

ICT industry of Tajikistan

Improving Broadband Connectivity
in Central Asia

International Conference

“Practical steps towards a knowledge-based
economy”

ICT Market facts

Growing internet penetration, esp mobile.

4G access cost varies from \$15 to \$100 US with traffic limit 5GB and 40GB respectively.

Speed varies from 1 Mbps up to 20 Mbps.

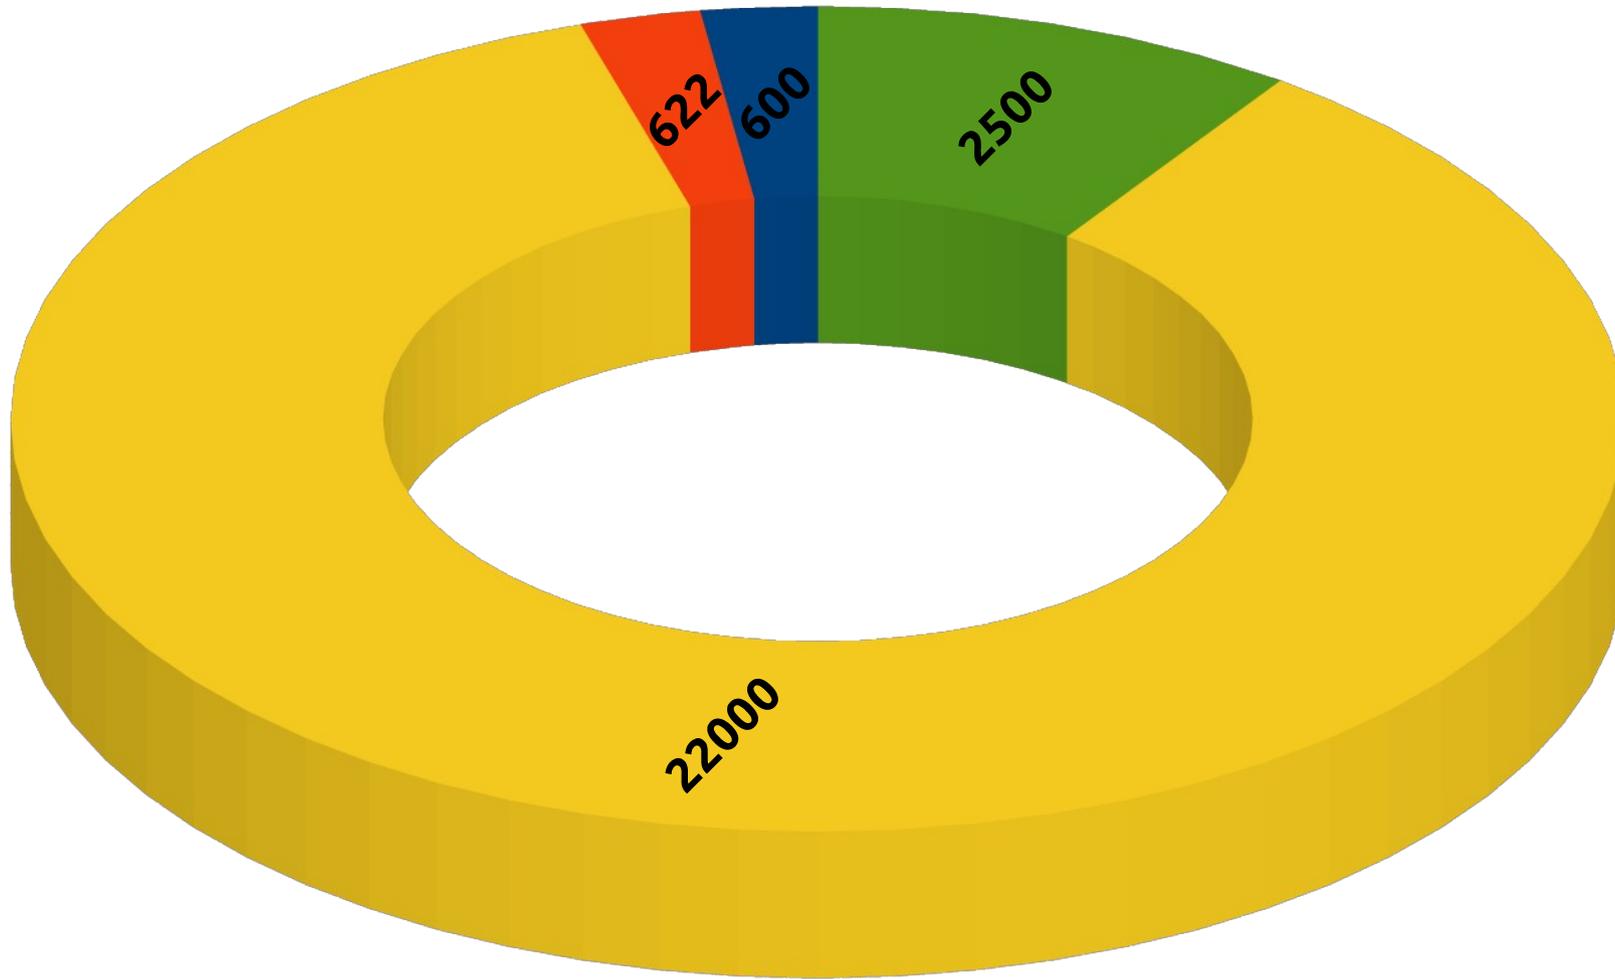

Internet and mobile broadband services are available mainly in cities and towns or administrative centers of districts but rural area

