ACKNOWLEDGEMENTS

Many individuals have helped me make this report possible in a variety of ways during the study. At UNESCAP, those assisting me include Dr. Madan B. Regmi, Economic Affairs Officer of Transport Research and Policy Section, Ms. Wanna Kunsabfueng, Staff Assistant of Transport Research and Policy Section, and others. At the General Department of Land Transport (GDLT), MPWT, H.E Chhoun Voun, Director General, Mr. Duy Chan Dara, Deputy Director General, Ms. Men Chan Sokol, Director of Land Transport Department (LTD), Mr. Meng Chhunheng, Director of Urban Public Transport Department, the staff at Urban Public Transport Department and Road Traffic Safety Department, and my team members. Besides, the people also assisting me include Mr. Ean Sokhim, the governor of City Bus Authority (CBA) and all his staff, Dr. Kok Sothea, lecturer at RUPP, and many others from various organizations. Without their tireless cooperation, timeless assistance, and constant encouragement, the present assessment report would not have been achieved. In response to their generous contribution, my acknowledgements go generally and particularly as follows:

I would, first, like to thank UNESCAP for granting me the opportunity to get involved in such crucial development work as the national consultant for the project of Sustainable Assessment of Urban Mobility and Impacts of COVID-19 on Passenger Transport from June to December 2021. This occasion does not only give me a chance for my professional development, but also gives both direct and indirect benefits for GDLT of MPWT, especially in the field of Public Urban Transport System Development in Cambodia, and Phnom Penh in particular, through the forthcoming evidence-based strategic plan and policy formulation and project interventions derived from the present report. I should also like to express my thankfulness and appreciation for DGLT and LTD, for purveying me to pursue the present paper.

My special indebtedness and profound thankfulness go to my immediate leaders namely H.E Chhoun Voun, Director General of GDLT; and Ms. Men Chan Sokol, Director of LTD, who have always been helpful to me with their encouragements, guidance, invaluable advice, duty discharges on several occasions during the entire process of drafting this report. In addition to this, their approachability has relieved my anxiety, tension and frustration of performance while pursuing this assessment. Without their tireless assistance and efforts, the conduct of this study process would have been extremely difficult.

I would, secondly, like to acknowledge my deep and sincere gratitude to my project manager, Dr. Madan B. Regmi, Economic Affairs Officer of Transport Research and Policy Section, for his insightful comments, positive encouragements, continuing advice, and kind understanding. I should, thirdly, also like to thank Ms. Wanna Kunsabfueng, Staff Assistant of Transport Research and Policy Section of

UNDESCAP for excellent administrative works, coordination, and assistance. Fourthly, I would also like to express my gratitude and thanks to Mr. Meng Chhunheng, Director of Urban Public Transport Department, Mr. Ean Sokhim, CBA Governor and his associates for sharing experiences, ideas, information, that were interesting, useful, and invaluable as well as their warmest hospitality during the interview meeting. Great thanks and appreciations are due to my teams, Mr. Y Song, project focal point, Mr. Kak Yuthavonn, coordinator, and Mr. Kim Panhaseth, coordinator. Certainly, their kind, helpful attitudes encourage me to perform the best.
