

# CITES and its Implementation: case study and experiences of Indonesia

**Dr. Nandang Prihadi**

Indonesia CITES Management Authority

Workshop on Trade & Environment for Asia and Pacific Economies

Bogor, 18 September 2013

# CITES – an existing regulatory option

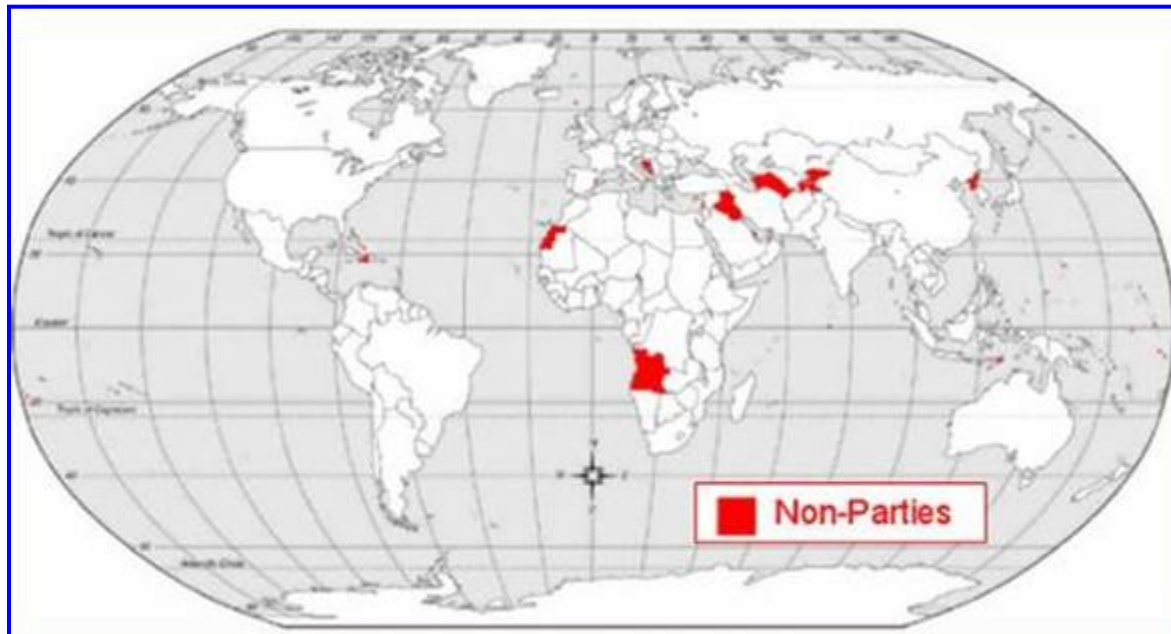

## ➔ *Convention on international trade in endangered species of wild flora and fauna*

- an international agreement between governments
  - ➔ adopted in Washington DC, USA 3 March 1973
  - ➔ entry into force since 1975
- a legally-binding global treaty which now regulates international trade in over 34,000 species

