

## Partnerships

We work with various partners in developing and implementing programmes for subregional cooperation. We maintain partnerships with civil society organizations, national research institutions, academia and multilateral organizations. For more information about the partners and programmes, please visit our website.

## ABOUT ESCAP

The United Nations Economic and Social Commission for Asia and the Pacific (ESCAP) is the regional development arm of the United Nations. With a total of 62 members and associate member States, ESCAP is the largest United Nations body serving the Asia-Pacific region with over 600 staff.

Established in 1947 and now its headquarters based in Bangkok, Thailand, ESCAP seeks to overcome some of the region's greatest challenges. It carries out work in the following areas:

- Macroeconomic Policy and Development
- Statistics
- Transport
- Environment and Development
- Social Development
- Trade and Investment
- ICT and Disaster Risk Reduction

# INTRODUCTION

The United Nations Economic and Social Commission for Asia and the Pacific: East and North-East Asia Office (ESCAP-ENEA) builds and strengthens partnerships among member countries and other stakeholders toward inclusive and sustainable development in Northeast Asia.

Inaugurated on 17 May 2010 in Incheon, Republic of Korea, the Office was established as a result of the Secretary-General's pledge to support the UN's development pillar.

ESCAP-ENEA also serves as the Secretariat of the North-East Asian Subregional Programme for Environmental Cooperation (NEASPEC).

## EAST AND NORTH-EAST ASIA AT A GLANCE

- Member States**
- China
  - Democratic People's Republic of Korea
  - Japan
  - Mongolia
  - Republic of Korea
  - Russian Federation

- Associate Members**
- Hong Kong, China
  - Macao, China

# KEY AREAS OF WORK

## Addressing social disparity

Increased roles of older persons in society and participation of youth in policy process.

## Promoting disaster resilient societies

Disaster risk reduction through improvement of database and early warning systems.

## Improving environmental sustainability

Transboundary air pollution, nature conservation, marine environment and low carbon cities.

## Strengthening intraregional connectivity

Trade-transport facilitation in the China-Mongolia-Russia corridor and studies on regional integration and development cooperation.
