

Dr. Xuejun Yu

Dr. Xuejun Yu is director-general, department of development planning and information, National Population and Family Planning Commission of China (NPFPC). He holds a B.A. M.A. in Economics and a Ph.D. in Population Economics from Beijing University, and conducted post-doctoral research in the Economics Department of Yale University between 1996 and 1998.

Prior to taking his current position, he worked as executive director of China Population Information and Research Center (1998-2004); director-general, department of policy and legislation, NPFPC (2004-2009); vice mayor of Jinzhou city, Liaoning province (2010-2012). He also serves as Standing Council member and director of Panel on Aging, China Population Association, Adjunct professor of People's University and Jilin University.

Xuejun Yu's research interests are in population statistics, ageing, and population policy. In recent years, he is involved in many research activities, and makes efforts to be the bridge between academic research and government policy. He published widely on Chinese demographic topics, with particular emphasis on population aging and economic development.

Ri Chol Hui

Chairman of the Central Committee Federation for Care of the Aged

University. I had worked at the Central Bureau of Statistics of Korea as an official, chief of the Population and Family Policy Director.

I have been engaged in collecting and analyzing the data on industry, agriculture, education, public health and

After the data analysis in 1993 population census, the Democratic People's Republic of Korea (DPRK), supported by UNFPA and participated in cooperation with the International Organizations and Director of CBS, such as the National Children's Development Fund by UNICEF, the 2nd Population Census in 1993 and etc.

I have been working as a Vice-Chairwoman of the Central Committee Federation for Care of the Aged and contributing to the development of the elderly care in DPRK.

I participated in the ageing-related International conferences and shared the experience and successes achieved in this elderly care-work and are now making efforts to develop the cooperation with the International Organizations and NGOs and also improve our elderly care-work, contributing to the challenges of regional ageing.
