

# The Millennium Development Goals Progress in Thailand

Mrs. Kobkarn Mahuttano

Bureau of Health Promotion

Department of Health, Ministry of Public Health  
Thailand.

# MDGs Progress in Thailand

MDGs Related to Health	Result
MDG 1. Poverty and Hunger	Achieve
MDG 6. Combat HIV/AIDS, Malaria and other disease	Achieve
MDG 7. Environmental Sustainability	Achieve
MDG 8. Develop a global partnership for development	Achieve
MDG 4. Reduce Child Mortality	Achieve
MDG 5. Improve Maternal Health	Declined

# Thailand Context

Maternal and child health program in Thailand has been identified as a major priority of Health Development Plan of the country since 1962.

At present MCH still receives strong support as basic health promotion service for women and children as it is goal of the Millennium Development Declaration of the UN to improve maternal and child health mortality.

As such, MMR also declined.

# Maternal Health Situation

Indicator	2004	2006	2009	2012
MMR per 100,000 LB	44.5	41.6	35.2	–
Antenatal Care 4 time	81.4	83.8	79.6	93.4
Skill Birth Attendance	–	99.4	99.5	99.6

MMR per 100,000 LB: 50,48. 36.7 from 1990,2008,2011(WHO,UNFPA,World F

Source : Bureau of Policy and Strategy, Ministry of Public Health  
( Data from Civil Registration and Vital Statistics )

# Maternal Health Situation in Specific Area

Indicator	2007	2009	2011
MMR in Hill Tribe	113.4	80.6	70.9
MMR in 3 southern provinces	52.6	39.4	48.1

The gap of MMR was considerably across 13 regions. The MMR was lowest in Bangkok ( 25.3/100,000 LB) and was more than twice as high in those areas.

# The causes of maternal death

Causes of maternal death	percent
– Hemorrhage	7.7
– Obstructed labour	6.3
– HIV/AIDS	6.2
– Hypertension and eclampsia	6.0
– Sepsis	5.3
– Cancer	5.1
– Indirect cause	48.6
– unknown cause	5.7

# Implementations for Maternal and Child Health

- Quality Service System
- Maternal and child Health Handbook
- Specific Area
- Dead Case Conference
- Building Capacity of Health personnel
- Regional and Provincial MCH Board

# Quality System in Maternal and Child Health

## Antenatal Care

- early ANC (12 wks gestation or less)
- Thalassemia screening
- VCT HIV
- Parental School
- Nutrition
- Iron supplement
- Dental Care
- Mother club in community

## Delivery and Postpartum Care

- Safe motherhood hospitals
- Baby Friendly Hospitals Initiatives
- Parental School
- Lactation Clinics
- Congenital Hypothyroid and PKU Screening
- Mother club in community

## Well Child Clinics

- Standard WCC
- Parental School
- Child Development check up
- Nutrition
- Story telling, Toys
- Dental Care
- Mother club in community

**Mother clubs in communities for breastfeeding promotions / Child rearing practices**
