

# Economic Implications of Teenage Pregnancy

Alejandro N. Herrin

# Framework

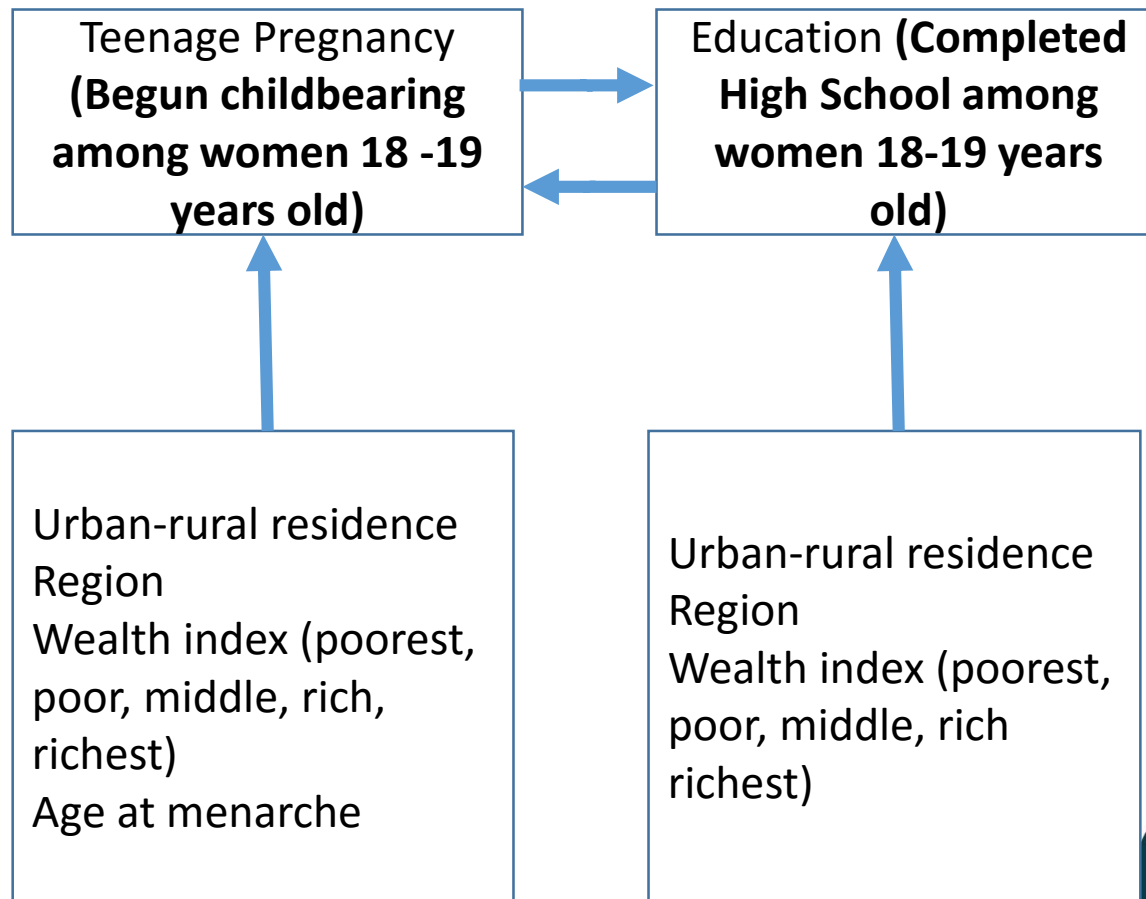

# Data

- **National Demographic and Health Survey (NDHS) 2013**  
– source of data for estimating the relationships between teenage pregnancy and education, and demographic and socio-economic factors
- **Labor Force Survey-Family Income and Expenditure Survey (LFS-FIES) 2012** – source of data for estimating the effect of education on wage rates, taking into account demographic and socio-economic factors and participation of women in work for pay

