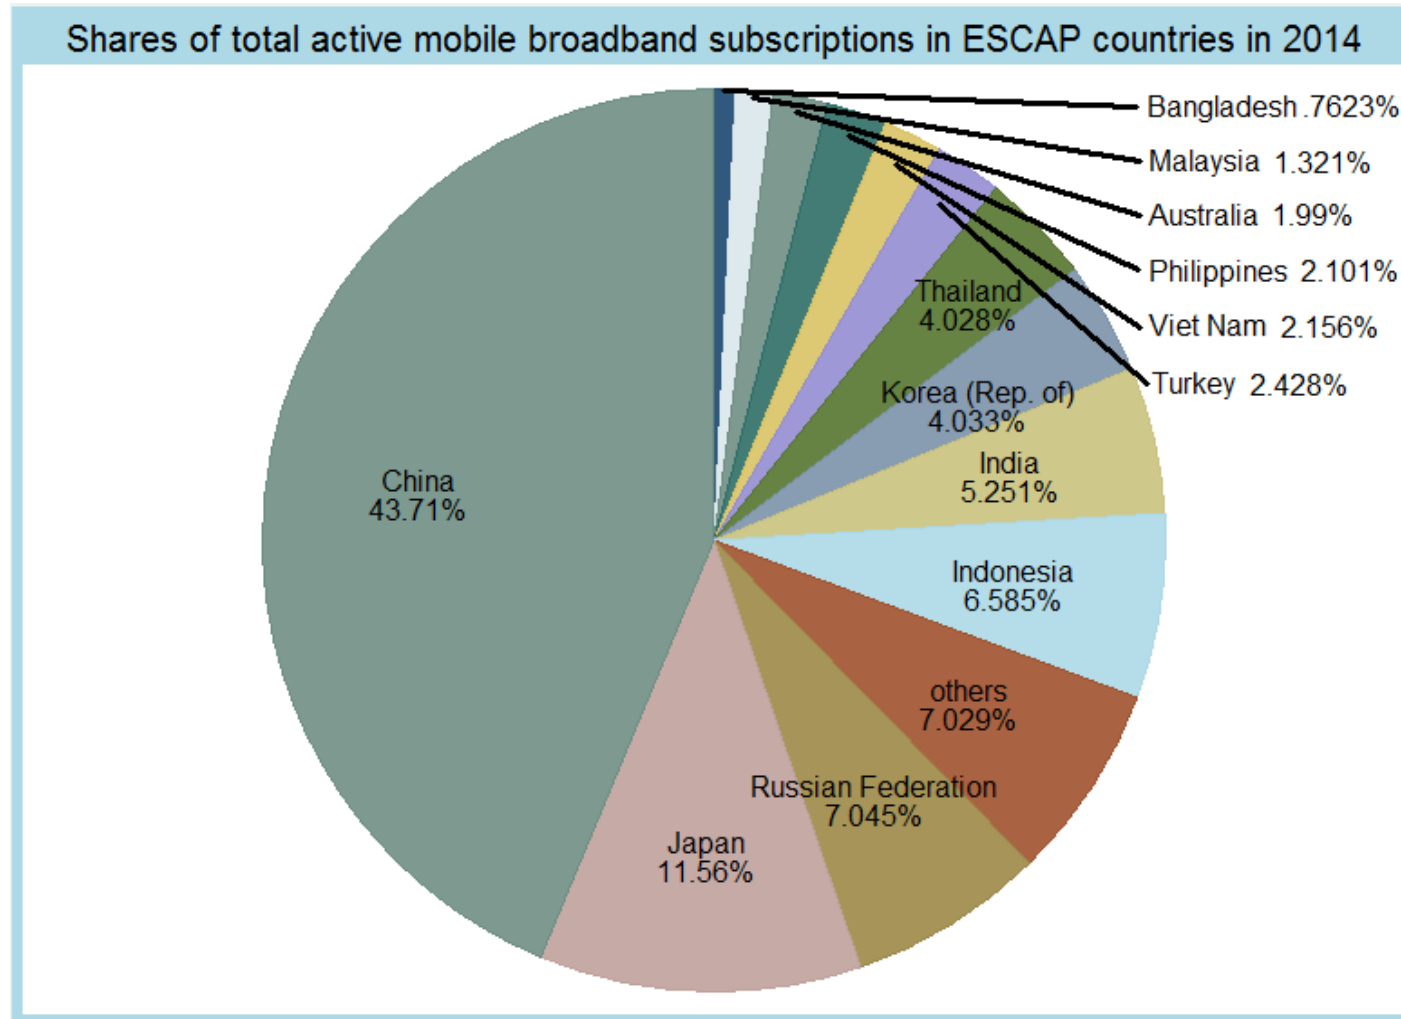

ESCAP Resolution 71/10 – formation of AP-IS Working Group

- (a) To promote the sharing of experiences, good practices and lessons learned in **ICT for DRR, management and response, and building e-resilience**;
- (b) To provide **the necessary support to facilitate the work of the open-ended working group on the Asia-Pacific information superhighway**;
- (c) To continue the fact-finding initiatives and analysis on the Asia-Pacific information superhighway, including by enhancing its maps, through partnerships with ITU and regional policy research institutions;
- (d) To continue working on the Asia-Pacific information superhighway in collaboration with international and regional partners
- (e) To promote, in collaboration with national, regional and international development partners, civil society and the private sector, the exchange of best practices and experiences and knowledge related to the development of ICT infrastructure, including in-depth analysis of the policy and regulatory barriers that may impede efforts to synchronize the deployment of infrastructure across the region in a seamless manner;
- (f) To explore further ways to harness cross-sectoral synergies, including through the review of best practices to recommend solutions to leverage synergies among ICT, energy and transport infrastructures across the region