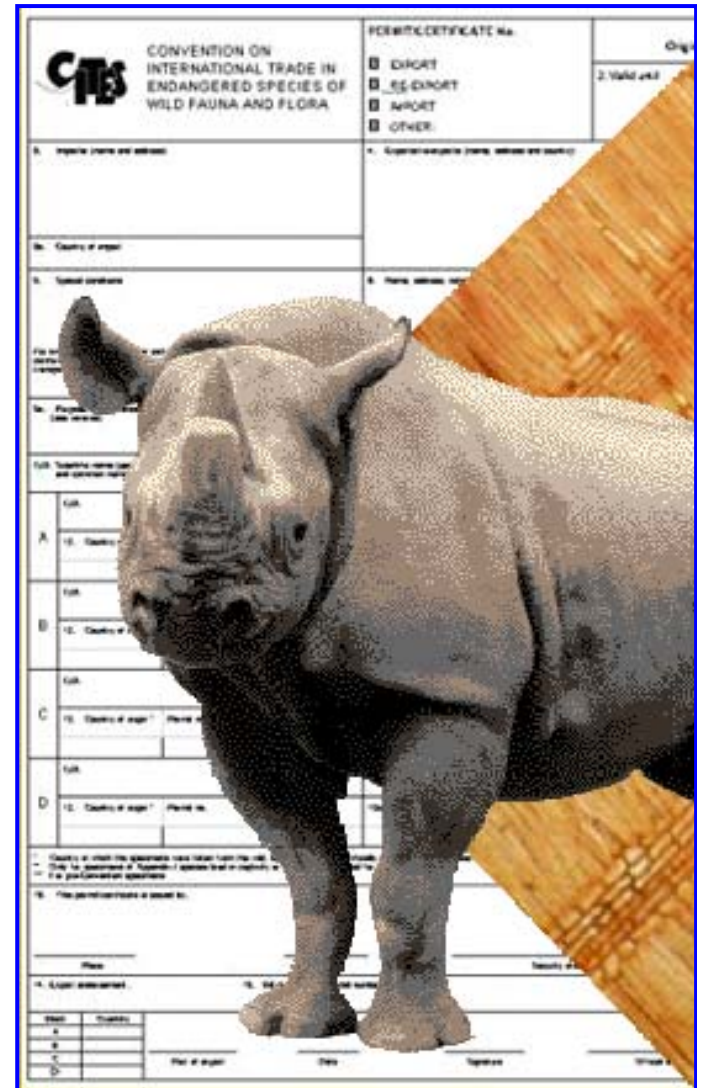

# CITES – an existing regulatory option

- the convention has 178 States-Parties and has been in operation for over 40 years.
  - Indonesia became the 48th state-party in 1978
  - Lebanon became the 178th state-party in 2013

# CITES – an existing regulatory option

- Its aim is to ensure that international trade in specimen of wild animals and plants do-not threaten their survival.
- Put into practice the concept of the sustainable use of biodiversity with significant benefit for local people and the global environment

