

Accelerating Equitable Achievement of the MDGs

Closing Gaps in Health and Nutrition Outcomes

Asia-Pacific Regional MDG Report 2011/12

in collaboration with

The Economic and Social Commission for Asia and the Pacific (ESCAP) promotes regional cooperation for inclusive and sustainable economic and social development in Asia and the Pacific, a dynamic region characterized by growing wealth, diversity and change, but also challenged with persistent poverty, environmental degradation, inequality and insecurity. ESCAP supports member States with sound strategic analysis, policy options and capacity development to address key development challenges and to implement innovative solutions for region-wide economic prosperity, social progress, environmental sustainability and resilience to external shocks. ESCAP, through its conference structure, assists member States in forging a stronger, coordinated regional voice on global issues by building capacities to dialogue, negotiate and shape development agenda in an age of globalization, decentralization and problems that transcend borders. A key modality for this strategy is the promotion of intraregional connectivity and regional integration.

ADB's vision is an Asia and Pacific region free of poverty. Its mission is to help its developing member countries reduce poverty and improve the quality of life of their people. Despite the region's many successes, it remains home to two-thirds of the world's poor: 1.8 billion people who live on less than \$2 a day, with 903 million struggling on less than \$1.25 a day. ADB is committed to reducing poverty through inclusive economic growth, environmentally sustainable growth, and regional integration. Based in Manila, ADB is owned by 67 members, including 48 from the region. Its main instruments for helping its developing member countries are policy dialogue, loans, equity investments, guarantees, grants, and technical assistance.

UNDP partners with people at all levels of society to help build nations that can withstand crisis, and drive and sustain the kind of growth that improves the quality of life for everyone. On the ground in 177 countries and territories, we offer global perspective and local insight to help empower lives and build resilient nations.

Accelerating Equitable Achievement of the MDGs

Closing Gaps in Health and Nutrition Outcomes

OVERVIEW

Accelerating Equitable Achievement of the MDGs: Closing Gaps in Health and Nutrition Outcomes	1
Diagnosing disparities	1
Disparities between countries	1
Disparities within countries	2
Closing the health gaps	3
1. Address the social determinants of health	3
2. Expand access to primary health care	3
3. Integrate child and maternal health into a continuum of care	3
4. Act on the health needs of the urban poor	4
5. Devise sustainable financial strategies	4
6. Improve the governance of health systems	4
7. Enhance the affordability of medicines through generics	4
8. Strengthen international partnership and regional cooperation	5
Mutual inspiration	5

CHAPTER I

MDGs in Asia and the Pacific: where we stand	7
Asia and the Pacific on the global stage	12
Health – diagnosing the deficits	12
Feeding our children	12
Preventing child deaths	12
Preventing maternal deaths	15
Providing safe drinking water	23
Ensuring access to basic sanitation	23
Number of people in off-track countries who will gain if targets are reached	27
Chapter I Endnote	28

CHAPTER II

Diagnosing disparities	29
The extent of disparities	30
Measuring disparities between countries and over time	30
Why some countries do better than others in health	35
Economic growth	36
Health expenditure	36
Better governance	36
Number of health personnel	36
Gender equality and women's development	38
Infrastructure	38
Child immunization	40
Sanitation and water supplies	40
Population growth	40
Literacy	40
Accounting for disparities	40
Disparities within countries	41
Raising the attainment levels while reducing disparities	45
Explaining disparities within countries	46
Urban-rural gaps	49
Caste, ethnicity and language group	53
The importance of economic status	53
Regional differences in policies and programmes	53
Mining the data	55
Chapter II Endnotes	55

CHAPTER III

Closing the health gaps	57
1. Address the social determinants of health	57
2. Expand access to primary health care	59
3. Integrate child and maternal health into a continuum of care	61
4. Act on the health needs of the urban poor	62
5. Devise sustainable financial strategies	63
6. Improve the governance of health systems	69
7. Enhance the affordability of medicines through generics	70
8. Strengthen international partnership and regional cooperation	71
Mutual inspiration	72
Chapter III Endnotes	73

