

# Building Back Better

focus on resilience and participation

**Prof. Vinod K. Sharma**  
Executive Vice-Chairman  
Sikkim State Disaster Management Authority, India

Aiming for a reconstruction process that builds back

a) safe,

b) sustainable, and

c) culturally suitable

homes, infrastructure and

communities

Post the 18 September 2011 Earthquake, Sikkim embarked on enabling communities and assets more resilient to the impacts of future disasters through skills training, greater awareness and access to capital, besides the core reconstruction activities

# Build Back Better Approach

# Key Features

- Innovative public service delivery
- Earthquake resistant features
- Operational framework
- Implementation models
- Training of staff
- Transparency safeguards
- Monitoring and evaluation
- Align with sustainability (1<sup>st</sup> Organic State)

# The Outcomes

- **Safer Houses:** 7,972 houses, using earthquake and multi hazard resistant features.
- **Better Builders:** A total of 1,000 local masons and their assistants received hand-on training under this project and were actively involved in the earthquake resistant house construction.
- **Aware Citizens:** A comprehensive awareness raising initiative extending to civil society organisations, elected representatives and schools

- **Trained Engineers:** More than 300 engineers got trained in disaster resistant house construction techniques.
- **Empowered Homeowners :** About 8,000 home owners comprising of 40,000 individuals are getting empowered by the homeowner driven construction strategy.
