DEVELOPMENT OF KNOWLEDGE SOCIETY THROUGH ICT NETWORK

- ⊙ The development of any society is possible only when they are made AWARE
- ⊙ For AWARENESS they need to be informed FIRST
- ⊙ Once informed, they shall be provided with accessibility in affordable manner.
- ⊙ Common Service Center – (Tele Center/ICT Network) are proving to be the best tools for development and are acting as Catalyst to the development process.
- ⊙ CSC movement in India is maturing everyday empowering people with knowledge and becoming “Common Solution Centers” for better livelihood in rural area’s.
- ⊙ The rural communities through common service centers are empowered with 3 A’s
 - 1) Awareness
 - 2) Accessibility
 - 3) Affordability

Tele Centre's Acting as Knowledge Hub Its happening !

Accordingly the CSC (Telecenters) are shared KNOWLEDGE POWER HOUSE, providing energy of information and awareness to communities driving them to sustainable socio-economic development.

CSC MOVEMENT IN INDIA

KNOWING CSC PROJECT

तू उठ और चल।
हैं नये रंग, है नई फिज़ा। बदल रहा, हिन्दोस्तां.....।।