Technologies of access

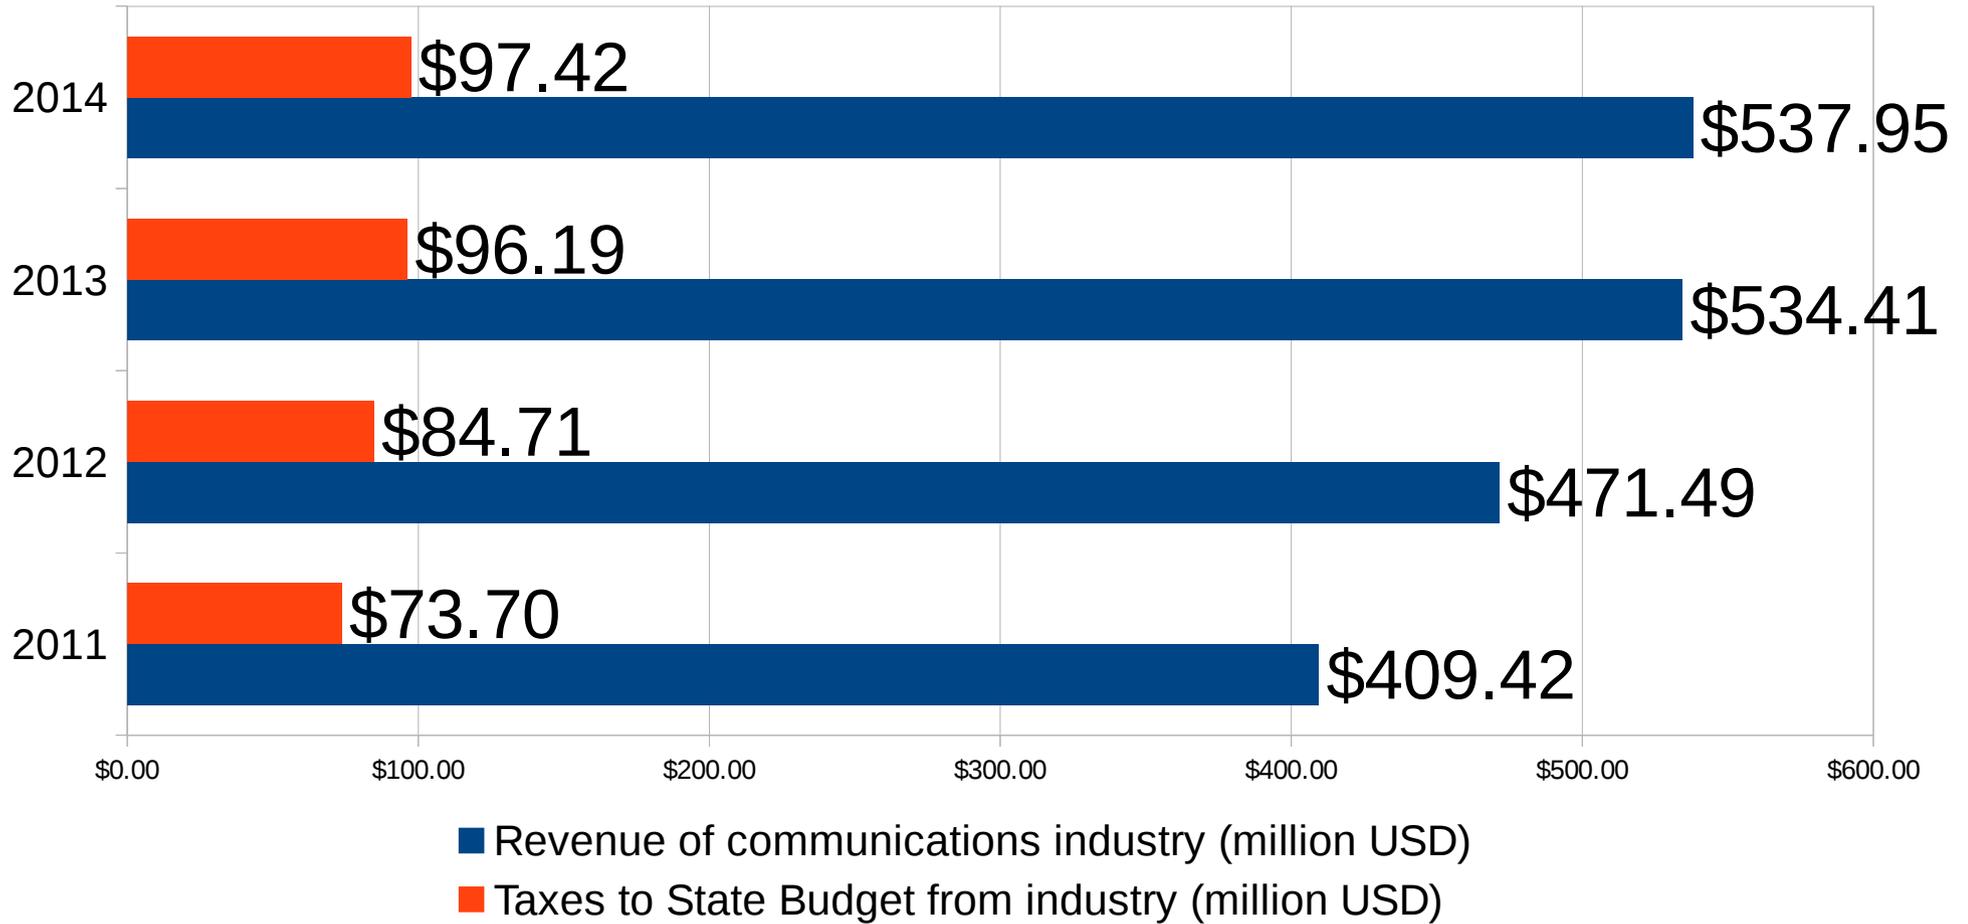

Connectivity	VSAT						Fiber-optic lines	
Generating technologies					NGN 'discovered' in Huawei		5G Concept is patented as WMNT	
PSTN	Analog			Digitization				
ccTLD		Registered	Negotiation to Redelegate					
Internet	Email	WWW				WiMAX		
Mobile technologies	AMPS	DAMPS	GSM		3G	3.5G		4G/LTE
	1995	1998	2000	2002	2005	2008	2009	2012

Afghanistan trans-border telecommunications network (Mbps)

■ Iran ■ Uzbekistan ■ Pakistan ■ Tajikistan

ICT Market Revenue, 2011-2014

Tajikistan in Regional Capacity Building Initiatives
