| <b>1. Background</b>                                                          | <b>1</b>    |
| <b>2. Objectives</b>                                                          | <b>2</b>    |
| <b>3. Methodology</b>                                                         | <b>2</b>    |
| 3.1. Selection criteria                                                       | 2           |
| 3.1.1. <i>Exclusion criteria</i>                                              | 2           |
| 3.1.2. <i>Inclusion criteria</i>                                              | 2           |
| 3.2. Search strategy for identification of studies                            | 2           |
| 3.2.1. <i>Searching electronic databases</i>                                  | 2           |
| 3.2.2. <i>Search of published studies</i>                                     | 3           |
| 3.2.3. <i>Personal contacts</i>                                               | 3           |
| 3.3. Method of review                                                         | 3           |
| 3.3.1. <i>Screening and data extraction form</i>                              | 3           |
| 3.3.2. <i>Management of studies and data extraction</i>                       | 3           |
| 3.3.3. <i>Review criteria</i>                                                 | 4           |
| <b>4. Findings on Research Methods</b>                                        | <b>4</b>    |
| 4.1. Topic distribution during 2006-2010                                      | 4           |
| 4.2. Study participants                                                       | 5           |
| 4.3. Research methods                                                         | 6           |
| 4.4. Study setting                                                            | 7           |
| 4.5. Report quality                                                           | 7           |
| <b>5. Findings on Reproductive Health Topics for Studies During 2006-2010</b> | <b>9</b>    |
| 5.1. Safe motherhood                                                          | 9           |
| 5.1.1. <i>Maternal mortality</i>                                              | 9           |
| 5.1.2. <i>Neonatal mortality</i>                                              | 10          |
| 5.1.3. <i>Antenatal care</i>                                                  | 12          |

|        |                                                              |    |
|--------|--------------------------------------------------------------|----|
| 5.1.4. | <i>Intrapartum care</i>                                      | 15 |
| 5.1.5. | <i>Postnatal care</i>                                        | 18 |
| 5.1.6. | <i>Depression during prenatal and postpartum period</i>      | 20 |
| 5.1.7. | <i>MCH care system</i>                                       | 21 |
| 5.1.8. | <i>Intervention on MMR and NMR reduction</i>                 | 26 |
| 5.2.   | <b>Family planning</b>                                       | 27 |
| 5.2.1. | <i>Total fertility rate (TFR)</i>                            | 27 |
| 5.2.2. | <i>Contraceptive prevalence rate (CPR)</i>                   | 28 |
| 5.2.3. | <i>Contraceptive methods</i>                                 | 29 |
| 5.2.4. | <i>Factors related to contraceptive prevalence rate</i>      | 30 |
| 5.3.   | <b>Reproductive Tract Infection (RTI)</b>                    | 32 |
| 5.3.1. | <i>RTI</i>                                                   | 32 |
| 5.3.2. | <i>STI</i>                                                   | 33 |
| 5.3.3. | <i>Knowledge, attitude and practice (KAP) on RTI and STI</i> | 34 |
| 5.3.4. | <i>HIV/AIDS</i>                                              | 36 |
| 5.4.   | <b>Adolescent Reproductive Health (ARH)</b>                  | 41 |
| 5.4.1. | <i>Puberty/maturity</i>                                      | 41 |
| 5.4.2. | <i>Adolescent reproductive health (ARH)</i>                  | 42 |
| 5.5.   | <b>Reproductive Health of the Elderly</b>                    | 49 |
| 5.5.1. | <i>Health problems of the elderly</i>                        | 49 |
| 5.5.2. | <i>Menopausal disorder</i>                                   | 49 |
| 5.5.3. | <i>Reproductive health care intervention for the elderly</i> | 50 |
| 5.6.   | <b>Reproductive Cancer</b>                                   | 50 |
| 5.6.1. | <i>Breast cancer</i>                                         | 50 |
| 5.6.2. | <i>Cervical cancer</i>                                       | 51 |
| 5.6.3. | <i>Cervical cancer prevention</i>                            | 53 |
| 5.6.4. | <i>Cancer of male reproductive organs</i>                    | 53 |
| 5.7.   | <b>Abortion</b>                                              | 53 |
| 5.7.1. | <i>Abortion rate in Viet Nam</i>                             | 53 |
| 5.7.2. | <i>Characteristics of women seeking abortions</i>            | 54 |
| 5.7.3. | <i>Types of abortion</i>                                     | 54 |
| 5.7.4. | <i>Awareness and perception on abortion in Viet Nam</i>      | 55 |
| 5.7.5. | <i>Reasons for abortion</i>                                  | 56 |
| 5.7.6. | <i>Complications of abortion</i>                             | 56 |
| 5.7.7. | <i>Access to abortion services</i>                           | 57 |

|                                                       |           |
|-------------------------------------------------------|-----------|
| 5.8. Domestic Violence                                | 58        |
| 5.8.1. <i>Domestic violence</i>                       | 58        |
| 5.8.2. <i>Consequences of domestic violence</i>       | 59        |
| 5.8.3. <i>Interventions on domestic violence</i>      | 60        |
| 5.9. Infertility                                      | 60        |
| 5.9.1. <i>Infertility rate</i>                        | 60        |
| 5.9.2. <i>Cause of infertility</i>                    | 60        |
| 5.9.3. <i>Risk factors for infertility</i>            | 61        |
| 5.9.4. <i>Knowledge and practice on infertility</i>   | 61        |
| 5.9.5. <i>Diagnosis and treatment for infertility</i> | 61        |
| <b>6. Concluding Observations</b>                     | <b>62</b> |
| 6.1. Research methods                                 | 62        |
| 6.1.1. <i>Topics</i>                                  | 62        |
| 6.1.2. <i>Subjects of studies</i>                     | 62        |
| 6.1.3. <i>Design</i>                                  | 62        |
| 6.1.4. <i>Settings</i>                                | 63        |
| 6.2. Findings                                         | 63        |
| 6.2.1. <i>Safe motherhood</i>                         | 63        |
| 6.2.2. <i>Family planning</i>                         | 64        |
| 6.2.3. <i>RTI, STI and HIV/AIDS</i>                   | 64        |
| 6.2.4. <i>Adolescent reproductive health</i>          | 64        |
| 6.2.5. <i>Reproductive cancer</i>                     | 65        |
| 6.2.6. <i>Abortion</i>                                | 65        |
| 6.2.7. <i>Domestic violence</i>                       | 65        |
| 6.2.8. <i>Infertility</i>                             | 65        |
| 6.3. Limitation of the review                         | 66        |
| 6.4. Direction for future studies                     | 66        |
| <b>7. Annexes</b>                                     | <b>69</b> |
| 7.1. Annex 1: Screening form                          | 69        |
| 7.2. Annex 2: Recording/extraction form               | 69        |
| <b>8. References</b>                                  | <b>71</b> |
