AFACT Trade Facilitation Programme

SHARP Working Group

- In order to develop the simplified, advanced, paperless and legally provable environment for business, trade and administration, sharp WG outlines the trusted communication platform for exchanging electronic documents between (business) via Internet. For that, Sharp WG focuses on three following properties needed for trusted communication platform:
 - - secured property means to assure safe electronic transmissions by means of information security among bi/multi parties
 - - authenticated property means to prove the electronic document produced from reliable communication between partners
 - - accountable property means to explain the legality of electronic documents including identification, authorization, archiving and so on

AFACT Trade Facilitation Programme

Tourism, Travel & Leisure WG (TT & L WG)

- In the Asia Pacific region, the travel, tourism and leisure working area is rapidly growing. This region has so diversified travel related resources that it is expected to distribute information on them as widely as possible and exchange information for commerce, study, publication, or any other purposes not only within the region but also with the world by using the currently established world information exchange standards and when needed by cooperatively developing new such standards with UN/CEFACT Forum, etc.

AFACT Trade Facilitation Programme

Cloud Computing Working Group

- To establish a standard format and mechanism for the interoperable virtual appliance marketplace for the cloud applications and for trading the virtual appliance for the cloud applications.
- Deploying applications and services in standards-compliant environment avoids vendor lock-in and enables “AppStore” for Cloud applications and services.
- To establish the best practice for utilizing DMTF and
