## Foreword

The 2014 Myanmar Population and Housing Census (2014 Census) was conducted with midnight of 29 March 2014 as the reference point. This is the first Census in 30 years; the last was conducted in 1983. Planning and execution of this Census was spearheaded by the former Ministry of Immigration and Population, now the Ministry of Labour, Immigration and Population, on behalf of the Government, in accordance with the Population and Housing Census Law, 2013. The main objective of the 2014 Census is to provide the Government and other stakeholders with essential information on the population, in regard to demographic, social and economic characteristics, housing conditions and household amenities. By generating such information at all administrative levels, it is also intended to provide a sound basis for evidence-based decision-making, and to evaluate the impact of social and economic policies and programmes in the country.

The results of the 2014 Census have been published so far in a number of volumes. The first was the Provisional Results (Census Volume 1), released in August 2014. The Census Main Results were launched in May 2015. These included *The Union Report* (Census Report Volume 2), *Highlights of the Main Results* (Census Report Volume 2-A), and the reports for each of the 15 States and Regions (Census Report Volume 3[A - O]). The reports on *Occupation and Industry* (Census Report Volume 2-B), and *Religion* (Census Report Volume 2-C) were launched in March 2016 and July 2016, respectively. The first set of thematic reports (Fertility and Nuptiality; Mortality; Maternal Mortality; Migration and Urbanization; and Population Dynamics) has also been published.

The current set of the 2014 Census publications comprises 13 thematic reports and a Census Atlas. They address issues on Fertility and Nuptiality; Mortality; Maternal Mortality; Migration and Urbanization; Population Projections; Population Dynamics; the Elderly; Children and Young People; Education; Labour Force Dynamics; Disability; Gender Dimensions; and Housing Conditions, Amenities and Household Assets. Their preparation involved collaborative efforts with both local and international experts as well as various Government Ministries, Departments and research institutions.

Data capture for the Census was undertaken using scanning technology. The processes were highly integrated, with tight controls to guarantee accuracy of results. To achieve internal consistency and minimize errors, rigorous data editing, cleaning and validation were carried out to facilitate further analysis of the results. The information presented in these reports is therefore based on more cleaned data sets, and the reader should be aware that there may be some small differences from the results published in the earlier set of volumes.

This report presents population projections for the Union of Myanmar based on the 2014 Myanmar Population and Housing Census. It provides projected population and population by age and sex for the Union, for urban and rural areas of the Union, and for each of the 15 States/Regions. Population data disaggregated at these levels for successive years over a relative long period of time constitute a valuable tool for policy, programme planning and service delivery provision, as well as to guide public and private investments. Population projections are an important contribution to strengthen the knowledge base for evidence-based policy decision-making.

## Foreword

On behalf of the Government of Myanmar, I wish to thank the teams at the Department of Population, the United Nations Population Fund (UNFPA) and the authors for their contribution towards the preparation of this thematic report. I would also like to thank our development partners, namely: Australia, Finland, Germany, Italy, Norway, Sweden, Switzerland, and the United Kingdom for their support to undertake the Census, as well as the technical support provided by the United States of America.

A handwritten signature in blue ink that reads "Thein Swe". The signature is written in a cursive style and is underlined with a single horizontal stroke.

H.E U Thein Swe  
Minister for Labour, Immigration and Population  
The Republic of the Union of Myanmar

# Table of Contents

**Foreword** / II

**List of Tables** / VI

**List of Figures** / VI

**List of Tables in Appendices** / VII

**List of Figures in Appendices** / VIII

**Executive Summary** / IX

**Chapter 1. Introduction** / 1

1.1 Uses of population projections / 2

1.2 Projection methodology / 3

**Chapter 2. Union Projections** / 4

2.1 Mortality and fertility assumptions / 4

2.2 International migration assumptions / 4

2.3 Population growth / 6

2.4 Components of growth / 7

2.5 Age-sex distribution / 8

2.6 Population ageing and dependency ratios / 9

**Chapter 3. Rural-Urban Projections** / 11

3.1 Mortality and fertility assumptions / 11

3.2 International and internal migration assumptions / 11

3.3 Population growth and urbanization / 14

3.4 Components of population growth / 14

3.5 Age-sex distribution / 15

3.6 Population ageing and dependency ratios / 16

**Chapter 4. State/Region Projections** / 18

4.1 Mortality and fertility assumptions / 18

4.2 International and internal migration assumptions / 19