CHAPTER IV

Way Forward	75
MDGs Beyond 2015	76
Chapter IV Endnotes	77

BIBLIOGRAPHY	78
---------------------	-----------

STATISTICAL APPENDIX

Technical Note 1: MDG progress classification	81
Technical Note 2: Factors explaining disparities between countries	85
Technical Note 3: Accounting for disparities between countries	88
Technical Note 4: Analysis of disparities within countries	90
Technical Note 5: Selected MDG Indicators	97

BOXES

Box I-1	Ensuring comparable data	8
Box I-2	Data on HIV	10
Box I-3	Reproductive health	28
Box III-1	Unlikely alliances for reducing HIV-related stigma	58
Box III-2	Primary health care in China	59
Box III-3	Expenditure on preventive and public health	60
Box III-4	New facilities reduce infant mortality in Bihar, India	60
Box III-5	Mongolia's success in reducing maternal mortality	63
Box III-6	Total health expenditures as a share of gross domestic product	64
Box III-7	Out-of-pocket expenses as a share of private health expenditures	65
Box III-8	Health expenditure gaps	68
Box III-9	Marginal budgeting for bottlenecks in Pakistan	69

TABLES

Table I-1	Country groups on and off track for the MDGs	9
Table I-2	Countries on and off track for the MDGs	11
Table I-3	Rate of progress needed for off-track countries to meet the child nutrition target	15
Table I-4	Rate of progress needed for off-track countries to meet the under-5 mortality target	17
Table I-5	Rate of progress needed for off-track countries to meet the maternal mortality target	19
Table I-6	Rate of progress needed for off-track countries to meet the skilled birth attendance target	21
Table I-7	Rate of progress needed for off-track countries to meet the antenatal care target	22
Table I-8	Rate of progress needed for off-track countries to meet the safe drinking water target	23
Table I-9	Rate of progress needed for off-track countries to meet the basic sanitation target	26
Table I-10	Potential gains if off-track countries can meet their targets	27
Table II-1	Gini and Theil indices of inter-country distribution of MDG indicators	34
Table II-2	Factors considered to explain disparities for selected MDG indicators	43

FIGURES

Figure I-1	Asia and the Pacific compared with Sub-Saharan Africa and Latin America and the Caribbean	13
Figure I-2	The Asia-Pacific share of the developing world's deprived people	14
Figure I-3	Progress in reducing the proportion of under-5 children underweight	14
Figure I-4	Progress in reducing under-5 mortality	16
Figure I-5	Progress in reducing maternal mortality	18
Figure I-6	Progress in increasing skilled birth attendance	20
Figure I-7	Progress in expanding antenatal care	22
Figure I-8	Progress in improving access to safe drinking water	24
Figure I-9	Progress in expanding access to basic sanitation	25
Figure I-10	Progress in contraceptive prevalence rate and adolescent birth rate in Asia and the Pacific	28
Figure II-1	Proportion of population below \$1.25 (PPP) per day, per cent, 2004	30
Figure II-2	Net enrolment in primary education, per cent, 2009	31
Figure II-3	Infant mortality rate per 1,000 live births, 2010	31
Figure II-4	Under-5 mortality rate per 1,000 live births, 2010	31
Figure II-5	Maternal mortality rate per 100,000 live births, 2008	32
Figure II-6	Incidence of underweight children, per cent, latest year	32
Figure II-7	HIV prevalence among population 15-24 years old, per cent, 2009	32
Figure II-8	Inter-country disparity in prevalence of underweight children under 5, 1995-2005	33
Figure II-9	Contribution to disparities by subregion, selected MDG indicators	35
Figure II-10	Cross-country variation in under-5 mortality explained by differences in per capita health spending	37
Figure II-11	Cross-country variation in maternal mortality explained by differences in corruption control	37
Figure II-12	Cross-country variation in maternal mortality explained by differences in percentage of births attended by skilled health personnel	38
Figure II-13	Cross-country variation in child mortality explained by differences in gender development	39
Figure II-14	Births attended by skilled health personnel and the extent of paved roads	39
Figure II-15	Contributions to inter-country disparities for three MDG health-related indicators	41
Figure II-16	Health disparities across sub-national jurisdictions in two large countries	42
Figure II-17	Health-related disparities across jurisdictions in two small countries	42
Figure II-18	Disparities and attainment in health-related MDG targets	44
Figure II-19	Drivers of disparities in underweight prevalence among under 5 children	46
