Welcome to the Trade Facilitation Agreement Coordination Site

This website is hosted by Annex D+ partners who are working together to ensure technical assistance and capacity building support is targeted where it is most needed, is better coordinated, and that its delivery is effectively monitored.

This platform houses the relevant documentation, resources, updates and news that will help the developing countries, and the development community at large, to stay abreast of the work undertaken by the Annex D+ partners.

In line with the Trade Facilitation Agreement (TFA) approach, the partners are collaborating to ensure that the potential to improve international coherence in the delivery of implementation support is fully leveraged.