# Empirical model: Early Childbearing and High School Completion

# Teenage Childbearing, NDHS 2013

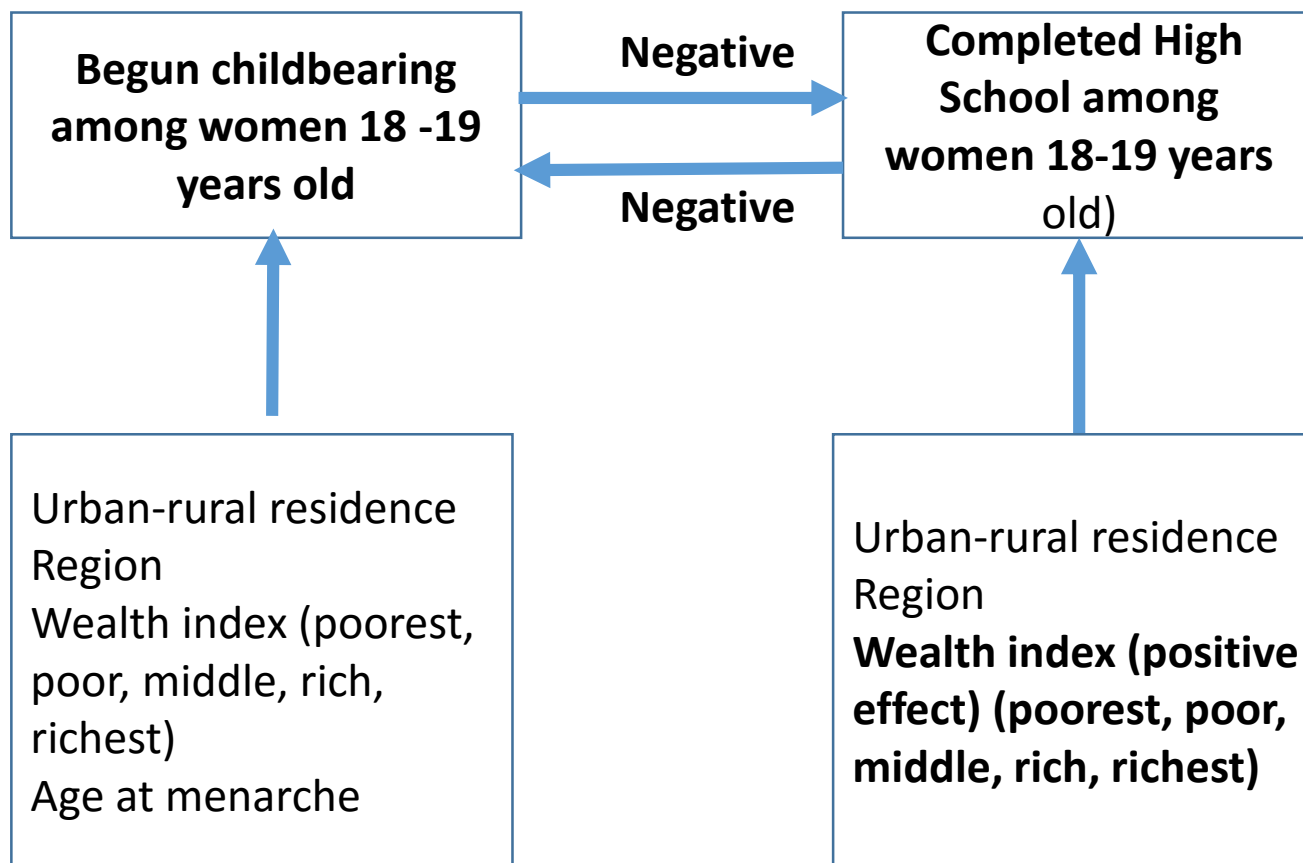

Percent of Women Who Have Begun Childbearing  
by Age, 2003, 2008 and 2013

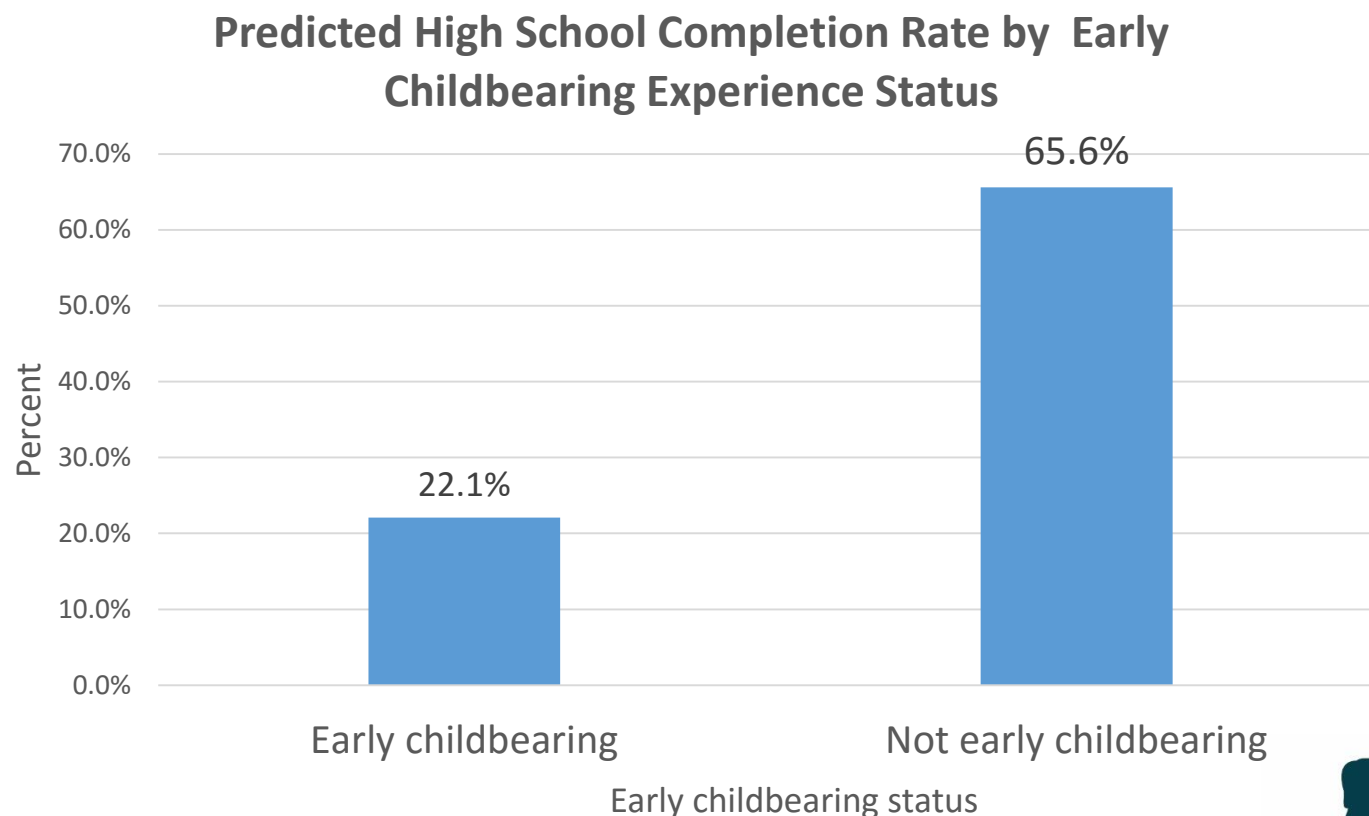

Source: NDHS 2003, 2008 and 2013

# Results: Early Childbearing and High School Completion

# Results: Early Childbearing and High School Completion

Source of basic data: NDHS 2013

\*Evaluated at mean values of other independent variables

# Results: Early Childbearing and High School Completion

Predicted High School Completion Rate by Early Childbearing Experience and by Wealth Quintile
