Scenario Overview

Global Cluster

The screenshot displays the OneResponse web application interface for the Global Cluster Health section. The top navigation bar includes links for HOME, COUNTRIES, DISASTERS, GLOBAL CLUSTERS, and SITE ACTIONS. The main content area is titled "Health Cluster Overview" and features a central graphic of a caduceus. To the left, a sidebar lists "Meeting Minutes" and "Health Toolkits". Below the overview, there are two columns of links: "Policy and Guidance" and "Toolkits". On the right, there are sections for "Training and Resources" and "Links". At the bottom right, an "Upcoming Events" section indicates that there are currently no upcoming events.

Health Cluster Overview

The Global Health Cluster, under the leadership of the World Health Organization, is made up of more than 30 international humanitarian health organizations that have been working together over the past two years to build partnerships and mutual understanding and to develop common approaches to humanitarian health action. The work of the GHC aims to produce:

- Widely endorsed products and services that will streamline emergency response and increase its predictability
- Greater coherence in health action among the many and varied stakeholders by building partnership and common understanding
- Well managed health information, integrated into an overall information management system that will serve all stakeholders to ensure an evidence-based health response
- A system to rapidly deploy health cluster coordinators, other experts and medical

Policy and Guidance

-  A practical guide for Health Cluster Coordinators and participants
-  Guiding Principles for the Health Cluster Action Plan
-  INITIAL RAPID ASSESSMENT IRA TOOL.pdf