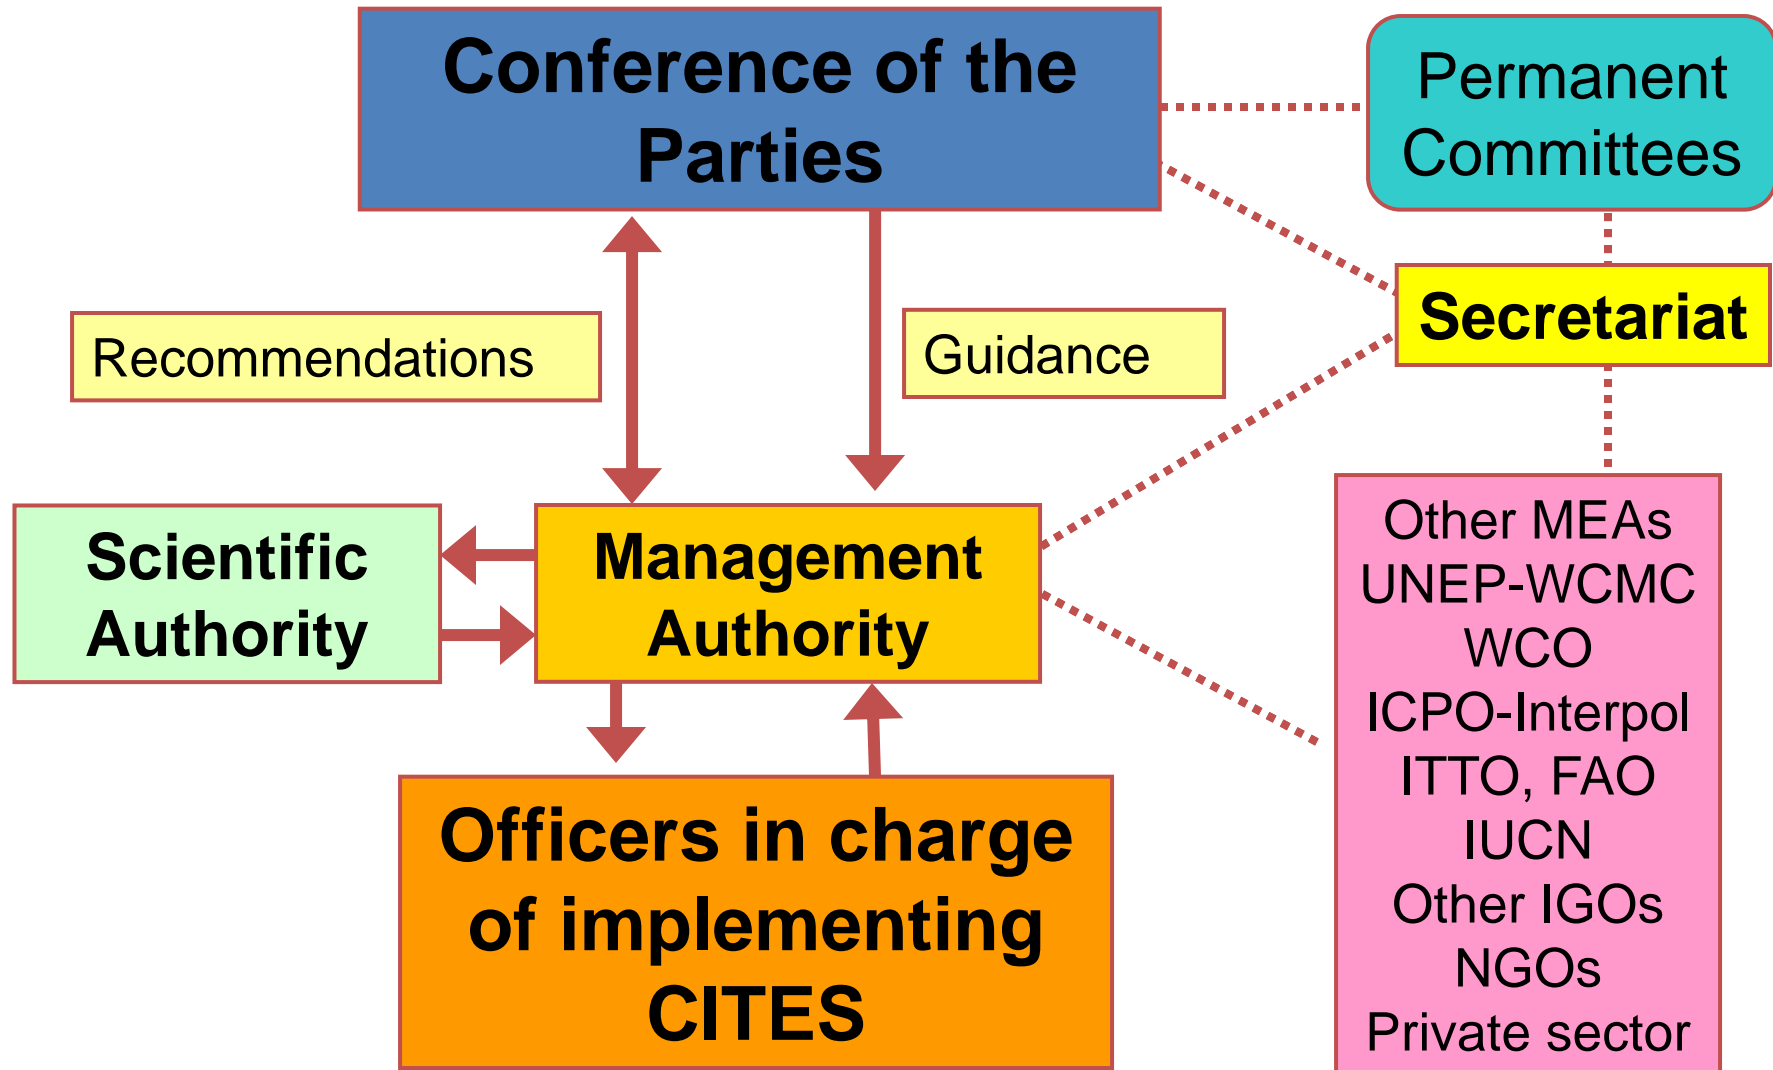

# CITES – an existing regulatory option

- Scope/definitions of trade (Definition; Article 1 of text of convention)
  - Trade means export, re-export, import and introduction from the sea
  - Specimens trade are covering any animal or plant, whether alive or dead, any readily recognizable part or derivatives unless the species is annotated to indicate that only specific parts and derivatives are included.

# Institutional Structure of CITES

# Institutional Structure of CITES in Indonesia

Gov't Regulation No. 8/1999 Article 66)
